**PLASTIC SURGERY**

Pediatric plastic surgeons treat children with a variety of problems from simple moles, bumps and scars to complex surgeries on the face, jaws and skull.

**Dr. Michael Rock, MD**

Dr. Rock is board certified in pediatrics and pediatric plastic surgery. He earned his medical degree from the University of Oklahoma, Oklahoma City, OK and completed his internship and residency at Oklahoma University Medical Center, Indianapolis, IN, a plastic surgery residency at the University of Connecticut School of Medicine, Farmington, CT and a craniofacial and pediatric plastic surgery fellowship at St. Louis Children’s Hospital, St. Louis, MO. He specializes in the treatment of birth defects affecting the face, particularly cleft lip and palate.

**Delora Mount, MD**

Dr. Mount is board certified in surgery and plastic surgery. She earned her medical degree from the University of Illinois, Chicago, IL. She completed her general surgery residency and internship at Indiana University School of Medicine, Indianapolis, IN and reconstructive surgery residency at the University of Wisconsin–Madison. Ann has extensive experience working with pediatric patients. Prior to working with pediatric urology, she was the clinic manager for the UW Pediatric Specialty Clinic in Appleton.

**Ruthie Su, MD**

Dr. Su earned her medical degree from Mount Sinai School of Medicine, New York, NY. She completed her residency at the University of Pittsburgh Medical Center, Pittsburgh, PA and fellowship at Children’s Hospital and Regional Medical Center, Seattle, WA. Her clinical interests include minimally invasive robotic urologic surgery, myelomeningocele (spina bifida), bladder reconstruction and disorders of sexual development.

**Ann Byrne, CPNP**

Ann Byrne is a certified pediatric nurse practitioner. She earned her degree from the University of Wisconsin–Madison. Ann has extensive experience working with pediatric patients. Prior to working with pediatric urology, she was the clinic manager for the UW Pediatric Specialty Clinic in Appleton.

**Mary Schroth, MD**

Dr. Schroth specializes in the treatment of birth defects affecting the face, particularly cleft lip and palate.

**Robert Slaughenhoupt, MD**

Dr. Slaughenhoupt specializes in the treatment of birth defects affecting the face, particularly cleft lip and palate.

CARDIOVASCULAR MEDICINE

Pediatric cardiology cares for children with disorders of the circulatory system that include the heart, arteries and veins. Some common disorders are heart valve problems, abnormal heart rhythms. Pediatric cardiologists also care for patients with congenital heart defects from birth.

Jennifer Rahm, MD

Dr. Rahm is board-certified in pediatrics and pediatric cardiology. She earned her medical degree from the University of Illinois, Chicago. She completed her internship at the University of Iowa, Iowa City. She completed her residency and fellowship at the University of Wisconsin Hospital and Clinics, Madison, WI. She is a member of the American Society of Echocardiography and the American College of Cardiology. She specializes in the care of infants and children with congenital heart defects.

ENDOCRINOLOGY/DIABETES

Endocrinologists evaluate and treat children and adolescents with endocrine glandular disorders. Some common disorders are diabetes, hypothyroidism, delayed puberty, congenital adrenal hyperplasia, and growth problems.
