## Autopsy

Telephone: 608.263.8899 (8:00 am – 4:00 pm)

After hours, contact the pathology resident on call (608.262.2122) or use Web paging for the Pathology Surgical Resident for the appropriate date and time.

## Bone Marrow Laboratory

The UWHC Bone Marrow laboratory provides technical assistance for the collection of Bone Marrow biopsies and provides support services for Hematopathology.

Services include:

- Bone Marrow, Body Fluid, and Peripheral Blood Cell differentials
- Cytochemical stains used to aid in the diagnosis of hematological diseases
- Urine Hemosiderin testing

Technical assistance for Bone Marrow Biopsy collections are by appointment only, Monday through Friday, 8:00 am – 4:30 pm.

Telephone: 608.263.8044

Fax: 608.263.0910

**Manager:** Susan LaRose, MSM, H (ASCP) MLT, QCYM 608.263.0907 [slarose@uwhealth.org](mailto:slarose@uwhealth.org)

## Client Services

The UWHC Laboratory Client Services department provides support in the following areas:

- Processing of specimens for Laboratory testing for all University of Wisconsin Hospital inpatient units and outpatient clinics, University Health Services and other external sources
- Requisition forms and billing inquiries
- Clinical Laboratories Phone Center, including result reports and inquiries
- Commercial laboratories referral testing
- Research protocol testing

Telephone: 608.263.7060

FAX: 608.263.0910

**Assistant Director** Christine Reuter, MBA, MT (ASCP) 608.263.7031 [creuter2@uwhealth.org](mailto:creuter2@uwhealth.org)

**Manager:** Tim Watkins, MT (ASCP) 608.263.8046 [twatkins2@uwhealth.org](mailto:twatkins2@uwhealth.org)

**Medical Director:** Teresa P. Darcy, MD 608.263.7506 [tdarcy@uwhealth.org](mailto:tdarcy@uwhealth.org)

## Core Laboratory

The UWHC Core Laboratory provides highly automated, comprehensive stat and routine testing in the following areas:

- Chemistry, hematology, and coagulation
- HIV and Hepatitis testing
- Body Fluid testing
- Blood gases
- Urinalysis

Telephone: 608.263.7060  
FAX: 608.263.0910

**Managers:**  
Sandra Ermis, MBA, MT (ASCP) 608.263.9096 [sermis@uwhealth.org](mailto:sermis@uwhealth.org)

Laura Bubla, BS HCM, MLT (ASCP) 608.262.6226 [lbubla@uwhealth.org](mailto:lbubla@uwhealth.org)

### **Medical/Faculty Directors:**

**Chemistry:** Donald Wiebe, PhD 608.263.1495 [dwiebe@uwhealth.org](mailto:dwiebe@uwhealth.org)  
**Hematology:** David Yang, MD 608.263.5965 [dtyang@wisc.edu](mailto:dtyang@wisc.edu)  
**Coagulation:** Eliot Williams, MD, PhD 608.262.5327 [williams@medicine.wisc.edu](mailto:williams@medicine.wisc.edu)

## Cytopathology Laboratory

The UWHC Cytopathology Laboratory provides comprehensive testing in the following areas:

- Fine Needle Aspiration of palpable and deep seated lesions
- Cytologic examination and testing of body fluids such as urine, effusions, and CSF
- Gynecologic Pap Test by ThinPrep® or conventional smear methodology
- To avoid specimen rejection, refer to the UWHC Laboratory Test Directory for detailed information on specimen collection and transport

Telephone: 608.263.3205  
FAX: 608.263.6453

**Manager:** Thomas Scheberl, SCT (ASCP) 608.265.0728 [tscheberl@uwhealth.org](mailto:tscheberl@uwhealth.org)  
**Medical Director:** Suzanne M. Selvaggi, MD 608.265.9160 [sselvaggi@uwhealth.org](mailto:sselvaggi@uwhealth.org)

## Flow Cytometry Laboratory

The UWHC Flow Cytometry laboratory performs flow cytometric analysis used by clinicians in diagnosing, monitoring, and treating patients with the following disorders: acute and chronic leukemia, lymphoproliferative disease, multiple myeloma, immune deficiencies, multiple sclerosis, and paroxysmal nocturnal hemoglobinuria. Services include:

- Acute and chronic leukemia immunophenotyping
- Lymphoproliferative disorder immunophenotyping
- Multiple Myeloma Immunophenotyping
- Paroxysmal Nocturnal Hemoglobinuria testing
- T-cell and T-subset quantitation
- CD3 and CD20 quantitation
- CD34 (Stem Cell) quantitation
- T-cell, B-cell, NK-cell quantitation

Telephone: 608.263.3868  
Fax: 608.263.0910

**Manager:** Susan LaRose, MSM, H (ASCP) MLT, QCYM 608.263.0907 [slarose@uwhealth.org](mailto:slarose@uwhealth.org)  
**Medical Director:** Catherine Leith, MB BChir 608.263.3903 [cleith@uwhealth.org](mailto:cleith@uwhealth.org)

## HLA Laboratory

The UWHC Histocompatibility (HLA) Laboratory provides HLA-related compatibility testing for solid organ transplants, bone marrow transplants, platelet transfusions, and HLA-associated diseases.

Services include:

- HLA low-resolution serological and low and high-resolution PCR-based typing for solid organ and stem cell transplantation
- Compatibility testing services for deceased organ donor recovery and allocation
- HLA typing for diseases association
- HLA typing/matching and antibody screening for platelet transfusion and non-hemolytic transfusion reactions

Telephone: 608.263.8815 (menu option 3)  
FAX: 608.263.9610

**Manager:** Dean Lawler (Interim) 608.263.8371 [dlawler@uwhealth.org](mailto:dlawler@uwhealth.org)  
**Faculty Director:** David Watkins, PhD 608.265.3380 [watkins@primate.wisc.edu](mailto:watkins@primate.wisc.edu)

## Immunology

The UWHC Immunology laboratory performs testing for autoimmune diseases, monoclonal gammopathies, rheumatoid arthritis, and liver diseases using immunofluorescence, rate nephelometry, hemagglutination, electrophoresis, EIA, and immunofixation testing methodologies.

Telephone: 608.263.6207  
Fax: 608.263.0910

**Manager:** Sandra Ermis, MBA, MT (ASCP) 608.263.9096 [sermis@uwhealth.org](mailto:sermis@uwhealth.org)  
**Medical Director:** Alan Bridges, MD 608.263.3457 [ajb@medicine.wisc.edu](mailto:ajb@medicine.wisc.edu)

## Laboratory Information Systems Support

The Laboratory Information Systems Support department provides support and maintenance of the multiple computer systems within the Clinical Laboratory.

On-Call Cell Phone: 608.206.1836

**Manager:** Patty Horstmeier, MT (ASCP) 608.265.8846 [phorstmeier@uwhealth.org](mailto:phorstmeier@uwhealth.org)  
**Faculty Director:** Arthur Eggert, PhD 608.263.6221 [aeggert@uwhealth.org](mailto:aeggert@uwhealth.org)

## Microbiology Laboratory

The UWHC Clinical Microbiology Laboratory provides comprehensive testing services in bacteriology, ID and susceptibility testing, mycology, virology, parasitology, and molecular testing.

Telephone: 608.263.8710  
Fax: 608.263.0910

**Manager:** Patti Anderson, MT (ASCP) 608.261.1314 [panderson2@uwhealth.org](mailto:panderson2@uwhealth.org)  
**Interim Faculty Director:** Teresa Darcy, MD, MMM 608.265.2095 [tdarcy@uwhealth.org](mailto:tdarcy@uwhealth.org)

## Molecular Diagnostics Laboratory

The UWHC Molecular Diagnostics Laboratory provides molecular-based testing for identification of human gene mutations and detection, identification, and quantitation of various bacteria and viruses prior to and during patient therapy.

Telephone: 608.263.7018  
FAX: 608.263.9610

**Manager:** Keith Challoner, RM (AAM) 608.265.7649 [kchalloner@uwhealth.org](mailto:kchalloner@uwhealth.org)  
**Faculty Director:** William Rehrauer, PhD 608.265.6578 [wrehrauer@uwhealth.org](mailto:wrehrauer@uwhealth.org)

## Phlebotomy/Outpatient Laboratory

The UWHC Phlebotomy/Outpatient Laboratory staff collects blood and urine specimens using routine and advanced phlebotomy skills on inpatients and outpatients at the following locations:

- UWHC CSC Inpatient Units
- UWHC CSC Outpatient Lab
- AFCH Outpatient Lab
- Comprehensive Cancer Center Clinics Lab
- University Station Lab

Telephone: 608.263.6033  
FAX: 608.265.6029

**Assistant Director:** Christine Reuter, MBA, MT (ASCP) 608.263.7031 [creuter2@uwhealth.org](mailto:creuter2@uwhealth.org)  
**Manager:** Mike Baron, MBA, MS, C (ASCP) 608.262.0603 [mbaron@uwhealth.org](mailto:mbaron@uwhealth.org)  
**Medical Director:** Teresa Darcy, MD 608.263.7506 [tdarcy@uwhealth.org](mailto:tdarcy@uwhealth.org)

## Point of Care Testing

UWHC Point of Care Service/Testing refers to any patient testing performed within UWHC that is not performed as part of the central laboratory. UWHC Clinical Laboratories provide consultative services for laboratory services in all patient care areas.

Services provided by the Point of Care Coordinators in the Clinical Laboratories include:

- Method validation of new instruments or test methods
- Assistance with procedure manual preparation
- Developing quality control and quality assurance programs
- Resolving quality control problems
- Meeting regulatory requirements

Requests for new point of care tests or the expansion or relocation of existing point of care tests must be approved by the Laboratory Testing Oversight Committee, in accordance with UWHC Administrative Policy 8.40. Please contact a Point of Care (POC) Coordinator for more information.

## Quality

The UWHC Clinical Laboratory Quality Department:

- Supports efforts to achieve laboratory goals of continuous performance improvement and patient safety
- Supports implementation of a total quality management system in the laboratory and facilitates use of quality management tools and techniques
- Works with laboratory staff to strengthen their commitment to quality
- Supports development of quality indicators and the collection and analysis of data for monitoring and improvement activities
- Aggregates and trends information from incident and variance reporting
- Works with patient relations to resolve laboratory service issues

## Research/Study Protocols

As an academic medical center, the UWHC is committed to advancing medical knowledge through research. Investigators at UW are involved in many projects including clinical studies to test the effectiveness and safety of new therapies and medical devices, as well as to expand scientific and medical knowledge.

The Clinical Laboratories provides laboratory testing for approved research and investigational purposes. Refer your questions to the Laboratory Research Specialist.

## Special Coagulation

The UWHC Special Coagulation Laboratory provides comprehensive diagnostic testing for bleeding and thrombotic disorders.

Services Include:

- Hypercoagulation testing
- Factor Activity & Inhibitor Assays
- vonWillebrand testing
- Platelet Assays
- Heparin Levels
- Heparin-Induced Platelet Antibody testing

## Stem Cell Laboratory

The UWHC Stem Cell Laboratory processes peripheral stem cell and bone marrow products for transplantation purposes. Services provided include:

- Cryopreservation, thawing, and infusion of bone marrow, stem cells, and donor lymphocytes
- Red cell depletion and volume reduction of bone marrow products
- Performance of specific cell isolation procedures on peripheral stem cell and bone marrow products

## Surgical Pathology Laboratory & IHC Laboratory

The UWHC Surgical Pathology Laboratory provides examination and consultation services for tissue specimens and slides from UWHC and VAMC- Madison with specialization in the following:

- Electron Microscopy
- Hematopathology
- Renal Pathology
- Neuropathology

Telephone: 608.263.8443  
FAX: 608.262.7174

**Manager:** Kristi Lehman, CT (ASCP) 608.263.8441 [klehman@uwhealth.org](mailto:klehman@uwhealth.org)

## Toxicology and Manual Chemistry Laboratories

The UWHC Toxicology and Manual Chemistry Laboratories provide the following services:

- Therapeutic drug monitoring for immunosuppressants, antiarrhythmics, antibiotics, antiepileptics, antidepressants, barbiturates, benzodiazepines
- Assays for volatiles such as methanol and ethylene glycol
- Drugs of abuse screening and confirmation
- Fat soluble vitamins (D,A & E) and salivary cortisol
- Urine measurements for catecholamines and metanephrines
- Fecal measurements for fat and reducing substances
- Sweat chloride testing for the diagnosis of cystic fibrosis

Telephone: 608.263.7029  
Fax: 608.263.0910

## Transfusion Service (Blood Bank)

The UWHC Transfusion Laboratory provides immunohematology testing, blood products, and tissue. Services provided include:

- ABO/Rh, antibody screening, antibody identification, and red blood cell antigen testing
- Compatibility testing for blood product administration
- Volume reduction and irradiation of appropriate blood products
- Purchase, storage, dispensing, and tracking of tissue products
- Consultation and interpretation of immunohematology testing, transfusion reactions, and transfusion recommendations by Transfusion Service faculty and/or resident
