Invest in your retirement—and yourself—today, with help from the UWMF Employee’s 401(k) Profit Sharing Plan and Fidelity.
Invest some of what you earn today for what you plan to accomplish tomorrow.

Dear Employee:

University of Wisconsin Medical Foundation, Inc. Employee’s 401(k) Profit Sharing Plan offers outstanding convenience and a variety of investment options through Fidelity. Take a look and see what a difference enrolling in the plan could make in achieving your goals.

Benefit from:

**Tax savings now.** Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

**Roth contributions.** You are able to make both pretax and after tax contributions. Unlike your traditional pretax 401(k), the Roth 401(k) allows you to contribute after tax dollars, and then make a qualified withdrawal from your account. Please reference the Roth article in this guide for more information on qualified withdrawals and Roth contributions.

**Employer contributions.** Your Employer will make contributions on your behalf. You simply choose the investments for the contributions made to your account.

**Convenience.** Your contributions are automatically deducted regularly from your paycheck.

**Tax-deferred savings opportunities.** You pay no taxes on any earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

**Investment options.** You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio. Your plan offers you the option of having experienced professionals manage your account for you.

**Automatic annual increases.** Save a little more each year, the easy way — the Annual Increase Program automatically increases your contribution each year.

**Catch-up contributions.** If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional “catch-up” contribution of $6,000 in 2019.

To learn more about what your plan offers, see “Frequently asked questions about your plan” later in this guide.

Participate in your plan and invest in yourself today.
Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When am I eligible to enroll in the Plan?
You can enroll in the Plan if you are age 18 or older the first of the month after completing one month of service with UWMF.

How do I enroll in the Plan?
If you have not enrolled in the Plan by the first of the month after completing one month of service, you will be automatically enrolled in the Plan at a contribution rate of 5% of your pretax eligible earnings.

Based on your date of birth and assuming a retirement age of 65, you will be invested in the Vanguard Target Retirement Trust II, with a corresponding target retirement date. Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

We encourage you to take an active role in the Plan and to choose a contribution rate and investment options that are appropriate for you. If you do not wish to contribute to the Plan, you must change your contribution rate to 0% within one month of your hire. You may change your contribution rate at any time online, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

What is the Roth contribution option?
A Roth contribution to your retirement savings plan allows you to make after-tax contributions and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth 401(k) contribution and after you have attained age 59½, or become disabled or die. Through automatic payroll deduction, you can contribute between 1% and 50% of your eligible pay as designated Roth contributions, up to the annual IRS dollar limits.

Find more information online within the “Library” section of NetBenefits®.

How much can I contribute?
Through automatic payroll deduction, you may contribute up to 50% of your eligible pay on a pretax basis. You may also contribute up to 50% of your eligible pay to the Roth contribution option. The aggregate of both pretax and Roth 401(k) contributions are subject to the annual IRS dollar limit. If you want to contribute more than 50% of your eligible pay contact the UWMF Human Resources Department. In addition, you will be enrolled in the UWMF Employee’s 401(k) Profit Sharing Plan Annual Increase Program. Based on plan rules, your contributions will automatically increase each year by 1% beginning on October 1, unless you elect otherwise. This automatic increase will apply each year until you are deferring 10% of your compensation. For more information about the Annual Increase Program, visit Fidelity NetBenefits® and click on “Contribution Amount” or call the Fidelity Retirement Benefits Line at 1-800-343-0860.

What is the IRS contribution limit?
The IRS contribution limit for 2019 is $19,000.

How do I designate my beneficiary?
If you have not already selected your beneficiaries, or if you have experienced a life-
changing event such as a marriage, divorce, birth of a child, or a death in the family, it’s time to consider your beneficiary designations. Simply fill out a beneficiary form and return it to your Human Resources office.

What are my investment options?
To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The various investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan’s investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

What if I don’t make an investment election?
We encourage you to take an active role in the UWMF Employee’s 401(k) Profit Sharing Plan and choose investment options that best suit your goals, time horizon, and risk tolerance. If you do not select specific investment options in the Plan, your contributions will be invested in the Vanguard Target Retirement Trust II with the target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of UWMF.

If no date of birth or an invalid date of birth is on file at Fidelity your contributions may be invested in the Vanguard Target Retirement Income Trust II. More information about the Vanguard Target Retirement Trust II options can be found online.

Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

What ”catch-up” contribution can I make?
If you have reached age 50 or will reach 50 during the calendar year January 1 – December 31 and are making the maximum plan or IRS pretax contribution, you may make an additional “catch-up” contribution each pay period. The maximum annual catch-up contribution is $6,000. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in $500 increments.

Does UWMF contribute to my account?
Eligible employees are automatically enrolled in UWMF’s profit sharing plan the first of the month following one year of employment and the completion of 1,000 hours of service during that year. UWMF makes a guaranteed annual contribution of 8% of your gross annual wages. UWMF will also contribute an additional discretionary profit sharing of 0-2% of your gross compensation for a total profit sharing contribution of 8-10%.

When am I vested?
You are always 100% vested in your own contributions as well as any earnings on them. UWMF contributions and any earnings thereon, vest according to the following schedule:

0% up to 3 years of continuous service
100% after 3 years of continuous service

You will be credited with a year of service if you work 1,000 hours within a calendar year.

Can I take a loan from my account?
Although your plan account is intended for the future, you may borrow from your account for any reason. Generally, the University of Wisconsin Medical Foundation, Inc. Employee’s 401(k) Profit Sharing Plan allows you to borrow up to 50% of your vested account balance. The minimum loan amount is $1,000, and a loan must not exceed $50,000. You then pay the money back into your account, plus interest, by using Fidelity’s Electronic Loan Repayment (ACH) service which deducts the payment from your bank or credit union account. Any outstanding loan
balances over the previous 12 months may reduce the amount you have available to borrow. You may have two loans outstanding at any given time. The cost to initiate a loan is $50.00, and there is a quarterly maintenance fee of $6.25. The initiation and maintenance fees will be deducted directly from your individual plan account. If you fail to repay your loan (based on the original terms of the loan), it will be considered in "default" and treated as a distribution, making it subject to income tax and possibly to a 10% early withdrawal penalty. Defaulted loans may also impact your eligibility to request additional loans. Be sure you understand the Plan guidelines and impact of taking a loan before you initiate a loan from your plan account.

Learn more about and/or request a loan online, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

Can I make withdrawals?
Withdrawals from the Plan are generally permitted when you terminate your employment, retire, reach age 59½, become permanently disabled, have severe financial hardship, as defined by your plan.

The taxable portion of your withdrawal that is eligible for rollover into an individual retirement account (IRA) or another employer’s retirement plan is subject to 20% mandatory federal income tax withholding, unless it is rolled directly over to an IRA or another employer plan. (You may owe more or less when you file your income taxes.) If you are under age 59½, the taxable portion of your withdrawal is also subject to a 10% early withdrawal penalty, unless you qualify for an exception to this rule.

Learn more about and/or request a withdrawal online, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

The plan document and current tax laws and regulations will govern in case of a discrepancy. Be sure you understand the tax consequences and your plan’s rules for distributions before you initiate a distribution. You may want to consult your tax adviser about your situation.

Can I move money from another retirement plan into my University of Wisconsin Medical Foundation, Inc. Employee’s 401(k) Profit Sharing Plan account?
The plan allows for you to rollover account assets into your University of Wisconsin Medical Foundation, Inc. Employee’s 401(k) Profit Sharing Plan, please be sure to complete the Transfer/Rollover form at the back of this brochure and return it to Fidelity Investments. For any questions on completing the Transfer/Rollover form, please contact the Fidelity Retirement Benefits Line at 1-800-343-0860 Monday through Friday from 8:00 a.m. to midnight Eastern time.

Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.

How do I set-up a confidential consultation with a Retirement Planner?
To set up a confidential consultation, you may call Fidelity’s reservation line at 1-800-642-7131 or go online to getguidance.fidelity.com.

How do I update my mail preferences?
Receiving communication by e-mail offers you greater convenience and will help keep you up to date on topics related to your retirement plan. Log on to Fidelity NetBenefits®, and go to "Your Profile," click on "e-mail address," and enter your personal e-mail address.
Investment Options

Here is a list of investment options for the UWMF Employee’s 401(k) Profit Sharing Plan. For up-to-date performance information and other fund specifics, go to www.netbenefits.com/uwmf401k.

Target Date Funds

Placement of investment options within each risk spectrum is only in relation to the investment options within that specific spectrum. Placement does not reflect risk relative to the investment options shown in the other risk spectrums.

Investment options to the left have potentially more inflation risk and less investment risk

Investment options to the right have potentially less inflation risk and more investment risk

Vanguard Target Retirement Income Trust II
Vanguard Target Retirement 2015 Trust II
Vanguard Target Retirement 2020 Trust II

Vanguard Target Retirement 2025 Trust II
Vanguard Target Retirement 2030 Trust II
Vanguard Target Retirement 2035 Trust II

Vanguard Target Retirement 2040 Trust II
Vanguard Target Retirement 2045 Trust II
Vanguard Target Retirement 2050 Trust II

Vanguard Target Retirement 2055 Trust II
Vanguard Target Retirement 2060 Trust II
Vanguard Target Retirement 2065 Trust II

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment’s name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

The chart below lists the assigned fund the UWMF Employee’s 401(k) Profit Sharing Plan believes will best fit your diversification needs should you not select an investment option.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity’s analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options’ Morningstar categories as of 11/30/2018. Morningstar categories are based on a fund’s style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options’ objectives and do not predict the investment options’ future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.
Fidelity BrokerageLink® combines the convenience of your workplace retirement plan with the additional flexibility of a brokerage account. It gives you expanded investment choices to manage your retirement contributions. BrokerageLink® includes investments beyond those in your plan’s lineup. The plan fiduciary neither evaluates nor monitors the investments available through BrokerageLink. It is your responsibility to ensure that the investments you select are suitable for your situation, including your goals, time horizon, and risk tolerance. To enroll, and for more information about BrokerageLink, including the Plan’s BrokerageLink fact sheet, the brokerage commission schedule, and brochure, go to netbenefits.com and click on "Quick Links," then select "BrokerageLink."
Investment Options

Before investing in any mutual fund, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

Dodge & Cox Balanced Fund

VRS Code: 093181

Fund Objective: The investment seeks regular income, conservation of principal, and an opportunity for long-term growth of principal and income.

Fund Strategy: The fund invests in a diversified portfolio of equity securities and debt securities. Under normal circumstances, it will invest at least 80% of its total assets in equity securities of non-U.S. issuers. It may invest up to 20% of its total assets in debt securities of non-U.S. issuers. The fund may invest no more than 10% of its total assets in U.S. dollar-denominated equity or debt securities of non-U.S. issuers traded in the United States that are not in the S&P 500 Index.

Fund Risk: Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. In general, the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

● Someone who is seeking to invest in a fund that invests in both stocks and bonds.
● Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

Footnotes:

● This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
● S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.

Dodge & Cox International Stock Fund

VRS Code: 046960

Fund Objective: The investment seeks long-term growth of principal and income.

Fund Strategy: Under normal circumstances, the fund will invest at least 80% of its total assets in equity securities of non-U.S. issuers, including common stocks, depositary receipts evidencing ownership of common stocks, preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks. The fund typically invests in medium-to-large well-established companies based on standards of the applicable market.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

● Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
● Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

● This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
DoubleLine Core Fixed Income Fund Class I

VRS Code: 094255

**Fund Objective:** The investment seeks to maximize current income and total return.

**Fund Strategy:** The Advisor intends to invest at least 80% of the fund's net assets (plus the amount of borrowings for investment purposes) in fixed income instruments. The fund may invest up to 33% of its net assets in junk bonds, bank loans and assignments rated below investment grade or unrated but determined by the Adviser to be of comparable quality, and credit default swaps of companies in the high yield universe. It may invest up to 5% of its net assets in defaulted corporate securities.

**Fund Risk:** In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Dreyfus Treasury Securities Cash Management Institutional Shares

VRS Code: 019196

**Fund Objective:** The investment seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

**Fund Strategy:** The fund is a money market fund subject to the maturity, quality, liquidity and diversification requirements of Rule 2a-7 under the Investment Company Act of 1940, as amended, and seeks to maintain a stable share price of $1.00. It normally invests at least 99.5% of its total assets in securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities, repurchase agreements collateralized solely by cash and/or government securities, and cash.

**Fund Risk:** You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to money market funds and you should not expect that the sponsor will provide financial support to the fund at any time. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Fidelity® 500 Index Fund

VRS Code: 002328

**Fund Objective:** Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.

**Fund Strategy:** Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.
Fidelity® Emerging Markets Index Fund

VRS Code: 002344

Fund Objective: The fund seeks to provide investment results that correspond to the total return of emerging stock markets. Normally investing at least 80% of assets in securities included in the MSCI Emerging Markets Index and in depository receipts representing securities included in the index. Using statistical sampling techniques based on such factors as capitalization, industry exposures, dividend yield, price/earnings ratio, price/book ratio, earnings growth, country weightings, and the effect of foreign taxes to attempt to replicate the returns of the MSCI Emerging Markets Index. Lending securities to earn income for the fund.

Footnotes:
- The Fidelity® Contrafund® Commingled Pool is a collective investment trust maintained under the Fidelity Group Trust for Employee Benefit Plans, and is managed by Fidelity Management Trust Company (FMTC). It is not insured by the FDIC.
- None

Fund Risk: The value of the fund’s domestic and foreign investments will vary from day to day in response to many factors. Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments.

Who may want to invest:
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:
- This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
- The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
- Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class’ expense ratio. Had the Institutional Premium Class’ expense ratio been reflected, total returns would have been higher.
- As of 11/05/2018, this fund changed its name from Fidelity 500 Index Fund - Institutional Premium Class.

Fidelity® Contrafund® Commingled Pool

VRS Code: 003717

Fund Objective: The portfolio’s investment objective is to seek to provide capital appreciation over a market cycle relative to the S&P 500 Index, through the active management of equities with a focus on companies having strong long-term growth prospects.

Fund Strategy: The portfolio’s investment philosophy is to capitalize on the strength of Fidelity’s internal research by selecting those stocks whose value the manager believes is not fully recognized by the public. The portfolio may invest in domestic and foreign issuers in either “growth” or “value” stocks or both.

Fund Risk: The value of the fund’s domestic and foreign investments will vary from day to day in response to many factors. Stock values may fluctuate in response to the activities of individual companies, and general market and economic conditions, and the value of an individual security or particular type of security can be more volatile than, or can perform differently from, the market as a whole. Investments in foreign securities involve greater risk than U.S. investments, including increased political and economic risk, as well as exposure to currency fluctuations. You may have a gain or loss when you sell your units.

Who may want to invest:
- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:
- The Fidelity® Contrafund® Commingled Pool is a collective investment trust maintained under the Fidelity Group Trust for Employee Benefit Plans, and is managed by Fidelity Management Trust Company (FMTC). It is not insured by the FDIC.
- This description is only intended to provide a brief overview of this investment option, which is available only to eligible retirement plans and is not offered to the general public.
- S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
- This investment option is not a mutual fund.

Fidelity® Emerging Markets Index Fund

VRS Code: 002344

Fund Objective: The fund seeks to provide investment results that correspond to the total return of emerging stock markets. Normally investing at least 80% of assets in securities included in the MSCI Emerging Markets Index and in depository receipts representing securities included in the index. Using statistical sampling techniques based on such factors as capitalization, industry exposures, dividend yield, price/earnings ratio, price/book ratio, earnings growth, country weightings, and the effect of foreign taxes to attempt to replicate the returns of the MSCI Emerging Markets Index. Lending securities to earn income for the fund.

Footnotes:
- This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
- The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
- Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class’ expense ratio. Had the Institutional Premium Class’ expense ratio been reflected, total returns would have been higher.
- As of 11/05/2018, this fund changed its name from Fidelity 500 Index Fund - Institutional Premium Class.
Fidelity® International Index Fund

VRS Code: 002363

Fund Objective: Seeks to provide investment results that correspond to the total return of the Morgan Stanley Capital International Europe, Australasia, Far East Index, which represents the performance of foreign stock markets.

Footnotes:
● This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
● The MSCI emerging Markets Index is a market capitalization-weighted index designed to measure the investable equity market performance for global investors of emerging markets.
● As of 11/05/2018, this fund changed its name from Fidelity Inflation-Protected Bond Index Fund - Institutional Premium Class.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Increases in real interest rates can cause the price of inflation-protected debt securities to decrease. Interest payments on inflation-protected debt securities can be unpredictable. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. The performance of the fund and its index may vary somewhat due to factors such as transaction costs, sample selection, and timing differences associated with additions to and deletions from its index.

Fidelity® Inflation-Protected Bond Index Fund

VRS Code: 002418

Fund Objective: Seeks to provide investment results that correspond to the total return of the inflation-protected sector of the United States Treasury market.

Fund Strategy: Normally investing at least 80% of assets in inflation-protected debt securities included in the Bloomberg Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L). Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Increases in real interest rates can cause the price of inflation-protected debt securities to decrease. Interest payments on inflation-protected debt securities can be unpredictable. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. The performance of the fund and its index may vary somewhat due to factors such as transaction costs, sample selection, and timing differences associated with additions to and deletions from its index.

Who may want to invest:
● Someone who is seeking potential returns primarily in the form of interest dividends and who can tolerate more frequent changes in the size of dividend distributions than those usually found with more conservative bond funds.
● Someone who is seeking to supplement his or her core fixed-income holdings with a bond investment that is tied to changes in inflation.

Footnotes:
● This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
● The Bloomberg Barclays U.S. TIPS Index is an unmanaged index designed to represent securities that protect against adverse inflation and provide a minimum level of real return. To be included in this index, bonds must have cash flows linked to an inflation index, be sovereign issues denominated in U.S. currency, and have more than one year to maturity, and, as a portion of the index, total a minimum amount outstanding of 100 million U.S. dollars.
● As of 11/05/2018, this fund changed its name from Fidelity Inflation-Protected Bond Index Fund - Institutional Premium Class.

Fidelity® International Index Fund

VRS Code: 002363

Fund Objective: Seeks to provide investment results that correspond to the total return of foreign stock markets.

Fund Strategy: Normally investing at least 80% of assets in common stocks included in the Morgan Stanley Capital International Europe, Australasia, Far East Index, which represents the performance of foreign stock markets.
Fund Risk: Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:
- This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
- The MSCI Europe, Australasia and Far East Index is an unmanaged market capitalization-weighted index designed to represent the performance of developed stock markets outside the United States and Canada.
- Returns prior to September 8, 2011 are those of the Premium Class and reflect the Premium Class’ expense ratio. Had the Institutional Premium Class’ expense ratio been reflected, total returns would have been higher.
- As of 11/05/2018, this fund changed its name from Fidelity International Index Fund - Institutional Premium Class.

Fidelity® Mid Cap Index Fund

VRS Code: 002352

Fund Objective: The fund seeks to provide investment results that correspond to the total return of stocks of mid-capitalization United States companies.

Fund Strategy: Normally investing at least 80% of assets in securities included in the Russell Midcap Index. Lending securities to earn income for the fund.

Fund Risk: Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well known companies.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:
- This description is only intended to provide a brief overview of the mutual fund. Read the fund’s prospectus for more detailed information about the fund.
- The Russell Mid Cap Index is an unmanaged index that measures the performance of the 800 smallest companies in the Russell 1000 Index, which represent approximately 26% of the total market capitalization of the Russell 1000 Index.
- As of 11/12/2018, this fund changed its name from Fidelity Mid Cap Index Fund - Institutional Premium Class.

Fidelity® Small Cap Index Fund

VRS Code: 002358

Fund Objective: The fund seeks to provide investment results that correspond to the total return of stocks of small-capitalization United States companies.

Fund Strategy: Normally investing at least 80% of assets in securities included in the Russell 2000 Index. Lending securities to earn income for the fund.

Fund Risk: Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well known companies.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.
Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Russell 2000® Index is an unmanaged market capitalization weighted index measuring the performance of the smallest 2,000 companies in the Russell 3000 index.
- As of 11/12/2018, this fund changed its name from Fidelity Small Cap Index Fund - Institutional Premium Class.

Fidelity® U.S. Bond Index Fund
VRS Code: 002326

Fund Objective: Seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Bloomberg Barclays U.S. Aggregate Bond Index.

Fund Strategy: Normally investing at least 80% of the fund's assets in bonds included in the Bloomberg Barclays U.S. Aggregate Bond Index. Using statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Index using a smaller number of securities. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

Fund Risk: In general, the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The fund can invest in securities that may have a leveraging effect (such as derivatives and forward-settling securities) which may increase market exposure, magnify investment risks, and cause losses to be realized more quickly.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:
- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Bloomberg Barclays U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities with maturities of at least one year.
- Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class’ expense ratio been reflected, total returns would have been higher.
- As of 11/05/2018, this fund changed its name from Fidelity U.S. Bond Index Fund - Institutional Premium Class.

PIMCO Inflation Response Multi-Asset Fund Institutional
VRS Code: 026534

Fund Objective: The investment seeks total return which exceeds that of its benchmark.

Fund Strategy: The fund invests in a combination of Fixed Income Instruments of varying maturities, equity securities, affiliated and unaffiliated investment companies, which may or may not be registered under the Investment Company Act of 1940, as amended (the “1940 Act”), forwards and derivatives, such as options, futures contracts or swap agreements, of various asset classes in seeking to mitigate the negative effects of inflation. It may invest up to 25% of its total assets in equity-related investments.
**Fund Risk:** In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking to invest in a fund that invests in both stocks and bonds.
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

**Footnotes:**
- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The benchmark is a blend of 45% Bloomberg Barclays U.S. TIPS Index, 20% Dow Jones-UBS Commodity Index Total Return, 15% JPMorgan Emerging Local Markets Index Plus (Unhedged), 10% Dow Jones U.S. Select REIT Total Return Index, 10% Spot Gold. Bloomberg Barclays U.S. TIPS Index is an unmanaged market index comprised of all U.S. Treasury Inflation-Protected Securities rated investment grade (Baa3 or better), have at least one year to final maturity, and at least $250 million par amount outstanding. Performance data for this index prior to October 1997 represents returns of the Bloomberg Barclays Inflation Notes Index. Dow Jones-UBS Commodity Index Total Return is an unmanaged index composed of futures contracts on 19 physical commodities. The index is designed to be a highly liquid and diversified benchmark for commodities as an asset class. JPMorgan Emerging Local Markets Index Plus (Unhedged) tracks total returns for local-currency denominated money market instruments in 22 emerging markets countries with at least US$10 billion of external trade. The Dow Jones U.S. Select Real Estate Investment Trust (REIT) Total Return Index is a subset of the Dow Jones Americas Select Real Estate Securities Index (RESI) and includes only REITs and REIT-like securities. The objective of the index is to measure the performance of publicly traded real estate securities. The indexes are designed to serve as proxies for direct real estate investment, in part by excluding companies whose performance may be driven by factors other than the value of real estate. Prior to April 1st, 2009, this index was named Dow Jones Wilshire REIT Total Return Index. Dow Jones-UBS Gold Total Return Index reflects the return on fully collateralized positions in the underlying commodity futures. It is not possible to invest directly in an unmanaged index.

---

**PIMCO Stable Income Fund - Class IV**

**VRS Code:** 088166

**Fund Objective:** The Fund seeks to provide current income in excess of money market investments and reduce the risk of principal loss over time.

**Fund Strategy:** The Fund is an actively managed, diversified investment strategy which invests primarily in investment grade fixed income investments including, but not limited to, U.S. government securities, corporate bonds, mortgage-backed securities, asset-backed securities, and derivative instruments, including futures and swaps. The average duration of the Fund's investments will vary over time, but is typically expected to be between two and three years. Other Fund investments may include a variety of stable value investment contracts issued by insurance companies, banks, and other financial institutions, which are intended to help reduce principal volatility of, while providing steady income from, any associated Fund fixed income investments. The Fund may also invest in cash or other liquid investments, such as a money market strategy or short-term investment fund (“STIF”), to help meet participant liquidity needs.
**Fund Risk:** The Contracts and securities purchased for the fund are backed solely by the financial resources of the issuers of such Contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the FDIC, or any other government agency. The Contracts purchased by the fund permit the fund to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the fund's securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the fund under the Contracts. However, while the fund seeks to preserve your principal investment, it is possible to lose money by investing in this fund. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance. Additional risk information for this product may be found in the prospectus or other product materials, if available. Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to “compete” with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

**Fund short term trading fees:** None

Who may want to invest:
- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide stability of price.

Footnotes:
- The investment option is a stable value fund. It is managed by SEI Trust Company. This description is only intended to provide a brief overview of the fund.
- This investment option is not a mutual fund.

**Vanguard Target Retirement 2015 Trust II**

**VRS Code:** 021560

**Fund Objective:** Seeks to provide capital appreciation and current income consistent with its current asset allocation.

**Fund Strategy:** The trust invests in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2015 (the target year). Within seven years after 2015, the trust's asset allocation should resemble that of the Target Retirement Income Trust II. Unit price and return will vary.

**Fund Risk:** The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

Who may want to invest:
- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:
- The investment option is a collective investment trust. It is managed by Vanguard. This description is only intended to provide a brief overview of the fund.
- This investment option is not a mutual fund.

The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

**Footnotes:**
- The investment option is a collective investment trust. It is managed by Vanguard. This description is only intended to provide a brief overview of the fund.
- This investment option is not a mutual fund.

---

**Vanguard Target Retirement 2065 Trust II**

**VRS Code:** 039630

**Fund Objective:** Seeks to provide capital appreciation and current income consistent with its current asset allocation.

**Fund Strategy:** The trust invests in Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the work force in or within a few years of 2065 (the target year). Within seven years after 2065, the trust’s asset allocation should resemble that of the Target Retirement Income Trust II. Unit price and return will vary.

**Fund Risk:** The target date funds are designed for investors expecting to retire around the year indicated in each fund’s name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

---

**Vanguard Target Retirement Income Trust II**

**VRS Code:** 021558

**Fund Objective:** Seeks to provide current income and some capital appreciation.

**Fund Strategy:** The trust invests in Vanguard mutual funds according to an asset allocation strategy designed for investors currently in retirement. Unit price and return will vary.
**Fund Risk:** The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments carry issuer default and credit risk, inflation risk, and interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Principal invested is not guaranteed at any time, including at or after retirement. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

**Footnotes:**

- The investment option is a collective investment trust. It is managed by Vanguard. This description is only intended to provide a brief overview of the fund.
- This investment option is not a mutual fund.
What is the Roth 401(k) Contribution Option?

A Roth contribution is available to employees who participate in the 401(k) plan. For payroll purposes Roth contributions are treated as after tax. This feature will allow participants to make Roth contributions to their plan while taking their earnings completely tax free at retirement—as long as the withdrawal is a qualified one. A qualified withdrawal is one that can be taken five tax years after the year of the first Roth contribution and after the participant has attained age 59½, has become disabled, or has died.

If you qualify to make traditional 401(k) contributions, you are eligible for a Roth 401(k) contribution.

**How does a Roth 401(k) contribution option work?**

You elect an amount of your salary that you wish to contribute to the Roth source, just as you would for your traditional 401(k). The contribution is based on your eligible compensation, not on your net pay— for example, if your total annual eligible compensation is $40,000 per year and you elect a 6% deferral amount, then $2,400 per year would go into your Roth 401(k) account.

Unlike your traditional 401(k) pretax contribution, with a Roth 401(k) contribution, you pay the taxes now on the contributions you make—but later your earnings are all tax free, if you meet certain criteria.

**Example:** Sally earns $40,000 and has elected to put 6% toward her Roth 401(k) contributions and 6% toward her traditional 401(k) pretax contributions on a monthly basis.

<table>
<thead>
<tr>
<th></th>
<th>ROTH 401(k)*</th>
<th>TRADITIONAL 401(k)*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sally’s monthly contribution into each account</td>
<td>$200</td>
<td>$200</td>
</tr>
<tr>
<td>Sally’s reduction in take-home pay</td>
<td>$200</td>
<td>$150</td>
</tr>
</tbody>
</table>

*This hypothetical example is based solely on an assumed federal income tax rate of 25%. No other payroll deductions are taken into account. Your own results will be based on your individual tax situation.

Your combined Roth and traditional pretax 401(k) contributions cannot exceed the IRS limits for the year.

**Would a Roth 401(k) contribution option benefit me?**

The potential benefits of Roth 401(k) contributions really depend on your personal situation, but are mainly focused on your existing tax rate and your anticipated tax rate at the time of retirement. If you are contributing to a Roth, you are giving up a tax break today for a tax break in the future.

Therefore, a Roth contribution might benefit you if your tax rate in retirement were higher than it had been during the years you contributed.

If your tax rate were lower in retirement, then a traditional 401(k) might be more beneficial to you than the Roth option. Talk with a tax professional for more information on how to determine if Roth 401(k) contributions are right for you.

**Is a traditional pretax 401(k) still beneficial?**

Yes. For many participants a traditional pretax 401(k) will still be the most beneficial type of retirement savings plan. We do not know what the future holds regarding tax rates. Therefore, it is not possible to predict with certainty which type of 401(k) savings will be most beneficial to a participant.

Remember, because Roth 401(k) contributions are made after tax, you may take home less money in your paycheck than you would if you contributed to a traditional pretax 401(k).
To the Trustee of:  The UWMF, Inc. Employee and Physician Retirement Plans

Participant Name: ____________________________________________________________

Social Security #: ________________________________  Employee #: ________________________________

Pursuant to the provisions of the plan permitting the designation of a beneficiary or beneficiaries by a participant, I hereby designate the following person or persons as primary and secondary beneficiaries of my accrued benefit under the plan payable by reason of my death:

| PRIMARY BENEFICIARY(IES): Please attach another sheet of paper if necessary. |
|-----------------------------|------------------|----------------|
| Name                       | Relationship    | Address        |
| Social Security Number     | Birthdate       | City, State, Zip Code |
| Name                       | Relationship    | Address        |
| Social Security Number     | Birthdate       | City, State, Zip Code |

| SECONDARY BENEFICIARY(IES): Please attach another sheet of paper if necessary. |
|-----------------------------|------------------|----------------|
| Name                       | Relationship    | Address        |
| Social Security Number     | Birthdate       | City, State, Zip Code |
| Name                       | Relationship    | Address        |
| Social Security Number     | Birthdate       | City, State, Zip Code |

I RESERVE THE RIGHT TO REVOKE OR CHANGE ANY BENEFICIARY DESIGNATION. I HEREBY REVOKE ALL PRIOR DESIGNATIONS (IF ANY) OF PRIMARY AND SECONDARY BENEFICIARIES.

The trustee will pay all sums payable under the plan by reason of my death to the primary beneficiary. If he or she survives me, and if no primary beneficiary survives me, then to the secondary beneficiary, and if no named beneficiary survives me, then the trustee will pay all amounts in accordance with the plan’s death beneficiary provisions.

Date of this Designation ________________________________  Signature of Participant ________________________________

☐ I am married  ☐ I am not married

NOTE: IF YOU ARE MARRIED AND YOU DO NOT NAME YOUR SPOUSE AS YOUR ONLY PRIMARY BENEFICIARY, YOUR SPOUSE’S SIGNATURE MUST BE NOTARIZED ON THE UWMF, Inc. Employee & Physician Retirement Plans Spousal Consent Form.

Spousal Consent Form

I, the undersigned spouse of ________________________________ named in the foregoing "Designation of Beneficiary", hereby certify that I have read the Designation of Beneficiary and fully understand the property subject to the designation is my spouse’s benefit under the Plan, in which I possess a beneficial interest, provided I survive my spouse. Being fully satisfied with the provisions of the designation, I hereby consent to and accept the beneficiary designation, without regard to whether I survive or predecease my spouse. This consent is irrevocable unless my spouse changes the designation. If my spouse changes the designated (choose either a or b)

_____ (a) I understand I must sign a similar consent to agree with any changes in the designation, or my consent is no longer effective; or

_____ (b) I waive my right to withhold my consent to a change in designation. I understand that I do have the right to limit my consent to the specific beneficiary designated on the life insurance or request for change form by checking line (a).

I have executed this consent this _______ day of ________________________________, 20_____

__________________________________________

Signature of spouse of participant

Witness by Plan Representative

Signature of spouse for consent witnessed this _____ day of ________________________________, 20_____.

__________________________________________

Plan Representative

OR

Witness by Notary

STATE OF ____________

COUNTY OF ____________

Before me, as the undersigned Notary Public, personally appeared ________________________________ who executed the above Spousal Consent as a free and voluntary act.

In witness whereof, I have signed my name and affixed by official notarial seal this _______ day of ________________________________, 20_____.

This information is intended to be educational and is not tailored to the investment needs of any specific investor.

This document provides only a summary of the main features of the UWMF Employee's 401(k) Profit Sharing Plan and the Plan Document will govern in the event of discrepancies.

The Plan is intended to be a participant-directed plan as described in Section 404(c) of ERISA, which means that fiduciaries of the Plan are ordinarily relieved of liability for any losses that are the direct and necessary result of investment instructions given by a participant or beneficiary.
