Job Code: 450003	FLSA Status: Non-Exempt	Mgt. Approval: C. Riemer	Date: April 2024
Department: Coding & CDI		HR Approval: B. Haak	Date: April 2024

JOB SUMMARY

Under the general direction of the Inpatient Coding Supervisor, the Medical Coding Specialist I - Inpatient reviews documentation in the electronic medical record and assigns and sequences ICD-10-CM diagnosis codes and ICD-10-PCS procedure codes, in accordance with the Standards of Ethical Coding as set forth by the American Health Information Management Association (AHIMA) and in compliance with ICD-10 Official Coding Guidelines and other regulatory requirements.

The primary focus of the role is the coding of commercial payor accounts, excluding transplant, major trauma and mortality cases. The Medical Coding Specialist I - Inpatient will use Diagnosis Related Groups (DRG) methodologies, including Medicare Severity DRGs (MS-DRGs) and All Patient Refined DRGs (APR-DRGs). The Medical Coding Specialist I - Inpatient will perform physician queries, will clarify documentation, and will participate in the DRG reconciliation process in collaboration with the Clinical Documentation Integrity Specialist (CDIS) team. The Medical Coding Specialist I - Inpatient will partner with the Inpatient Coding Quality Analysts and the Inpatient Coding Supervisor for education and quality monitoring.

MAJOR RESPONSIBILITIES

- Review, analyze and interpret the entire electronic medical record for the current admission to identify all diagnoses and procedures documented during the admission.
- Determine and assign the principal and significant secondary ICD-10-CM diagnosis codes, in addition to present on admission indicators, and ICD-10-PCS procedure codes, using official coding guidelines and knowledge of anatomy and physiology, pharmacology and pathophysiology/disease processes.
- Identify cases with clinical indicators that may require provider documentation clarification and/or specificity in order to accurately assign codes; collaborate with CDIS team as part of the clinical documentation validation and physician query workflows.
- Analyze code assignment and sequence to assure proper DRG assignments; sequence codes in compliance with ICD-10 Official Coding Guidelines, Uniform Hospital Discharge Data Set (UHDDS) and other regulatory requirements to accurately assign the DRG.
- Analyze the medical record documentation for complications and comorbidities
- Analyze medical record documentation for optimum severity of illness and risk of mortality scores
- Confirm Admission-Discharge-Transfer (ADT) information and correct when necessary
- Suggest and assist with workflow process improvements as appropriate. Participate in coding quality and productivity processes.
