This position has overall responsibility for the supervision and development of staff who facilitate organization improvement and support safety across UW Health. The Manager, Patient Safety, will develop staff competencies, assess individual performance, evaluate program effectiveness and communication with key stakeholders. This position provides leadership to assure the use of disciplined improvement processes and tools, and performance measurement. The manager uses safety driven principles to support a just and reliable culture. The manager is responsible for monitoring project goals and milestones, achieving sustainable positive outcomes from improvement work, and for identifying opportunities to spread standardized best practices. This position directs the resources and activities of the organization to support the Safety programs. The manager will work closely with leaders across UW Health to understand strategic direction and priorities to promote Patient Safety.

**MAJOR RESPONSIBILITIES**

- Help monitor, assure, and coordinate Patient safety activities are in compliance with requirements of regulatory, accrediting agencies, ACO and other payer contracts identifying safety expectations. Identify and communicate need for corrective actions as appropriate.
- In collaboration with Regulatory roles, monitor Sentinel Event Alerts and facilitate team to analyze the safety of our organization based on the SE Alert information when needed.
- Responsible for working with Risk Management, legal counsel and others to create and ensure a robust process for monitoring, prevention, event mitigation, event reporting, and triaging.
- Work collaboratively with all levels of the organization including senior leadership to produce measurable improvements in patient safety in both process and outcome.
- Recommend and facilitate change within the organization to improve patient safety based on identified risks.
- Collaborate with Risk Management and leadership to develop and maintain a comprehensive UW Health safety event data collection and management system ensuring frequent data reports, analysis, and reporting of trends to UW Health Patient Safety Committee and other committees.
- Collaborate the development of policy and procedures effecting organizational safety. Translates safety policies, theories and strategies into action.
- In collaboration with the Director, responsible for building and implementing safety systems and the promotion of the culture of safety which are paramount foundations.
- Implement and evaluate a regularly scheduled Culture of Safety Surveys – frequency to be determined with leadership.
- Responsible for the RCA and Proactive Risk Assessment team process, including but not limited to initiating a team, creating, and communicating to the team, participation of teams, assuring standard reporting, meeting TJC Sentinel Event requirements and deadlines, ensuring team action items are completed, developing status reporting to RCA Subcommittee, and creating status reports for leadership committees.
- Administratively responsible for planning, management and implementation of patient safety initiatives across the organization, including TJC National Patient Safety Goals, among others, meeting milestones, deadlines, and deliverables that position UW Health as a patient safety leader, including education and communication plans.
- Provide support and guidance to the UW Health Resident Quality & Safety Council (RQSC).
- Help create, establish, maintain, and staff the UW Health Safety Committee.
- Staff and provide safety expertise to the RCA Subcommittee.
- Hire, train, develop, assess, and retain staff. Encourage and promote staff involvement and engagement.
- Contribute to the development of budgets.
- Lead selected organization improvement teams to stay current with skills.
- Enable teams across the organization to become experts at guiding their own improvement.
