**JOB SUMMARY**

Registered Nurses on this 27-bed unit provide care with a diverse population of adult medical and surgical patients and families. The unit has two primary functions: 1) to care for those medical and surgical patients and families with an expected short stay for a post operative procedure or a medical condition requiring a 1-2 day length of stay, and 2) to care for general medical and surgical patients that overflow from their “home unit.” Patients are received from multiple services: Emergency Department, Operative Services, inter-hospital transfers, and direct admissions from clinics, scheduled admissions awaiting bed availability, and specialized outpatient procedures requiring prolonged stay. The night shift census consists primarily of the short stay patients unless high census dictates the need to care for in patients. The diversity of the patient population provides nurses with the challenge to use their expertise in assessment and intervention.

The Registered Nurse systematically and continuously collects and assesses data in collaboration with the multidisciplinary team to provide therapeutic care with the patient and/or family. He/she performs all required elements of a nursing assessment including but not limited to physical examination, assessment of readiness to learn, psychosocial assessment, functional assessment, and utilization of patient/family specific assessment scales as required. The Registered Nurse is an active member of the multidisciplinary team and collaborates in the development, execution, and evaluation of the multidisciplinary plan of care or critical pathway. The Registered Nurse considers factors related to safety, effectiveness, and cost in planning and delivering care. The Registered Nurse's decisions and actions with patients and families are determined in an ethical manner.

The Registered Nurse establishes goals and strategies for meeting the discharge or continuing care needs with the patient, family, and/or other care provider. The Registered Nurse provides care in collaboration with other nursing staff members; he/she delegates and supervises care in accordance with nurse practice acts and the professional nursing role. The Registered Nurse intentionally rounds on assigned patients’ hourly to ensure patient comfort and safety needs are being met.

The Registered Nurse utilizes research findings in his/her practice. He/she demonstrates knowledge of and participates in Improving Organizational Performance activities. The Registered Nurse acquires and maintains knowledge in nursing practice and assumes responsibility for the professional development of self, other nursing staff, and students.

**MAJOR RESPONSIBILITIES**

The incumbent performs the following job responsibilities:

I. **Clinical Practice/Quality of Care**

   *The registered nurse systematically and continuously collects and assesses data in collaboration with the multidisciplinary team to provide therapeutic care with the patient and family.*

   A. Establishes an in-depth data base by assessing the behavioral and physiologic status of the patient utilizing interview, observation, physical examination, and other available data.
   B. Integrates nursing interventions into the multidisciplinary plan of care, incorporating appropriate standards of care and practice and patient outcomes.
   C. Incorporates discharge/home care planning into the multidisciplinary plan of care on an ongoing basis.
   D. Implements safe, competent, and efficient patient care within policies, procedures and standards, and interventions as noted on the multidisciplinary plan of care.
   E. Sets priorities adapting to changing patient and unit/clinic situations. In response to data indicating urgent and/or emergent risk to patient, initiates action to reduce or correct risk.
   F. Assumes responsibility and accountability for effectively managing nursing care of individual patients/families as a team member.
   G. Documents the nursing process to reflect a comprehensive and integrated approach to patient and family care.
   H. Evaluates patient's responses to care based on effectiveness of nursing interventions/actions in relationship to established outcomes and consults with Medical Staff, Care Team Leader, Case Manager, and/or Nurse Practitioner regarding clinical variances and recommended changes to the plan of care.
   I. Identifies learning needs of patients/families and teaches by adapting standard information to provide individualized and comprehensive teaching-learning. Utilizes the resources of the Teaching-Learning Center as appropriate to
meet identified patient, family and/or caregiver needs.

**Performance measures:**
- Assesses physical and psychosocial needs of patients and families.
- Implements appropriate nursing intervention.
- Analyzes patient data and uses this to provide appropriate nursing care.
- Assesses patient needs and analyses patient data to make appropriate changes in patient and family care.
- Works proactively and throughout patient/family stay to assure to assure timely discharge.
- Evaluates patient responses to nursing interventions.
- Takes time every shift to determine patient/family needs, wants and priorities.
- Answers call/lights within 5 minutes and appropriately meets patient needs directly or through delegation.
- Answers any patient call/light and meets patient needs.
- Is flexible and responsible to accommodate physical and emotional needs.
- Is courteous to patients, families, visitors, and staff.
- Looks for ways to improve service.
- Addresses patient/family by preferred name.
- Introduces self and explains role to patient/family/visitor with a friendly smile.
- Participates in quality improvement efforts of unit.
- Delivers care in an organized, efficient manner.
- Demonstrates positive professional attitude toward job.
- Dresses in a professional, neat manner.
- Provides patient with complete information and explains procedures in ways they can understand.
- Explains typical events and common patient responses for patient diagnosis.
- Documents per hospital standard to assure continuity of care.
- Maintains patient, visitor and personal safety.
- Appropriately implements patient plan of care.
- Completes competency check list from annual review.

II. **Resource Utilization**

*The registered nurse considers factors related to safety, effectiveness, and cost in planning and delivering care. He/she demonstrates knowledge of UW Health care delivery system as multidisciplinary and multifaceted with a variety of entry and access points along the care continuum.*

A. Contributes to and supports the effective management of the unit/clinic.
B. Incorporates standards of practice, clinical practice protocols, etc. into practice in order to maximize clinical effectiveness.
C. Acts to facilitate cost control in use of material resources.
D. Acts to facilitate cost controls in the use of human resources.
E. Effectively utilizes technology to support practice and efficiencies in care delivery.

**Performance measures:**
- Adheres to attendance policy.
- Implements practice protocols relevant to patient population i.e. pain scale, fall risk, sitter decision tree.

III. **Collaboration**

*The registered nurse collaborates with the patient, family, significant others, and health care providers in providing patient and family care. Delegates and supervises care in accordance with nurse practice acts and professional nursing role.*

A. Initiates multidisciplinary collaboration to positively impact the outcomes of health provided.
B. Collaborates with Case Manager, Nurse Manager, and Care Team Leader in the provision of patient/family care.
C. Communicates effectively with patients, families, professionals, supportive personnel and others.
D. Initiates steps to support and enhance the patient’s and family’s responsibility and self-determination in decision-making concerning health, treatment and well-being.
UW HEALTH JOB DESCRIPTION

E. Involves the individual patient/family in identification of requirements/perceptions of learning needs and preparation to assume self-care on discharge.

F. Develops, maintains, and terminates therapeutic relationships with patients and families.

G. Participates in unit/clinic and/or departmental shared governance structure in order to improve care.

Performance measures
- Participates in meeting Nursing Unit Patient Satisfaction Goal.
- Considers patient privacy a priority and maintains confidentiality.
- Always demonstrates a “how can I help?” versus “it is not my job” attitude.
- Attends 50% of staff meetings.
- Works with patient, family and healthcare team to achieve mutual goals.
- Offers assistance to coworkers.
- Makes a point to welcome new employees and assists in making them comfortable.
- Demonstrates positive working relationships with other departments.
- Assists less experienced nurses to evaluate and implement approaches to patient and family care.
- Appropriately delegates to team members.
- Facilitates multidisciplinary resolution of issues.
- Contributes to achieving unit goals.
- Provides respectful communication toward and about patients and families.
- Listens attentively to patients/families and healthcare team.
- Utilizes effective verbal and nonverbal techniques with patients, families and healthcare team.
- Demonstrates accountability for obtaining unit/organization information.
- Provides communication to coworkers.

IV. Ethics

The registered nurse’s decisions and actions with patients and families are determined in an ethical manner.

A. Demonstrates sensitivity to the values of self and others.
B. Participates in activities designed to broaden ethical decision-making skills.
C. Integrates personal values with UWHC Mission and Nursing Vision and Aspiration Statements.
