UW HEALTH JOB DESCRIPTION

RN Coordinator - Telehealth					
Job Code: 300038	FLSA Status: Exempt	Mgt. Approval: A. Schmitz	Date: February 2021		
Department: Telehealth		HR Approval: S. Whitlock	Date: February 2021		

JOB SUMMARY

The RN Coordinator, Telehealth is responsible for development, growth, promotion, and sustainability of the UW Health Telehealth program. The Telehealth program utilizes innovative workflows and emerging technologies to enhance patient care and wellness within UW Health and other healthcare providers throughout Wisconsin and beyond.

The RN Coordinator, Telehealth is a subject matter expert, responsible for providing strategic input and leading the expansion of a portfolio of telehealth programs. The RN Coordinator, Telehealth will serve as a clinical resource and develop, implement, evaluate and redesign Telehealth program workflows and measures to ensure optimal integration into the delivery of care and service. This position provides consultation and leadership to the development of standardized approaches to telehealth-based models of care, which includes developing workflows, contracting with technology and service-providing vendors, and educating staff. The Coordinator will participate in or lead various program-related short-and long-term projects, considering safety, cost, effectiveness, efficiency, and timeliness of care. Additionally, the coordinator will possess clinical knowledge, to be applied in monitoring patient data and quality patient outcomes. Under the direction of the Director of Telehealth and in partnership with the Telehealth Manager, the nursing coordinator will be assigned work based on the needs of the Telehealth program. This position will develop strategies for program development and implementation as new technologies are introduced. The RN Coordinator, Telehealth will collaborate with others to coordinate and market all the various telehealth modalities and participates in community educational programs as needed. This position will not be providing direct patient care.

MAJOR RESPONSIBILITIES

- Positively contributes and interacts as a team member in the development, growth, and sustainability of the UW Health Telehealth Program.
- Evaluates telehealth opportunities to determine feasibility and supports business plan development.
- Promotes and markets telehealth programs both within UW Health and beyond.
- Serves as a subject matter expert and resource for the organization advising staff in telehealth aspects of care
 delivery and operations.
- Develops evidence-based standards and best practices for telehealth.
- Leads administrative and clinical stakeholders to develop enterprise telehealth standards, policies, and procedures.
- Interviews clinical and administrative staff to analyze clinic workflows allowing for the integration of telehealth.
- Oversees the development of telehealth educational materials.
- Monitors activity of telehealth programs to identify where improvements may be needed and develops action plans
 that are effectively communicated to program leaders.
- Provides leadership for consistent delivery and implementation of approved telehealth projects.
- Independently determines priorities based on program guidelines, handles multiple projects of varying scope simultaneously without oversight, and keeps program leadership informed of progress.
- Develops and maintains working relationships with, and acts as the primary contact for, appropriate internal and external staff to ensure high levels of patient and provider satisfaction and efficient operations.
- Maintains knowledge of departments involved in providing telehealth and serves as a liaison with all key stakeholders, regularly soliciting feedback.
- Develops a working knowledge of local and regional healthcare providers and organizations.
- Maintains professional affiliations and is expected to pursue independent study as well as formalized training to enhance professional growth and development to keep current on telehealth industry trends and legislation.
- Develops a working knowledge of the mission, vision, and values of UW Health to represent these characteristics through the Telehealth program.
- Local and regional travel may infrequently be required.
- Performs other duties as assigned, understanding the role will evolve as the program matures.

All duties and requirements must be performed consistent with the UW Health Organizational Performance Standards.

JOB REQUIREMENTS					
Education	Minimum	Bachelor of Science in Nursing or Related Field			

UW HEALTH JOB DESCRIPTION

Three years of professional experience with telehealth or five years of progressively responsible experience in healthcare industry. Experience working in a health care administration or information systems setting. Experience working in an academic medical center. Experience working in an ambulatory or inpatient setting.
