The University of Wisconsin invites applications and nominations for the position of Director of the Center of Human Genomics and Precision Medicine in the School of Medicine and Public Health (SMPH) at the University of Wisconsin-Madison.

We would welcome any recommendations you wish to forward regarding potential candidates, as well as your help in alerting those who may be interested in becoming candidates.

We seek an exceptional clinically and translationally focused physician scientist, physician or scientist with significant expertise in applied human or cancer genomics who has the proven potential to be a visionary leader serving as the inaugural Director of the University of Wisconsin Center of Human Genomics and Precision Medicine. The director will be expected to develop, implement, monitor and lead a well-crafted, innovative vision to effectively assess, apply and analyze new knowledge and discoveries in human genomics and related disciplines. The purpose is to optimize health outcomes in an ethical and effective manner to create precision molecular and cell-based medicine in collaboration with others. Our goal is to effectively harness genomic information to improve health outcomes with the use of precision medicine through the creation of an appropriate center infrastructure with strategic partnerships aligning priorities of health care providers, scientists, ethicists, patients and communities. Under effective leadership, the center is expected to become a world-class nationally recognized institution for genome-based precision medicine, discovery and treatment.

The successful candidate will possess a terminal degree in Human Genomics, Human Genetics, Cancer Genetics, Molecular Genetics, Medical Genetics, or a related scientific or clinical area. MD and/or PhD or equivalent is preferred. The successful candidate will also have leadership experience in academic medicine, cancer genomics, human genomics, genomic medicine, or molecular medicine, or related program within a medical school, health system, cancer center, or genome institute and at least 10 years of first-hand knowledge of and experience with the development, operational management, or oversight of applied clinical, laboratory, or medically relevant research-based human genomics initiatives. Position is tenure eligible.

Send a letter of application or nomination, with curriculum vitae, to Richard Moss, PhD, and Elizabeth Petty, MD, Co-Chairs of the Genomics Director Search Committee, c/o Andrea Whitcomb, 4150w HSLC, 750 Highland Avenue, Madison, WI, 53705-2111, leadership_recruitments@med.wisc.edu. PVL No.: 87976

Applications from minorities and women are strongly encouraged. To receive full consideration, applications should arrive by December 1, 2016.

Unless confidentiality is requested in writing, information regarding applicants must be released upon request. Finalists cannot be guaranteed confidentiality. Wisconsin Caregiver Law applies. The University of Wisconsin is an equal opportunity, affirmative action employer. For more information: med.wisc.edu.
The University of Wisconsin School of Medicine and Public Health (SMPH) invites applications and nominations for the position of Chair of the Department of Population Health Sciences.

The Department of Population Health Sciences at the University of Wisconsin is an interdisciplinary department with the goals of understanding, preserving, and improving the health of populations and individuals. To accomplish these goals, the department conducts research to understand health, diseases, and their determinants across the lifespan; tests interventions to improve health; defines and addresses health disparities; and develops methodological approaches for population health research. The Department provides training, mentorship, and education in the methods of epidemiology, health services research, social and behavioral health sciences, public health, and related disciplines to undergraduate, graduate, and professional students, post-doctoral fellows, and faculty. The Department of Population Health Sciences also develops partnerships and collaborations with researchers, clinicians, communities and institutions to improve the understanding of the determinants of health and translate population health research findings into policy and practice.

We seek a proven leader with an outstanding academic background, strong research credentials, demonstrated commitment to education, experience in mentoring faculty at all levels, and effective management skills. The Chair will be expected to play major leadership roles within the SMPH and to facilitate growing collaborations with our academic health system (UW Health) and across the UW-Madison campus.

The successful candidate will have a compelling vision for the future of Population Health Sciences in a leading public academic institution. Candidates must have a doctoral-level degree with substantial background and experience in teaching and research and must qualify for appointment as a tenured professor at the University of Wisconsin-Madison.

Send a letter of application or nomination, with curriculum vitae, to Val Gilchrist, MD, and Paul Rathouz, PhD, Co-Chairs of the Population Health Sciences Chair Search Committee, c/o Andrea Whitcomb, 4150w HSLC, 750 Highland Avenue, Madison, WI, 53705-2111, leadership_recruitments@med.wisc.edu

PVL No.: 88263

Applications from minorities and women are strongly encouraged. To receive full consideration, applications should arrive by December 31, 2016.

Unless confidentiality is requested in writing, information regarding applicants must be released upon request. Finalists cannot be guaranteed confidentiality. Wisconsin Caregiver Law applies. The University of Wisconsin School of Medicine and Public Health (SMPH) invites applications and nominations for the position of Chair of the Department of Surgery.

The Department of Surgery is among the leading academic surgery programs in the nation, excelling in patient care, education and training, and research across the full continuum of basic, clinical, translational, and population health sciences. The department includes 114 full-time faculty and a full complement of staff, residents, and fellows.

We seek a recognized clinical leader with an outstanding academic background, strong research credentials, demonstrated commitment to education, experience in mentoring faculty at all levels, and proven management skills. The Chair will be expected to play a major leadership role within the SMPH and our integrated academic health system.

The successful candidate will have a compelling vision for the future of surgery in a leading public academic institution. Candidates must have an MD or MD/PhD degree with substantial background and experience in clinical care, teaching, and research, and must qualify for appointment as a tenured professor at the University of Wisconsin-Madison.

Send a letter of application or nomination, with curriculum vitae, to Patricia Kiley, PhD, and Stephen Nakada, MD, Co-Chairs of the Surgery Chair Search Committee, c/o Andrea Whitcomb, 4150w HSLC, 750 Highland Avenue, Madison, WI, 53705-2111, leadership_recruitments@med.wisc.edu
