A COLLABORATIVE LEARNING EXPERIENCE

Dear Colleagues and Friends,

We invite you to explore the 2017 Education Guide from the UW School of Medicine and Public Health Department of Ophthalmology and Visual Sciences. We are proud to provide an exceptional educational program with translational, multidisciplinary collaborations at its core.

Our mission of improving vision-related quality of life includes a commitment to transmitting and applying knowledge. The department’s clinical and research faculty are highly regarded experts in their fields, as well as talented educators with a passion for creating and sharing knowledge.

Our educational programs are designed to reach YOU—friends of the department, professional learners, clinical and research professionals, and patients. We also thank our faculty educators for their dedication to our global teaching mission, as well as the many internal and external supporters who enable us to continue to build our strong programs.

On, Wisconsin!

Terri L. Young, MD, MBA
Peter A. Duehr Professor of Ophthalmology, Pediatrics and Medical Genetics
Chair, Department of Ophthalmology and Visual Sciences
