Please join the UW Health pancreas transplant team for a dinner presentation

Pancreas Transplantation 2017: Coming of Age, Expanding Indications and Current Outcomes

Successful pancreas transplantation effectively improves the quality of life for people with diabetes. This presentation focuses on how indications for pancreas transplantation are broadening to include type II and surgical diabetes, as results continue to improve.

**Presenter**

Jon Odorico, MD  
Professor of Surgery  
Surgical Director, UW Health Pancreas Transplant Program

**Friday, March 17, 2017**

6:15 - 7 p.m.  
Dinner Buffet

7 - 7:45 p.m.  
Presentation

7:45 - 8 p.m.  
Q & A

Madison Marriott West  
(Salon F,G & H)

This unique experience will include the most important part of transplantation: the patient. A pancreas transplant patient will be in attendance to share their transplant journey. Any clinician with an interest in learning more about pancreas transplantation is welcome to attend.

Dinner buffet served. Cash bar available.

Space is limited. Please RSVP early!
