LEARNING, ELEVATED

Dear Colleagues and Friends,

Our strong educational programs are tailored to multiple audiences, as you will see enclosed in this 2018 Ophthalmology and Visual Sciences Education Guide. As researchers, clinicians, students, patients and friends of the UW School of Medicine and Public Health Department of Ophthalmology and Visual Sciences, we strive to provide unparalleled, multidisciplinary educational experiences.

We are driving forward our mission to save sight globally by sharing our best research, providing patient-centered care and insightful community events, as well as teaching the next generations of vision leaders with the department’s renowned clinical and research faculty at the helm.

The foundation for our robust program lies within the significant efforts of our people. Thank you for your unwavering support and commitment to saving sight.

We look forward to learning with you in 2018.

On, Wisconsin!

Terri L. Young, MD, MBA
Peter A. Duehr Professor of Ophthalmology, Pediatrics and Medical Genetics
Chair, Department of Ophthalmology and Visual Sciences
