Update on the Prescription Drug Monitoring Program (PDMP)
Save the date/Registration now open – Friday, November 8 – 3:30-5:30 p.m.
Rennebohm Hall - Room 2002
777 Highland Avenue
By law, dispensers of monitored prescription drugs must collect and submit information to the PDMP about each dispensing of a monitored prescription drug. This information is made available to healthcare and other authorized professionals. The main purpose of the PDMP is to improve patient care and safety and reduce the abuse and diversion of prescription drugs in Wisconsin. Chad Zadrazil, PDMP Project Manager for the Wisconsin Department of Safety and Professional Services, will present an overview of the important aspects of the program and answer your questions about PDMP.
