

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff – September 2, 2009

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: August 3, 2009
Medical Board: August 13, 2009

Michael Bentz, M.D., Chair of Medical Board & President
of Medical Staff

New Applications

Lisa Baker, PhD, Clinical Psychology
Department of Medicine/Infectious Disease

- psychological testing--adults
- individual psychotherapy--adolescents
- individual psychotherapy--adults
- group therapy
- psychoeducational counseling
- psychological consultation

Roland H. Brilla, MD, Active Staff
Department of Neurology/General

- Neurology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and provide medical treatment to patients presenting with illnesses or injuries of the neurological system. These privileges include, but are not limited to, lumbar puncture; EEG interpretation and operative monitoring; EMG and nerve conduction studies; muscle and nerve biopsy; and supervision of residents, fellows and others in training.

Jason A. Dambach, MD, Active Staff
Department of Medicine/General Internal Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adults patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.

Mete Dolapci, MD, Active Staff
Department of Surgery/Transplant

- Organ Procurement
- All other clinical practice is to be performed under supervision/no other independent clinical practice is authorized.

Jennifer L. Everton, DO, Courtesy Staff

Department of Medicine/General Internal Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

Hani A. Hennein, MD, Active Staff

Department of Surgery/Cardiothoracic

- Cardiothoracic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the chest and abdomen, including the support structures and vascular supply to the extremities and brain. These privileges include cardiac transplantation; pediatric cases within scope of training; and supervision of residents, fellows, and others in training.
- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and supervision of residents, fellows, and others in training.

Dipesh Navsaria, MD, Active Staff

Department of Pediatrics/General

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.

Seema E. Nour, MD, Courtesy Staff

Department of Medicine/Cardiovascular Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adults patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.
- Central venous catheter insertion for access
- Exercise stress testing (for non-cardiologists)
- Adult Moderate Sedation-- Inside and outside CSC

Satoru Osaki, MD, Active Staff

Department of Surgery/Cardiothoracic

- All clinical practice is to be performed under supervision as part of a non-accredited fellowship/no independent clinical practice is authorized.

Orhan S. Ozkan, MD, Active Staff

Department of Radiology/General

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided catheter placement.
- TIPs procedure.
- Transjugular liver biopsy.
- Image guided caval filter.
- Therapeutic percutaneous peripheral vascular interventions including renal, femoral and brachiocephalic.
- Tunneled catheter and port placement.
- Image guided percutaneous biliary dilatation, drainage, ballooning, stenting or biopsy.
- Image guided urological dilatation, drainage, ballooning, stenting or biopsy.
- Image guided embolotherapy.
- Therapeutic embolotherapy.
- Diagnostic percutaneous peripheral vascular interventions of the extracranial carotid.
- Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation.
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality.

Daniel W. Riethmiller, MD, Courtesy Staff

Department of Family Medicine/General

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Vasectomy

Additional Privileges

Istvan Danko, MD, Active

Department of Pediatrics: Pediatric Gastroenterology

- Supervision of Physician Assistant with Prescriptive Authority (Jessica King, PA)

Nilto DeOliveira, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant without Prescriptive Authority (Tina Krider, PA)

Niloo Edwards, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant without Prescriptive Authority (Tina Krider, PA)

Takushi Kohmoto, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant without Prescriptive Authority (Tina Krider, PA)

Lucian Lozonschi, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant without Prescriptive Authority (Tina Krider, PA)

James Maloney, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant without Prescriptive Authority (Tina Krider, PA)

Camilla Matthews, MD, Active

Department of Pediatrics

- Sleep Medicine

Dorota Walkiewicz, MD, Active

Department of Pediatrics: Pediatric Gastroenterology

- Supervision of Physician Assistant with Prescriptive Authority (Jessica King, PA)

Tracey Weigel, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant without Prescriptive Authority (Tina Krider, PA)

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Adeline M. Kaam, MD, Pediatrics General, Active
Anne Traynor, MD, Medicine Medical Oncology, Active
Bradley Maxfield, MD, Radiology, Active
Daniel A. Dumesic, MD, Obstetrics/Gynecology, Active
Daniel L. Mulkerin, MD, Medicine Medical Oncology, Active
Erin Costanzo, PhD, Psychiatry, Clinical Psychology
Franz A. Keilhauer, MD, Medicine Emergency Medicine, Active
George Wilding, MD, Medicine Medical Oncology, Active
Glenn Liu, MD, Medicine Medical Oncology, Active
H. Ian Robins, MD, Medicine Medical Oncology, Active
James F. Cleary, MBBS, Medicine Medical Oncology, Active
John M. Elisberg, MD, Medicine General Internal Medicine, Active
Kathleen E. Walsh, MD, Medicine Geriatrics, Active
Lance T. Hall, MD, Radiology, Active
Lianne L. Stephenson, MD, Anesthesiology, Active
Lori L. DuBenske, PhD, Psychiatry, Clinical Psychology
Mark Schiebler, MD, Radiology, Active
Michael A. Haase, MD, Medicine Cardiovascular Medicine, Courtesy
Michele L. Pipp, MD, Medicine Hematology, Active
Philip F. Giampietro, MD, Pediatrics Genetics, Active
Shawn P. Wilson, MD, Medicine Emergency Medicine, Active

Susan L. Rebsamen, MD, Radiology, Active
Tien Hoang, MD, Medicine Medical Oncology, Active
Toby C. Campbell, MD, Medicine Hematology, Active
William R. Schelman, MD, Medicine Medical Oncology, Active
Yonca O. Arat, MD, Ophthalmology, Active
