

**University of Wisconsin Hospitals and Clinics Board of Directors**  
**Review of Medical Staff – September 2, 2009**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: July 22, 2009

Medical Board: August 13, 2009

---

Michael Bentz, M.D., Chair of Medical Board &  
President of Medical Staff

**New Applications**

**Michael R. Harrison, MD, Active Staff**  
Department of Medicine/Hematology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Medical Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with malignancies. These privileges include, but are not limited to, administration of chemotherapeutic agents and biological response modifiers through all therapeutic routes; management and maintenance of indwelling venous access catheters; and supervision of residents, fellows, and others in training.

**Mateusz P. Karwowski, MD, Active Staff**  
Department of Pediatrics/General

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.

**Greta J. Kuphal, MD, Active Staff**  
Department of Family Medicine/General

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the

uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

- Circumcision

Ian H. Law, MD, Courtesy Staff

Department of Pediatrics/Cardiology

- Pediatric Cardiology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children and adolescents with cardiac disease or possible cardiac disease. These privileges include, but are not limited to, electrocardiography performance and interpretation; echocardiography; exercise testing; cardioversion/defibrillation; central venous/pulmonary artery catheterization; temporary transvenous pacemaker placement; pacemaker interrogation and programming; balloon atrial septostomy; pericardiocentesis; provision of immediate and longitudinal care for adults with congenital heart disease; and supervision of residents, fellows and others in training.
- Intracardiac electrophysiology studies
- Radiofrequency arrhythmia ablation

Marty G. Mozena, DO, Active Staff

Department of Medicine/General Internal Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adults patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.

Stephanie A. Skladzien, MD, Active Staff

Department of Family Medicine/General

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Circumcision

Thomas C. Teelin, MD, Courtesy Staff

Department of Medicine/Cardiovascular Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp

removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.

- Adult Moderate Sedation-- Inside and outside CSC

Emily R. Winslow, MD, Active Staff

Department of Surgery/General Surgery

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and supervision of residents, fellows, and others in training.
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy
- Organ Procurement

Jay Yang, MD, Active Staff

Department of Anesthesiology

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period. These privileges include supervision of residents, fellows, and other persons in training.

#### Additional Privileges

Vikramjit Chhokar, MD, Active

Department of Medicine: Cardiovascular Medicine

- Cardiac Imaging: Transthoracic echocardiography
- Cardiac Imaging: Transesophageal echocardiography
- Cardiac Imaging: Stress echocardiography
- Cardiac Imaging: Nuclear Cardiology
- Peripheral Vascular Interventions: Diagnostic percutaneous peripheral vascular interventions including renal, femoral and brachiocephalic
- Peripheral Vascular Interventions: Therapeutic percutaneous peripheral vascular interventions including renal, femoral and brachiocephalic
- Peripheral Vascular Interventions: Diagnostic percutaneous peripheral vascular interventions of the extracranial carotid
- Peripheral Vascular Interventions: Therapeutic percutaneous peripheral vascular interventions of the extracranial carotid
- Electrophysiology Procedures: Permanent pacemaker selection and implementation
- Percutaneous interventions (primary operator): atherectomy, angioplasty and stent placement
- Percutaneous interventions: Intra-aortic balloon pump placement
- Diagnostic Cardiac Catheterization: Coronary Angiography
- Diagnostic Cardiac Catheterization: Endomyocardial biopsy

Nilto DeOliveira, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Jeffrey C. Miller, PA)

Sharon D'Souza, MD, Active

Department of Radiology

- Adult Moderate Sedation-- Within CSC and outside the CSC

Niloo Edwards, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Jeffrey C. Miller, PA)

Takushi Kohmoto, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Jeffrey C. Miller, PA)

Lawrence Lee, MD, Active

Department of Radiology

- Adult Moderate Sedation-- Within CSC and outside the CSC

Lucian Lozonschi, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Jeffrey C. Miller, PA)

James Maloney, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Jeffrey C. Miller, PA)

John McCartney, Active

Department of Medicine

- CRITICAL CARE MED>>EICU

Brandon Runyan, MD, Active

Department of Radiology

- Adult Moderate Sedation-- Within CSC and outside the CSC

Anthony Rutkowski, MD, Active

Department of Radiology

- Adult Moderate Sedation-- Within CSC and outside the CSC

Jason Wagner, MD, Active

Department of Radiology

- Adult Moderate Sedation-- Within CSC and outside the CSC

Tracey Weigel, MD, Active

Department of Surgery: Cardiothoracic Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Jeffrey C. Miller, PA)
