

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff – November 4, 2009

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: October 5, 2009

Medical Board: October 8, 2009

Michael Bentz, M.D., Chair of Medical Board &
President of Medical Staff

New Applications

Kimberly K. Arndt, MD, Active Staff

Department of Orthopedics and Rehabilitation/Rehab Medicine

- Rehabilitation Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with acute or chronic neuromuscular disease or disabilities. These privileges include, but are not limited to, anesthetic nerve block; arthrocentesis, electrodiagnosis, injection of neuromuscular block; neurolytic nerve block; soft tissue injection; and supervision of residents, fellows, and others in training.

Ann E. Curtis, MD, Active Staff

Department of Medicine/Hospitalist

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adults patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.

Andrea I. Martonffy, MD, Active Staff

Department of Family Medicine/General

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and supervision of residents, fellows, and other persons in training.

- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

Heather B. Neuman, MD, Active Staff

Department of Surgery/General Surgery

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and supervision of residents, fellows, and others in training.
- Laparoscopic surgery
- Colonoscopy
- Stereotatic breast biopsy

John P. Parry, MD, Active Staff

Department of Obstetrics and Gynecology/Reproductive Endocrinology

- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and supervision of residents, fellows, and other persons in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.
- Special Competence - Assisted Reproduction: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide surgical or therapeutic interventions for women with infertility. These privileges include micro reanastomosis of the fallopian tubes; GIFT (Gamete intrafallopian tube transfer); invitro fertilization and embryo transfer, revision of complex congenital anomalies; ultrasound evaluation of developing follicles.

Carole E. Perry, MD, Courtesy Staff

Department of Family Medicine/General

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Thoracentesis
- Paracentesis

Kristin A. Shadman, MD, Active Staff

Department of Pediatrics/Hospitalist

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.

Janis P. Tupesis, MD, Active Staff

Department of Medicine/Emergency Medicine

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.

Mon L. Yee, MD, Courtesy Staff

Department of Family Medicine/General

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

Lucyna Z. Zawadzki, MD, Active Staff

Department of Neurology/General

- Neurology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and provide medical treatment to patients presenting with illnesses or injuries of the neurological system. These privileges include, but are not limited to, lumbar puncture; EEG interpretation and operative monitoring; EMG and nerve conduction studies; muscle and nerve biopsy; and supervision of residents, fellows and others in training.

Additional Privileges

Guilherme Rocha Campos, MD, Active

Department of Surgery

- Adult Moderate Sedation

David Andes, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

William Craig, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Christopher Crnich, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Sigurdur Einarsson, MD, Active

Department of Medicine

Adult Moderate Sedation

Barry Fox, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Gregory Gauthier, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Shannon Kenney, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Ticiana Leal, MD, Active

Department of Medicine: Hematology/Oncology

- Adult Moderate Sedation
- Hematology Core Privileges
- Bone marrow harvest

Dennis Maki, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

George Mejicano, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Richard Reich, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Guilherme Rocha Campos, MD, Active

Department of Surgery

- Adult Moderate Sedation

Nasia Safdar, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Robert Striker, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Andrew Urban, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Bennett Vogelman, MD, Active

Department of Medicine: Infectious Disease

- Supervision of Physician Assistant with Prescriptive Authority (Myra Kemna)

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Rami N. Khayat, MD, Active, Medicine

Reappointments

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments and are recommended to the Medical Board for approval/action:
