

**University of Wisconsin Hospitals and Clinics Board of Directors**  
**Review of Medical Staff – July 7, 2010**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: May 20, 2010 and June 7, 2010  
Medical Board: June 10, 2010

Michael Bentz, M.D., Chair of Medical Board &  
President of Medical Staff

**New Applications**

**Bethany M. Anderson, MD, Active Staff**  
**Department of Human Oncology**

- Radiation Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat patients of all ages, with malignant and benign tumors, as well as other conditions where radiotherapy has a role. These privileges include, but are not limited to, administration of external beam radiation therapy, brachytherapy, naked or tagged radioisotopes (including intralesional, intracavitary, intracystic, intravenous, intra arterial or other routes of administration), radiosensitizers, radioprotectors and other therapeutic drugs required in the routine management of these patients; management and maintenance of indwelling brachytherapy catheters and other devices for delivery of brachytherapy or other forms of radiation; and supervision of residents, fellows, and other persons in training.
- Adult Moderate Sedation-- Within CSC only

**Jocelyn M. Blake, MD, Active Staff**  
**Department of Anesthesiology**

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.

**Kevin D. Branch, MD, Active Staff**  
**Department of Pathology and Lab. Medicine**

- Clinical Pathology Core Privileges: Privileges in clinical pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of clinical laboratory tests on body fluids and secretions. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.
- Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Nathaniel P. Brooks, MD, Active Staff**  
**Department of Neurological Surgery**

- Neurological Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose,

consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the neurological system, including the supporting structures and vascular supply. These privileges include, but are not limited to craniotomy and craniectomy; reconstructive cranioplasty; laminectomy; spinal fusion; chemonucleolysis; percutaneous discectomy; transsphenoidal hypophysectomy; CSF shunting procedures; radiofrequency chemical rhizotomy/chordotomy; intracarotid injection; peripheral nerve surgery; intra-extracranial anastomosis; carotid endarterectomy; myelomeningocele repair; neurostimulation and recording; and supervision of residents, fellows and others in training.

**Chris M. Erickson, MD, Active Staff**  
**Department of Pediatrics/Urgent Care**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.

**Shelby J. Fishback, MD, Active Staff**  
**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided catheter placement.
- Image guided percutaneous biliary dilatation, drainage, ballooning, stenting or biopsy.
- Image guided urological dilatation, drainage, ballooning, stenting or biopsy.
- Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality.
- Adult Moderate Sedation-- Within CSC only

**Lindsay M. Geier, MD, Active Staff**  
**Department of Pediatrics/General**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.

**Allison M. Grayev, MD, Active Staff**  
**Department of Radiology**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation.
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality.
- Adult Moderate Sedation-- Within CSC only

**Christopher G. Guglielmo, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.

**Hans C. Jensen, MD, Active Staff**

**Department of Psychiatry/General**

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.
- Child Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat children and adolescents who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Kunal N. Karmali, MD, Active Staff**

**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

**John-Michael N. Khalil, MD, Active Staff**

**Department of Radiology/General**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.

**David A. Lewis, MD, Active Staff**

**Department of Ophthalmology/Fellow**

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways\*. These privileges include supervision of residents, fellows, and other persons in training. (\* This does not include the procedures requiring fellowship training listed under special competence areas.)
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training.
- Adult Moderate Sedation-- Inside and outside CSC

**Haggi Mazeh, MD, Active Staff**

**Department of Surgery/General Surgery**

- All activities are part of a non-accredited training program--No Independent Activities.

**Jessica L. Mellinger, MD, Active Staff**

**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

**Silke V. Niederhaus, MD, Active Staff**

**Department of Surgery/Fellow**

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and supervision of residents, fellows, and others in training.
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy
- Stereotatic breast biopsy
- Organ Procurement
- Adult Moderate Sedation-- Inside and outside CSC

**Amy L. Peterson, MD, Active Staff**

**Department of Pediatrics/Cardiology**

- Pediatric Cardiology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children and adolescents with cardiac disease or possible cardiac disease. These privileges include, but are not limited to, electrocardiography performance and interpretation; echocardiography; exercise testing; cardioversion/defibrillation; central venous/pulmonary artery catheterization; temporary transvenous pacemaker placement; pacemaker interrogation and programming; balloon atrial septostomy; pericardiocentesis; provision of immediate and longitudinal care for adults with congenital heart disease; and supervision of residents, fellows and others in training.
- Percutaneous balloon angioplasty/valvuloplasty

**David T. Plante, MD, Active Staff**

**Department of Psychiatry/General**

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.
- Evaluation and treatment of patient with sleep disorders
- Interpretation of sleep laboratory studies

**Samuel O. Poore, MD, PhD, Active Staff**

### **Department of Surgery/Plastic**

- Plastic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with both congenital and acquired defects of the body's soft tissue and skeleton, including functional and aesthetic management. These privileges include supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Within CSC only

### **Jeffrey J. Pothof, MD, Active Staff**

#### **Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Inside and outside CSC

### **Paul H. Rehnstrom, DO, Active Staff**

#### **Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Inside and outside CSC

### **Vanessa L. Rein, MD, Active Staff**

#### **Department of Medicine/Endocrinology**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Endocrinology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the endocrine system or metabolic disorders. These privileges include, but are not limited to, fine needle aspiration of the thyroid; percutaneous needle biopsy of the thyroid; bone densitometry; and supervision of residents, fellows, and others in training.

### **Michael D. Replinger, MD, Active Staff**

#### **Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Inside and outside CSC

### **Aaron M. Wieland, MD, Active Staff**

#### **Department of Surgery/Otolaryngology**

- Otolaryngology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the head and neck affecting the ears, facial skeleton, and respiratory and upper alimentary system. These privileges include, but are not limited to, surgical

procedures involving the temporal bone, nasal and paranasal sinuses, the skull-base, the thyroid, parathyroid, salivary glands, and lymphatic tissue of the head and neck, maxillofacial plastic and reconstructive procedures; sinus endoscopy; and supervision of residents, fellows, and others in training.

- Use of surgical laser

**Timothy J. Ziemlewicz, MD, Active Staff**  
**Department of Radiology/General**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaging guided needle, biopsy, ablation, drainage or aspiration.

**Additional Privileges**

**Ann E. Curtis, MD, Active**  
**Department of Medicine/Hospitalist**

- Adult Moderate Sedation

**Ryan J. DeLee, MD, Active**  
**Department of Medicine/Gastroenterology & Hepatology**

- Adult Moderate Sedation

**James A. Dixon, MD, Active**  
**Department of Ophthalmology**

- Special Competency Medical Retina

**Karn Gupta, MD, Active**  
**Department of Medicine/ Nephrology**

- Nephrology Core Privileges
- Percutaneous needle biopsy of the kidney

**Focused Professional Practice Evaluation Review**

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Juan P. Boriosi, MD, Active, Pediatrics  
Istvan Danko, MD, Active, Pediatrics  
Kevin J Dasher, MD, Active, Medicine  
Michelle M Kelly, MD, Active, Pediatrics  
Prabhav V Kenkre, MD, Active, Medicine  
Camilla Matthews, MD, Active, Pediatrics  
Richard L Page, MD, Active, Medicine  
Sutchin R. Patel, MD, Active, Urology  
Don B. Sanders, MD, Active, Pediatrics  
Kristin A Shadman, MD, Active, Pediatrics  
Luther Sigurdsson, MD, Active, Pediatrics  
Dorota Walkiewicz, MD, Active, Pediatrics
