

**University of Wisconsin Hospitals and Clinics Board of Directors**  
**Review of Medical Staff – February 9, 2011**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: December 17, 2010 and January 3, 2011

Medical Board: January 13, 2011

  
\_\_\_\_\_  
Christopher G. Green, M.D., Chair of Medical Board &  
President of Medical Staff

**New Applications**

Mahmud Ali, MD, MPH, Active Staff

Department of Medicine/Geriatrics

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Circumcision

Michael M. Collins, MD, Active Staff

Department of Anesthesiology

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.

Randall S. Condit, MD, Active Staff

Department of Ophthalmology/Fellow

- At this time, all activities to be supervised as part of a non-accredited fellowship.

Jennifer E. Lochner, MD, Active Staff

Department of Family Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems.
