

**University of Wisconsin Hospitals and Clinics Board of Directors**  
**Review of Medical Staff –December 5, 2012**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: August 31, 2012  
Medical Board: November 8, 2012

Nathan Rudin, M.D., Chair of Medical Board & President  
of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

**New Applications**

**Lisa M. Barroilhet, MD, Active Staff**

**Department of Obstetrics and Gynecology/Gynecological Oncology**

- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and premalignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.
- Use of surgical laser
- Special competence - Gynecologic Oncology: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide surgical and therapeutic treatment to women with malignant diseases, including carcinomas of the cervix, uterus, vulva, and vagina. These privileges include, but are not limited to, microsurgery; venous access procedures; chemotherapy; use of surgical laser; pelvic exenteration; vulvectomy; performance of procedures on the bowel, ureters, urethra, and bladder; radical hysterectomy with lymph node dissection; skin grafts and myocutaneous flaps for reconstruction; splenectomy; and retroperitoneal surgery for cancer.
- Robotic Gynecological Surgery

**Anju I. Bradford, MD, Active Staff**

**Department of Pediatrics/Urgent Care**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture;

neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

**Michael M. Collins, MD, Active Staff**

**Department of Anesthesiology**

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. These privileges include supervision of residents, fellows, and otherpersons in training.

**Timothy J. Cordes, MD, Active Staff**

**Department of Psychiatry/General**

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Matthew R. Deluhery, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Deep Sedation--Adults (14 years and older)
- Adult Moderate Sedation-- Inside and outside CSC
- Pediatric Moderate Sedation

**Anto T. Fritz, MD, Active Staff**

**Department of Orthopedics and Rehabilitation/Fellow**

- All activities done as part of fellowship. No independent privileges

**Nathaniel J. Fullerton, MD, Active Staff**

**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.

**Dalia O. Girgis, MD, Active Staff**

**Department of Ophthalmology/General**

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways\*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training
- Use of surgical laser - Argon for glaucoma.
- Use of surgical laser - Argon and Diode for panretinal laser.
- Use of surgical laser - Diode for glaucoma.
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation.
- Use of surgical laser - Keratorefractive surgery

**Ronen Harris, MD, Active Staff**

**Department of Anesthesiology/Fellow**

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.

**Georgios Kirvassilis, MD, Active Staff**

**Department of Anesthesiology**

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.
- Transesophageal Echocardiography

**Nathan A. Miller, PhD, Clinical Psychology**

**Department of Psychiatry**

- Psychological testing: adults
- Individual psychotherapy: adult
- Group therapy
- Psychological consultation

**Bradley R. Mons, DO, Active Staff**

**Department of Surgery/Fellow**

- Otolaryngology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the head and neck affecting the ears, facial skeleton, and respiratory and upper alimentary system. These privileges include, but are not limited to, surgical procedures involving the temporal bone, nasal and paranasal sinuses, the skull-base, the thyroid, parathyroid, salivary glands, and lymphatic tissue of the head and neck, maxillofacial plastic and reconstructive procedures; sinus endoscopy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Use of surgical laser
- Adult Moderate Sedation-- Inside and outside CSC

**Brian T. Nam, MD, Active Staff**

**Department of Surgery/Cardiothoracic**

- Cardiothoracic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the chest and abdomen, including the support structures and vascular supply to the extremities and brain. These privileges include transplantation of the heart and/or lung; ventricular assist devices; pediatric cases within scope of training; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and others in training.
- Use of surgical laser

**Daniel J. Ostlie, MD, Active Staff**

**Department of Surgery/General Surgery**

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy
- Stereotactic breast biopsy
- Cardiothoracic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the chest and abdomen, including the support structures and vascular supply to the extremities and brain. These privileges include transplantation of the heart and/or lung; ventricular assist devices; pediatric cases within scope of training; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and others in training.
- Otolaryngology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the head and neck affecting the ears, facial skeleton, and respiratory and upper alimentary system. These privileges include, but are not limited to, surgical procedures involving the temporal bone, nasal and paranasal sinuses, the skull base, the thyroid, parathyroid, salivary glands, and lymphatic tissue of the head and neck, maxillofacial plastic and reconstructive procedures; sinus endoscopy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Urology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses or injuries of the genitourinary system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Laparoscopic urologic procedures

**Vrishali P. Patil, MD, Active Staff**

**Department of Surgery/Fellow**

- Organ Procurement

**Michael S. Pulia, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracocentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.

- Deep Sedation--Adults (14 years and older)
- Adult Moderate Sedation-- Inside and outside CSC
- Pediatric Moderate Sedation

**Aeyal Raz, MD, Active Staff**  
**Department of Anesthesiology**

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.

**Lauren Q. Shapiro, MD, Active Staff**  
**Department of Human Oncology**

- Radiation Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat patients of all ages, with malignant and benign tumors, as well as other conditions where radiotherapy has a role. These privileges include, but are not limited to, administration of external beam radiation therapy, brachytherapy, naked or tagged radioisotopes (including intralesional, intracavitary, intracystic, intravenous, intra arterial or other routes of administration), radiosensitizers, radioprotectors and other therapeutic drugs required in the routine management of these patients; management and maintenance of indwelling brachytherapy catheters and other devices for delivery of brachytherapy or other forms of radiation; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and other persons in training.

**Marcia L. Wirt, MD, Active Staff**  
**Department of Pediatrics/General**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training. (Note: physician deleted from core: neonatal circumcision)

**Christine L. Zimmerman, MD, Active Staff**  
**Department of Pediatrics/General**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

**Additional Privileges**

**Michael J. Peterson, MD, Active Staff**  
**Department of Psychiatry**

- Electroconvulsive therapy

**David F. Schneider, MD, Active Staff**

**Department of Surgery/Fellow**

- Adult Moderate Sedation Within CSC

Michael K. Abernethy, MD, Active Staff  
Joseph R. Cline, MD, Active Staff  
Sara C. Damewood, MD, Active Staff  
Dale A. Gerdes, MD, Active Staff  
Jamie M. Hess, MD, Active Staff  
David E. Hoffelder, MD, Active Staff  
Michael K. Kim, MD, Active Staff  
Michael T. Lohmeier, MD, Active Staff
