

**University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff –February 8, 2012**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: December 23, 2011 and January 5, 2012

Medical Board: January 12, 2012

Nathan J. Rudin, M.D., Chair of Medical Board & Interim
President of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

New Applications

Debra A. Burbach, MD, Active Staff

Department of Pediatrics/General

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Michael E. Field, MD, Active Staff

Department of Medicine/Cardiovascular Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Cardiovascular Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the heart and blood vessels. These privileges include, but are not limited to, cardioversion; insertion and management of central venous and pulmonary artery catheters; use of thrombolytic agents; pericardiocentesis; Holter scan interpretation; treadmill testing; temporary transvenous pacemaker placement; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Electrophysiology Procedures: Electrophysiology studies
- Electrophysiology Procedures: Permanent pacemaker selection and implementation
- Adult Moderate Sedation-- Within CSC only

William N. Rose, MD, Active Staff

Department of Pathology and Lab. Medicine

- Clinical Pathology Core Privileges: Privileges in clinical pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of clinical laboratory

tests on body fluids and secretions. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

Kendra S. Schaefer, DMD, Courtesy Staff

Department of Surgery/Otolaryngology

- Dental Privileges: operative restorations
- Dental Privileges: prosthetic replacement of teeth
- Dental Privileges: minor pre-prosthetic surgery
- Dental Privileges: treatment of minor infections
- Dental Privileges: removal of minor benign lesions
- Dental Privileges: biopsy
- Dental Privileges: uncomplicated extractions
- Dental Privileges: extraction of simple tissue impacted teeth
- Dental Privileges: conventional endodontics
- Dental Privileges: treatment of traumatic dental injuries
- Dental Privileges: treatment of minor intraoral wounds
- Dental Privileges: dental prophylaxis and root planing

Shawn S. Williamson, MD, Active Staff

Department of Medicine/Emergency Medicine

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Inside and outside CSC

Additional Privileges

Fotios Asimakopoulos, MD, Active

Department of Medicine:Hematology/Oncology

- Adult Moderate Sedation within CSC

Hollis H. King, DO, Active Staff

Department of Family Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Note: working in Outpatient clinic only
