

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff –February 4, 2015

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: December 1, 2014

Medical Board: December 11, 2014

Lee Faucher, M.D., Chair of Medical Board & President
of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

New Applications

Emre Arpali, MD, Active Staff

Department of Surgery/Fellow

- Organ Procurement

Ciara J. Barclay-Buchanan, MD, Active Staff

Department of Emergency Medicine

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Deep Sedation--Adults (14 years and older)
- Point of Care Emergency Ultrasound
- Adult Moderate Sedation-- Within CSC only
- Pediatric Moderate Sedation-- All UWHC facilities

Ryan P. Bartkus, MD, Active Staff

Department of Medicine/General Internal Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; arthrocentesis; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the

uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

E. Ann Czyzewski, MD, Active Staff

Department of Human Oncology

- Radiation Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat patients of all ages, with malignant and benign tumors, as well as other conditions where radiotherapy has a role. These privileges include, but are not limited to, administration of external beam radiation therapy, brachytherapy, naked or tagged radioisotopes (including intralesional, intracavitary, intracystic, intravenous, intra-arterial or other routes of administration), radiosensitizers, radioprotectors and other therapeutic drugs required in the routine management of these patients; management and maintenance of indwelling brachytherapy catheters and other devices for delivery of brachytherapy or other forms of radiation; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and other persons in training.

Brian D. Griffith, MD, Active Staff

Department of Medicine/Allergy, Pulmonary & Critical Care

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Critical Care Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patients in need of critical care. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.
- Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Percutaneous infusion catheter (PICC Line) placement
- Exercise stress testing (for non-cardiologists)
- Fiberoptic bronchoscopy
- Direct laryngoscopy
- Percutaneous needle biopsy of the pleural

Courtney T. Hogendorn, MD, Active Staff

Department of Orthopedics and Rehabilitation/Rehab Medicine

- Rehabilitation Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with acute or chronic neuromuscular disease or disabilities. These privileges include, but are not limited to, anesthetic nerve block; arthrocentesis, electrodiagnosis, injection of neuromuscular block; neurolytic nerve block; soft tissue injection; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

Cheryl J. Roets, PhD, Clinical Psychology

Department of Psychiatry/General

- Psychological testing: children (under 12)
- Psychological testing: adolescents
- Psychological testing: adults
- Individual psychotherapy: children (play)
- Individual psychotherapy: adolescents
- Individual psychotherapy: adult
- Family therapy
- Psychoeducational counseling
- Psychoeducational testing
- Psychological consultation

Leslie A. Thompson, MD, Active Staff

Department of Medicine/Hospitalist

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.

Additional Privileges

Azam S. Ahmed, MD, Active Staff
Mustafa K. Baskaya, MD, Active Staff
Taryn M. Bragg, MD, Active Staff
Nathaniel P. Brooks, MD, Active Staff
Robert J. Dempsey, MD, Active Staff
Praveen Deshmukh, MD, Active Staff
Amgad S. Hanna, MD, Active Staff
Bermans J. Iskandar, MD, Active Staff
John S. Kuo, MD, Active Staff
Joshua E. Medow, MD, Active Staff
David B. Niemann, MD, Active Staff
Lincoln F. Ramirez, MD, Active Staff
Daniel K. Resnick, MD, Active Staff
Karl A. Sillay, MD, Active Staff
Gregory R. Trost, MD, Active Staff
Department of Neurological Surgery

- Neurocritical care privileges

Mihaela H. Bazalakova, MD, Active Staff
Brad R. Beinlich, MD, Active Staff
Edward L. Bradbury, MD, Active Staff
Roland H. Brilla, MD, Active Staff
Laura J. Buyan Dent, MD, Active Staff
Michael D. Carrithers, MD, Active Staff
Marcus R. Chacon, MD, Active Staff

Ivy J. Dreizin, MD, Active Staff
Douglas A. Dulli, MD, Active Staff
Frederick S. Edelman, MD, Active Staff
Muruvet Elkay, MD, Active Staff
Catherine L. Gallagher, MD, Active Staff
Stephanie N. Gardon, MD, Active Staff
David A. Hsu, MD, Active Staff
Hrissanthi Ikonomidou, MD, Active Staff
Audrey M. Jantzen, MD, Active Staff
Matthew B. Jensen, MD, Active Staff
John C. Jones, MD, Active Staff
Robert J. Kotloski, MD, Active Staff
Jenny P. Liao, MD, Active Staff
Barend P. Lotz, MD, Active Staff
Christopher C. Luzzio, MD, Active Staff
Rama K. Maganti, MD, Active Staff
Paul A. Rutecki, MD, Active Staff
Justin A. Sattin, MD, Active Staff
Susanne K. Seeger, MD, Active Staff
Thomas P. Sutula, MD, Active Staff
Andrew J. Waclawik, MD, Active Staff
Anne C. Weiss, DO, Active Staff
Ronald A. Zerofsky, MD, Active Staff
Department of Neurology

- Neurocritical care privileges

Herbert Chen, MD, Active Staff

Department of Surgery/General Surgery

- Robotic Surgery

Jacob A. Greenberg, MD, Active Staff

Department of Surgery/General Surgery

- Robotic Surgery

Mohun Ramratnam, MD, Active Staff

Department of Medicine/Cardiovascular Medicine

- Adult Moderate Sedation--All locations

Reinstatement

Burton J. Kushner, MD, Active Staff

Department of Ophthalmology

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Special Competence Pediatric Ophthalmology and Strabismus: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat pediatric patients presenting with complicated illnesses, injuries, and disorders of the eye, including its related structures and visual pathways; and patients of all ages presenting with strabismus disorders. These privileges include, but are not limited to, cyclovertical muscle surgery on any

age; cataract surgery, trabeculectomy, goniotomy, specialized nasolacrimal procedures on patients 12 years old or less, surgery for congenital ptosis and ptosis reoperations.

Reappointments

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments and are recommended to the Medical Board for approval/action:

Name	Department /Section	Staff Status
Juergens, Timothy M., MD	Psychiatry	Active Staff
Singer, Steven, MD	Psychiatry/General	Active Staff
Stroncek, Gregory G., DDS	Surgery/Plastic	Active Staff
Yaffe, Michael R., MD	Pediatrics/General	Courtesy Staff

Professional Privileges-- New Applications

Nicole L. Bennett, CNS, UW Advance Practice Nurse

Department of Neurology/Stroke

- Neurology CNS Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with neurologic injuries and disorders in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority

Kelly S. MacVittie, PA, UW Physician Assistant

Department of Surgery/General Surgery

- General Surgery PA Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Use of silver nitrate for chemical cautery; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. Assist in surgery to include, but not limited to, first assist on major or minor surgeries. These privileges also include ordering respiratory therapy.
- Prescriptive Authority
- Sharp debridement/Incision and drainage/Removal of foreign body/ Excision of benign lesions

Jane E. Nixon, PA, UW Physician Assistant

Department of Medicine/Endocrinology

- Endocrinology PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: approach an adult patient in any setting to obtain a thorough medical history, perform an appropriate physical examination, obtain treatment consent, and record and present pertinent data; counsel and instruct patients, families, and caregivers as appropriate; direct care as specified by medical staff approved protocols; implement therapeutic interventions for specific conditions when appropriate; initiate appropriate referrals; make rounds on hospitalized patients; order and initial interpretation of diagnostic testing and therapeutic modalities, such as routine laboratory tests; medications; respiratory therapy; hemodynamic monitoring; IV fluids and electrolytes; electrocardiogram; and radiologic examinations, including x-rays, angiogram, ultrasound, CT, MRI/A, and bone scan studies, etc. Dictate and sign required notes an evaluations and procedures performed. Discuss proposed procedures with risks and potential complications to enable proper patient informed consent. Assist the physicians as directed in the training of health personnel in certain diagnostic, therapeutic and clinical techniques. Promote health, prevent disease, diagnose,

consult and manage adolescent and adult patients with endocrine or metabolic disorders in both inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy

- Prescriptive Authority

Lindsey A. Selander, AA-C, UW Anesthesiologist Assistant
Department of Anesthesiology/General

- Anesthesiologist Assistant - Certified Professional Privileges: Under the direction and supervision of the responsible and credentialed Anesthesiologist(s) who possesses UWHC privileges, an Anesthesiologist Assistant may perform the following: preanesthesia evaluation and preparation; administration of general and regional anesthesia and all levels of sedation techniques; postanesthesia care for children, adolescent, and adult patients; and assess, stabilize, and determine disposition of patients with emergent conditions consistent with policy regarding emergency and consultative call services.
