

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff –July 11, 2012

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: June 4, 2012

Medical Board: June 14, 2012

Nathan J. Rudin, M.D. Chair of Medical Board & Interim
President of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

New Applications

Graham S. Adsit, MD, Active Staff
Department of Medicine/Fellow

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

An L. Church, MD, Active Staff
Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Adult Moderate Sedation-- Within CSC only

Caitlin G. D'Agata, MD, Active Staff
Department of Family Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative

medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.

- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Circumcision

Dustin A. Deming, MD, Active Staff

Department of Medicine/Hematology/Oncology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Hematology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the blood and blood-forming tissues. These privileges include, but are not limited to, bone marrow aspiration and biopsy; administration of chemotherapy; the management and care of indwelling venous access catheters; plasmapheresis; therapeutic phlebotomy; lymph node aspiration; bone marrow harvest; and supervision of residents, fellows, and others in training.
- Medical Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with malignancies. These privileges include, but are not limited to, administration of chemotherapeutic agents and biological response modifiers through all therapeutic routes; management and maintenance of indwelling venous access catheters; and supervision of residents, fellows, and others in training.

Dylan J. Donnelly, DDS, Active Staff

Department of Surgery/Plastic

- GENERAL DENTAL PRIVILEGES: operative restorations
- GENERAL DENTAL PRIVILEGES: prosthetic replacement of teeth
- GENERAL DENTAL PRIVILEGES: minor pre-prosthetic surgery
- GENERAL DENTAL PRIVILEGES: treatment of minor infections
- GENERAL DENTAL PRIVILEGES: removal of minor benign lesions
- GENERAL DENTAL PRIVILEGES: biopsy
- GENERAL DENTAL PRIVILEGES: uncomplicated extractions
- GENERAL DENTAL PRIVILEGES: extraction of simple tissue impacted teeth
- GENERAL DENTAL PRIVILEGES: conventional endodontics
- GENERAL DENTAL PRIVILEGES: treatment of traumatic dental injuries
- GENERAL DENTAL PRIVILEGES: treatment of minor intraoral wounds
- GENERAL DENTAL PRIVILEGES: dental prophylaxis and root planing
- GENERAL DENTAL PRIVILEGES: extraction of complex impacted teeth
- GENERAL DENTAL PRIVILEGES: surgical endodontics on anterior teeth
- GENERAL DENTAL PRIVILEGES: surgical endodontics on posterior teeth
- GENERAL DENTAL PRIVILEGES: gingivectomy/gingivoplasty
- GENERAL DENTAL PRIVILEGES: implants

Katherine E. Dutra, MD, Active Staff

Department of Psychiatry/General

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat

patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

Melissa J. Ertl, MD, Active Staff
Department of Anesthesiology/Fellow

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.

Adam D. Gepner, MD, Active Staff
Department of Medicine/Fellow

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

Nauman Khurshid, MD, Active Staff
Department of Obstetrics and Gynecology/Fellow

- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.

Hilda S. Ladenheim, MD, Active Staff
Department of Pathology and Lab. Medicine/Fellow

- Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

Rebecca L. MacAllister, MD, Active Staff
Department of Medicine/General Internal Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urinedipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

Bridget L. Muldowney, MD, Active Staff
Department of Anesthesiology

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.

Jason A. Ricco, MD, Active Staff
Department of Family Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

John P. Rice, MD, Active Staff
Department of Medicine/Gastroenterology & Hepatology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Gastroenterology and Hepatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the alimentary tract and associated organs. These privileges include, but are not limited to, diagnostic upper gastrointestinal endoscopy; therapeutic upper gastrointestinal endoscopy (treatment of bleeding lesions, sclerotherapy or banding of esophageal or proximal gastric

varices, removal of foreign bodies, removal of polypoid lesions, dilation of stenotic lesions with transendoscopic balloon dilators or dilating systems with guidewires, palliative treatment of stenosing neoplasms); colonoscopy with polypectomy; liver biopsy; and supervision of residents, fellows, and others in training.

- Central venous catheter insertion for access
- Upper Gastrointestinal and Enteric: Endoscopic injection of botulism toxin for achalasia
- Upper Gastrointestinal and Enteric: Percutaneous endoscopic gastrostomy (PEG) or jejunostomy (JEG) placement
- Upper Gastrointestinal and Enteric: Pneumatic dilation for achalasia
- Upper Gastrointestinal and Enteric: Esophageal or enteric stent placement
- Sonography: Endoscopic sonography with fine needle aspiration
- Adult Moderate Sedation-- Inside and outside CSC

Gabriel S. Schaab, MD, Active Staff
Department of Ophthalmology/Fellow

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation.

Shaival S. Shah, MD, Active Staff
Department of Ophthalmology/Fellow

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training

Alex Thomas, MD, Active Staff
Department of Medicine/Fellow

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Ravi K. Viswanathan, MD, Active Staff
Department of Medicine/Fellow

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adults patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.

Philip N. Zimmermann, MD, Active Staff
Department of Medicine/General Internal Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

Additional Privileges

Christopher S. Bermant, MD, Active Staff
Department of Psychiatry

- Electroconvulsive Therapy

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

- Bodemer, Apple A., MD, Dermatology, Active
- Caldera, Kristin E., DO, Ortho/Rehab: Rehab Medicine, Active
- Chen, Yanjun, MD, Ophthalmology, Active
- Cryns, Vincent, MD, Medicine: Endocrinology, Active
- Das, Kasturi, MD, Pathology, Active
- Haine, James E., MD, Medicine: General Internal, Active
- Marsh, Gabriel L., MD, Medicine: Emergency Medicine, Active
- Pepperell, Caitlin S., MD, Medicine: Infectious Disease, Active
- Stella, Amy L., MD, Medicine: Hematology/Oncology, Active

Professional Privileges

Kira Connolly-Nelson, NP
Department of Medicine/General Internal Medicine

- General Internal Medicine (Outpatient) NP Core Privileges: Privileges to promote health, prevent disease,

assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with acute and chronic medical diseases and disorders in the outpatient settings in collaboration with physician members of the medical staff. These privileges also include skin tag/wart removal, paring callouses and corns, cryotherapy and curette of non-melanoma skin lesions, and respiratory therapy.

- Prescriptive authority

Cassie J. Kolstad, PA

Department of Medicine/Nephrology

- Nephrology PA Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. These privileges also include ordering renal replacement therapy and respiratory therapy.
- Prescriptive Authority

Rachel M. Schilling, NP

Department of Medicine/Cardiovascular Medicine

- Cardiovascular Medicine NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with with cardiovascular disease in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering cardioversion and invasive cardiac test including but not limited to cardiac catheterization, pericardiocentesis and respiratory therapy.
- Prescriptive authority

Carey A. Walters, PA

Department of Orthopedics and Rehabilitation/Orthopedic Surgery

- General PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. These privileges also include ordering respiratory therapy.
- Orthopedic Surgery and Rehabilitation Medicine PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to, history and physical; administer digital block, regional anesthesia, isolated peripheral nerve anesthesia, field infiltrations of anesthetic solutions; apply, remove, and change dressings and bandages; counsel and instruct patients, families, and caregivers as appropriate; debridement, suture, and general care for superficial wounds and minor superficial surgical procedures; direct care as specified by medical staff approved protocols; implement therapeutic intervention for specific conditions when appropriate; initiate appropriate referrals; make daily rounds on hospitalized patients; make preoperative and postoperative teaching visits with patients; order and initial interpretation of diagnostic testing and therapeutic modalities, such as routine laboratory tests; medications; hemodynamic monitoring; treatments; IV fluids and

electrolytes; EMG; electrocardiogram; and radiologic examinations, including arthrogram, ultrasound, CT, MRI, and bone scan studies, etc.; order, prescribe, dispense, and administer orthosis, orthotics, braces, and other orthopedic devices as may be allowed by state legislation; perform compartment pressure measurements; perform venous punctures for blood sampling, cultures, and IV catheterization; record progress notes; dictate discharge summaries; and apply braces, casts, splints, and other orthopedic appliances.

- Assist in surgery to include, but not limited to, first assist, deep and simplified tissue closures, application of appliances, and any other action delegated by the orthopedic surgeon
- Perform diagnostic and therapeutic procedures, such as, but not limited to: aspirations and injections of joints, bursars, and cysts; closed reductions of fractures and dislocations; injections of tendons, trigger point; bone graft harvesting
- Perform minor outpatient procedures, such as, but not limited to: tendon repair; incision and drainage of superficial abscesses; wound closure and management; needle biopsy; k-wire removal; and hardware removal.

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee after review by their applicable sub-committees and are recommended to the Medical Board for approval/action:

- Jenna Brink, PA (Urology)

Reappointments

The following reappointment applications were reviewed at the May 2012 UWHC Credentials Committee meeting and inadvertently left off of those minutes. They were approved by University of Wisconsin Hospitals and Clinics Board of Directors pending approval by the UWHC Medical Board. That approval occurred on June 14, 2012

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments (time period of 7/1/2012-6/30/2012) unless otherwise noted and are recommend to the Medical Board for approval/action.

Anesthesiology

- James Albrecht, CRNA
- Natasha Baker, CRNA
- Christine Barney, CRNA
- Colleen Basney Norris, CRNA
- Chelsea Bennett, CRNA
- Debra Dahlke, CRNA
- Cynthia Davis, CRNA
- Ramon Davis, CRNA
- Curtis Detro, CRNA
- Kimberly Elskamp, CRNA
- Kathryn Fahrenkrug, CRNA
- Wilma Gillis, CRNA
- Jeffrey Gould, CRNA
- Douglas Haley, CRNA
- **Luke Hattenhauer, CRNA**
- Anne Hoeft, CRNA
- Carrie Jaszewski, CRNA
- Rebecca Konkol, CRNA
- Dawn Konop-Sage, CRNA

- Staci Kothbauer, CRNA
- Andrew Lehr, CRNA
- Jamie Martens, CRNA
- Judy McCorkell, CRNA
- Migdiel Moretta, CRNA
- Ilene Ottmer, CRNA
- Andrew Perkins, CRNA
- Lesley Sans, CRNA
- Mary Schneider, CRNA
- Sally Schroeder, CRNA
- Erin Sebens, CRNA
- Peter Strube, CRNA
- Paul Svingen, CRNA
- Patricia White, CRNA
- Jason Williams, CRNA
- Tamara Willman, CRNA

Human Oncology

- Lori Hayes, CNS

Medicine

- Eva Allen, NP – Hem/Onc
- Mary Bruskevitz, CNS – Endocrinology
- Blythe Gage, NP – Hem/Onc
- Annette Glasser, NP – Gastroenterology/Hepatology
- Kathleen Hoffland, NP - Geriatrics
- Sarah Holum, NP – General Internal Medicine
- Gail Kennedy, NP – Gastroenterology/Hepatology
- Bethany Kunzer, NP – Infectious
- Rebecca Johnson, NP- Hospitalist
- Brooke LaChance, NP – Allergy, Pulmonary & Crit Care
- Tricia O’Neal, NP – General Internal Medicine
- Kristen Panther, NP – General Internal Medicine
- Elaine Rosenblatt, NP – General Internal Medicine
- Katherine Roth, NP – Medical Oncology
- Stacey Sandbo, NP – General Internal Medicine
- Eleanore Stumm, NP – General Internal Medicine
- Kathleen Wackerle, NP – Cardiovascular Medicine

Neurological Surgery

- Theresa Lenaghan, NP

Nursing

- Lynnda Zibell Milsap, CNS – NPI

Nurse Midwives

- **Carol Carr, CNMW**
- Carolyn Christenson, CNMW
- Hannah Copp, CNMW

- Denise Fryzelka, CNMW
- Kathryn Hoogenakker, CNMW
- Melissa Kaminsky, CNMW
- Judith McNeel, CNMW
- Jodi Wagner, CNMW

OB/GYN

- Melinda Rose, NP – Women's Health: requesting Implanon insertion and removal
- Jeanmarie Sharp, NP – Women's Health
- Jessica Wirkus, NP - Gyn/Onc

Ophthalmology

- Molly Kelley, NP

Orthopedics/Rehabilitation

- Kristan McKinney, NP – Pediatric Orthopedic Surgery
- Kristen Monroe, NP – Orthopedic Surgery
- Lisa Semman, NP – Orthopedic Surgery

Pediatrics

- Barbara Byrne, NP – Hem/Onc
- Georgia Ditzenberger, NNP - Neonatology
- Kari Stampfli, NP – Hem/Onc
- Carolyn Terry, NNP – Neonatology
- Amy Zirk, NP – Endocrinology: requesting 3 month FPPE

Radiology

- LuAnn Greiner, NP
- Monica Hees, NP
- Molly Szotkowski, NP – Molly transferred to PVS surgery but needed to have Radiology review her practice for the past 2 years.

Surgery

- Gretchen Beverstein, NP – General Surgery
- Emily Christianson, NP – Transplant: requesting Blood Product Ordering
- Diana Eastridge, NP – Peripheral-Vascular
- Stephanie Faucher, NP - Transplant
- Kelli Hagan, NP – General Surgery
- Debra Raasch, NP – General Surgery
- Amy Stacey, NP – General Surgery

Urology

- Patricia Thaker, NP
