

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff – July 9, 2014

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: June 2, 2014

Medical Board: June 12, 2014

Nathan Rudin, M.D., Chair of Medical Board & President
of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

New Applications

Lisa L. Boyle, MD, Courtesy Staff

Department of Psychiatry/General

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

Michael R. Cathey, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.

Steve Y. Cho, MD, Active Staff

Department of Radiology/Nuclear Medicine

- Nuclear Medicine Core Privileges: Consultation, performance, and interpretation of all routine and non-routine nuclear medicine (CPT series 78000) procedures to make diagnostic evaluations, by both in vivo and in vitro techniques, of the anatomic and/or physiologic conditions of the body. These privileges include supervision of residents, fellows and others in training.
- Consultation and provision of therapy with unsealed radioactive sources or radiopharmaceuticals.

Deborah B. Ehrenthal, MD, Active Staff

Department of Obstetrics and Gynecology/General

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion,

and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.

- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.

Mohamed Y. Elsaid, MBBS, Active Staff

Department of Pediatrics/Urgent Care

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

Thomas W. Hahn, MD, Active Staff

Department of Family Medicine/General

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; arthrocentesis; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

Daniel M. O'Connell, MD, Active Staff

Department of Pediatrics/Gastroenterology

- Pediatric Gastroenterology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children and adolescents with documented or possible disorders of the stomach, intestine, and related structures such as the esophagus, liver, gall bladder and pancreas. These privileges include, but are not limited to, colonoscopy with or without biopsy; flexible sigmoidoscopy with or without biopsy; upper endoscopy including endoscopic esophageal dilatation with or without biopsy; liver biopsy; placement of gastrostomy tube; pH probe; rectal suction biopsy; sclerosis of esophageal varices; provision of immediate and longitudinal care for adults previously treated for pediatric gastrointestinal diseases; and supervision of residents, fellows and others in training.

Judith R. Sabah, MD, Active Staff

Department of Ophthalmology/Fellow

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*; and performing waived laboratory testing not requiring an instrument,

including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including removal of radioactive plaque, corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training.
- Use of surgical laser - Argon for glaucoma.
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation.

Asjad Sardar, MD, Active Staff

Department of Medicine/Nephrology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Nephrology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with illnesses, injuries, and disorders of the kidneys. These privileges include, but are not limited to, placement of temporary vascular access for hemodialysis; management of acute and chronic hemodialysis; placement of (temporary and permanent) catheter for peritoneal dialysis; management of peritoneal dialysis; continuous renal replacement therapy; initiation and supervision of continuous ultrafiltration/dialysis; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Percutaneous needle biopsy of the kidney

Erik P. Skulborstad, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Adult Moderate Sedation-- Within CSC only

Brett J. Teran, DO, Active Staff

Department of Orthopedics and Rehabilitation/Fellow

- Rehabilitation Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with acute or chronic neuromuscular disease or disabilities. These privileges include, but are not limited to, anesthetic nerve block; arthrocentesis, electrodiagnosis, injection of neuromuscular block; neurolytic nerve block; soft tissue injection; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Epidural steroid injections
- Facet joint injections/medial branch blocks
- Discograms
- Radiofrequency neurolysis
- Sympathetic ganglion blocks
- Spinal cord stimulation trial and implant

Christopher R. Turner, MD, Active Staff
Department of Anesthesiology/General

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. Supervision of Anesthesiologist Assistants is included in these privileges. These privileges include supervision of residents, fellows, and other persons in training.

Thomas A. Wilson, MD, Active Staff
Department of Pediatrics/Neonatology

- Neonatology-Perinatology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants who have severe or life-threatening medical conditions requiring specialized knowledge or skills. These privileges include, but are not limited to, counseling, including antenatal maternal consults. Prescribe medication, including narcotics and vasoactive drugs. Request and perform diagnostic tests. Transport supervision and management. Umbilical artery and vein catheterization, peripheral and cut-down arterial and venous line placement, central arterial and venous line placement, arterial and venous phlebotomy, bone marrow aspiration, exchange and partial exchange transfusion, intraosseous line placement, chest tube placement, abdominal paracentesis, thoracentesis, suprapubic bladder aspiration, , circumcision, oral or nasogastric tube placement, endotracheal intubation, laryngeal mask airway placement, pericardiocentesis, lumbar puncture, skin punch and muscle biopsy, cardioversion/defibrillation, I & D of abscess. Emergency cricothyrotomy. Wound and burn care including sutures, closed-fracture management. Management of modalities that provide PEEP (CPAP, high flow nasal cannula), non-invasive ventilation, mechanical ventilation, high frequency ventilation, T-piece. Inhaled medications (including surfactant administration, HeliOx and Nitric Oxide). Neonatal resuscitation. Hypothermia (including head and/or total body cooling), ECMO. Performance and interpretation of electrocardiogram (ECG), amplitude integrated electroencephalogram (aEEG), functional echocardiography, non-diagnostic bedside ultrasonography, and polysomnography utilizing 8 or less channels (including home monitor downloads); and supervision of NNPs, NICU and Newborn Hospitalists, residents, fellows, and others in training.

Catherine L. Wraight, MD, Active Staff
Department of Pediatrics/Neonatology

- Neonatology-Perinatology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants who have severe or life-threatening medical conditions requiring specialized knowledge or skills. These privileges include, but are not limited to, counseling, including antenatal maternal consults. Prescribe medication, including narcotics and vasoactive drugs. Request and perform diagnostic tests. Transport supervision and management. Umbilical artery and vein catheterization, peripheral and cut-down arterial and venous line placement, central arterial and venous line placement, arterial and venous phlebotomy, bone marrow aspiration, exchange and partial exchange transfusion, intraosseous line placement, chest tube placement, abdominal paracentesis, thoracentesis, suprapubic bladder aspiration, , circumcision, oral or nasogastric tube placement, endotracheal intubation, laryngeal mask airway placement, pericardiocentesis, lumbar puncture, skin punch and muscle biopsy, cardioversion/defibrillation, I & D of abscess. Emergency cricothyrotomy. Wound and burn care including sutures, closed-fracture management. Management of modalities that provide PEEP (CPAP, high flow nasal cannula), non-invasive ventilation, mechanical ventilation, high frequency ventilation, T-piece. Inhaled medications (including surfactant administration, HeliOx and Nitric Oxide). Neonatal resuscitation. Hypothermia (including head and/or total body cooling), ECMO. Performance and interpretation of electrocardiogram (ECG), amplitude integrated electroencephalogram (aEEG), functional echocardiography, non-diagnostic bedside ultrasonography, and polysomnography utilizing 8 or less channels (including home monitor downloads); and supervision of NNPs, NICU and Newborn Hospitalists, residents, fellows, and others in training.

Additional Privileges

Gregory D. Avey, MD, Active Staff
Department of Radiology/Community Radiology

- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation.
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality.

Rebecca M. Bauer, MD, Active Staff

Department of Anesthesiology

- Supervision of Dean Demarais, PA; Elizabeth Froelich, PA, Christopher Goodavish, PA; Eugene Kenny, PA; Liubou Korzun, PA; Stephanie Pano, PA; Matthew Terasa, PA; and Ryan Turner, PA with prescriptive authority

Mark E. Burkard, MD, Active Staff

Department of Medicine/Hematology/Oncology

- Supervision of Lori Seaborne, PA with prescriptive authority

Timothy P. Graham, MD, Active Staff

Department of Anesthesiology

- Supervision of Dean Demarais, PA; Elizabeth Froelich, PA, Christopher Goodavish, PA; Eugene Kenny, PA; Liubou Korzun, PA; Stephanie Pano, PA; Matthew Terasa, PA; and Ryan Turner, PA with prescriptive authority

Caprice C. Greenberg, MD, Active Staff

Department of Surgery/General Surgery

- Supervision of Lori Seaborne, PA with prescriptive authority

Kristie M. Guite, MD, Active Staff

Department of Radiology/Fellow

- Adult Moderate Sedation--Within the CSC only

Jonathan T. Ketzler, MD, Active Staff

Department of Anesthesiology

- Supervision of Dean Demarais, PA; Elizabeth Froelich, PA, Christopher Goodavish, PA; Eugene Kenny, PA; Liubou Korzun, PA; Stephanie Pano, PA; Matthew Terasa, PA; and Ryan Turner, PA with prescriptive authority

Mark A. Leibel, MD, Active Staff

Department of Anesthesiology/Fellow

- Supervision of Dean Demarais, PA; Elizabeth Froelich, PA, Christopher Goodavish, PA; Eugene Kenny, PA; Liubou Korzun, PA; Stephanie Pano, PA; Matthew Terasa, PA; and Ryan Turner, PA with prescriptive authority

Erich N. Marks, MD, Active Staff

Department of Anesthesiology

- Supervision of Dean Demarais, PA; Elizabeth Froelich, PA, Christopher Goodavish, PA; Eugene Kenny, PA; Liubou Korzun, PA; Stephanie Pano, PA; Matthew Terasa, PA; and Ryan Turner, PA with prescriptive authority

Heather B. Neuman, MD, Active Staff

Department of Surgery/General Surgery

- Supervision of Lori Seaborne, PA with prescriptive authority

Paul O. Phelps, MD, Active Staff

Department of Ophthalmology/Fellow

- Use of surgical laser-Argon for glaucoma and YAG capsulotomy, iridotomy, cyclophotocoagulation

Jonathan M. Skarie, MD, Active Staff

Department of Ophthalmology/Fellow

- Use of Surgical laser - argon and diode for glaucoma and YAG capsulotomy, iridotomy, cyclophotocoagulation

Amye Tevaarwerk, MD, Active Staff

Department of Medicine/Hematology/Oncology

- Supervision of Lori Seaborne, PA with prescriptive authority

Linda D. Varghese, MD, Active Staff

Department of Anesthesiology

- Supervision of Dean Demarais, PA; Elizabeth Froelich, PA, Christopher Goodavish, PA; Eugene Kenny, PA; Liubou Korzun, PA; Stephanie Pano, PA; Matthew Terasa, PA; and Ryan Turner, PA with prescriptive authority

Evan J. Warner, MD, Active Staff

Department of Ophthalmology/Fellow

- Use of Surgical laser - Argon for glaucoma, Argon and Diode for panretinal laser; Diode for glaucoma, YAG capsulotomy, iridotomy, cyclophotocoagulation

Lee G. Wilke, MD, Active Staff

Department of Surgery/General Surgery

- Supervision of Lori Seaborne, PA with prescriptive authority

Kari B. Wisinski, MD, Active Staff

Department of Medicine/Hematology/Oncology

- Supervision of Lori Seaborne, PA with prescriptive authority

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Name	Department /Section	Staff Status
Kumfer, Kraig T., MD	Medicine/Hospitalist	Active Staff
Pokora, Thomas J., MD	Pediatrics/Neonatology	Active Staff
Wieland, Aaron M., MD	Surgery/Otolaryngology	Active Staff
Williams, Kathryn L., MD	Ortho Rehab/Orthopedic Surgery	Active Staff
Williams, Seth K., MD	Ortho Rehab/Orthopedic Surgery	Active Staff

Professional Privileges-- New Applications

Sarah G. Boddan, PA, UW Physician Assistant

Department of Orthopedics and Rehabilitation/Orthopedic Surgery

- General PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. These privileges also include ordering respiratory therapy.
- Orthopedic Surgery and Rehabilitation Medicine PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to, history and physical; administer digital block, regional anesthesia, isolated peripheral nerve anesthesia, field infiltrations of anesthetic solutions; apply, remove, and change dressings and bandages; counsel and instruct patients, families, and caregivers as appropriate; debridement, suture, and general care for superficial wounds and minor superficial surgical procedures; direct care as specified by medical staff approved protocols; implement therapeutic intervention for specific conditions when appropriate; initiate appropriate referrals; make daily rounds on hospitalized patients; make preoperative and postoperative teaching visits with patients; order and initial

interpretation of diagnostic testing and therapeutic modalities, such as routine laboratory tests; medications; hemodynamic monitoring; treatments; IV fluids and electrolytes; EMG; electrocardiogram; and radiologic examinations, including arthrogram, ultrasound, CT, MRI, and bone scan studies, etc.; order, prescribe, dispense, and administer orthosis, orthotics, braces, and other orthopedic devices as may be allowed by state legislation; perform compartment pressure measurements; perform venous punctures for blood sampling, cultures, and IV catheterization; record progress notes; dictate discharge summaries; and apply braces, casts, splints, and other orthopedic appliances. Assist in surgery to include, but not limited to, first assist, deep and simplified tissue closures, application of appliances, and any other action delegated by the orthopedic surgeon.

- Prescriptive Authority

Kristina K. Krueger, NP, UW Advance Practice Nurse
Department of Obstetrics and Gynecology/Gynecology

- OB/GYN NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult women and those with acute and chronic gynecologic issues in the outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority

Theresa A. Michel, NP, UW Advance Practice Nurse
Department of Obstetrics and Gynecology/Women's Health

- OB/GYN NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult women and those with acute and chronic gynecologic issues in the outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority
- Endometrial biopsy
- Implanon/Nexplanon insertion and removal
- IUD insertion
- IUD removal
- Skin tag or wart removal
- Vulvar biopsy

Lori A. Seaborne, PA, UW Physician Assistant
Department of Surgery/General Surgery

- General Surgery PA Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Use of silver nitrate for chemical cautery; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. Assist in surgery to include, but not limited to, first assist on major or minor surgeries. These privileges also include ordering respiratory therapy.
- Prescriptive Authority

Professional Privileges—Additional Privileges

Sarah M. Cencius, NP, UW Advance Practice Nurse
Department of Pediatrics/Critical Care

- PICC insertion

**Dean M. Demarais, PA-C, UW Physician Assistant
Department of Surgery/Cardiothoracic**

- Add Drs. Rebecca Bauer, Timothy Graham, Jonathan Ketzler, Mark Leibel, Erich Marks, and Linda Varghese as supervising physicians

**Elizabeth A. Froelich, PA-C, UW Physician Assistant
Department of Surgery/Cardiothoracic**

- Add Drs. Rebecca Bauer, Timothy Graham, Jonathan Ketzler, Mark Leibel, Erich Marks, and Linda Varghese as supervising physicians

**Eugene C. Kenny, PA-C, UW Physician Assistant
Department of Surgery/Cardiothoracic**

- Add Drs. Rebecca Bauer, Timothy Graham, Jonathan Ketzler, Mark Leibel, Erich Marks, and Linda Varghese as supervising physicians

**Liubou Korzun, PA-C, UW Physician Assistant
Department of Surgery/Cardiothoracic**

- Add Drs. Rebecca Bauer, Timothy Graham, Jonathan Ketzler, Mark Leibel, Erich Marks, and Linda Varghese as supervising physicians

**Stephanie L. Pano, PA, UW Physician Assistant
Department of Surgery/Cardiothoracic**

- Add Drs. Rebecca Bauer, Timothy Graham, Jonathan Ketzler, Mark Leibel, Erich Marks, and Linda Varghese as supervising physicians

**Matthew J. Terasa, PA-C, UW Physician Assistant
Department of Surgery/Cardiothoracic**

- Add Drs. Rebecca Bauer, Timothy Graham, Jonathan Ketzler, Mark Leibel, Erich Marks, and Linda Varghese as supervising physicians

Respectfully submitted,

Michele D. Klaus, CPMSM
