

**University of Wisconsin Hospitals and Clinics Board of Directors**  
**Review of Medical Staff – June 6, 2012**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: May 7, 2012

Medical Board: May 10, 2012

Nathaniel J. Rudin, M.D., Chair of Medical Board & Interim  
President of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

**New Applications**

**Ahmed I. Al-Absi, MD, Active Staff**

**Department of Medicine/Nephrology**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Nephrology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with illnesses, injuries, and disorders of the kidneys. These privileges include, but are not limited to, placement of temporary vascular access for hemodialysis; management of acute and chronic hemodialysis; placement of (temporary and permanent) catheter for peritoneal dialysis; management of peritoneal dialysis; continuous renal replacement therapy; initiation and supervision of continuous ultrafiltration/dialysis; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Percutaneous infusion catheter (PICC Line) placement
- Percutaneous needle biopsy of the kidney
- Adult Moderate Sedation-- Inside and outside CSC

**Brendan M. Banyon, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plan film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.

**Kristin M. Berg, MD, Active Staff**

**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

**Emily J. Burdick, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.

**Carmen M. Campbell, MD, Active Staff**

**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

**Arnold Cheung, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Adult Moderate Sedation-- Within CSC only

**Shelly M. Cook, MD, Active Staff**

**Department of Pathology and Lab. Medicine**

\*\*Reintroduction plan in place\*\*

- Clinical Pathology Core Privileges: Privileges in clinical pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of clinical laboratory tests on body fluids and secretions. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.
- Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.
- Fine needle aspiration

**James A. Eadie, MD, Active Staff**

**Department of Ophthalmology/Fellow**

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways\*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training

**Erin M. Fallucca, MD, Active Staff**

**Department of Psychiatry/Child**

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.
- Child Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat children and adolescents who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Sarah E. GaleWyrick, MD, Active Staff**

**Department of Family Medicine**

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Circumcision

**Dheeraj R. Gopireddy, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.

- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Adult Moderate Sedation-- Inside and outside CSC

**Shawn M. Hancock, DO, Active Staff**

**Department of Medicine/Gastroenterology & Hepatology**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Gastroenterology and Hepatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the alimentary tract and associated organs. These privileges include, but are not limited to, diagnostic upper gastrointestinal endoscopy; therapeutic upper gastrointestinal endoscopy (treatment of bleeding lesions, sclerotherapy or banding of esophageal or proximal gastric varices, removal of foreign bodies, removal of polypoid lesions, dilation of stenotic lesions with transendoscopic balloon dilators or dilating systems with guidewires, palliative treatment of stenosing neoplasms); colonoscopy with polypectomy; liver biopsy; and supervision of residents, fellows, and others in training.
- Upper Gastrointestinal and Enteric: Endoscopic injection of botulism toxin for achalasia
- Upper Gastrointestinal and Enteric: Percutaneous endoscopic gastrostomy (PEG) or jejunostomy (JEG) placement
- Upper Gastrointestinal and Enteric: Pneumatic dilation for achalasia
- Upper Gastrointestinal and Enteric: Esophageal or enteric stent placement
- Adult Moderate Sedation-- Inside and outside CSC

**Jamie M. Hess, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Within CSC only

**David E. Hoffelder, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training
- Deep Sedation--Adults (14 years and older)
- Adult Moderate Sedation-- Inside and outside CSC
- Pediatric Moderate Sedation

**Sujani S. Kakumanu, MD, Active Staff**

**Department of Medicine/Allergy, Pulmonary & Critical Care**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy,

intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

- Allergy & Immunology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders affecting the immune system. These privileges include, but are not limited to, allergy skin testing and interpretation, allergic desensitization, and supervision of residents, fellows, and others in training.

**Anne M. Kolan, MD, Active Staff**  
**Department of Family Medicine**

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Vasectomy
- Circumcision

**Kristina A. Matkowskyj, MD, Active Staff**  
**Department of Pathology and Lab. Medicine**

- Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

**Lisa K. Muchard, MD, Active Staff**  
**Department of Dermatology**

- Dermatology Core Privileges: Privileges to admit, evaluate, diagnose, consult, and treat patients presenting with illnesses and or injuries of the integumentary system. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, excision or other means of removal (including by liposuction) of benign and malignant lesions; curettage; electrosurgery; liquid nitrogen cryosurgery of the skin and other appropriate lesions; nail surgery; actinotherapy treatments (phototherapy - e.g. PUVA); collagen implantation; injectable fillers; Botox injections; dermabrasion; chemical peels; laser treatments; sclerotherapy; dermatopathology; flaps and grafts; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and others in training.

**Mariah A. Quinn, MD, Active Staff**  
**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion,

diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adults patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.

**Brandon G. Rocque, MD, Active Staff**  
**Department of Neurological Surgery/Fellow**

- Neurological Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the neurological system, including the supporting structures and vascular supply. These privileges include, but are not limited to, craniotomy and craniectomy; reconstructive cranioplasty; laminectomy; spinal fusion; chemonucleolysis; percutaneous discectomy; transsphenoidal hypophysectomy; CSF shunting procedures; radiofrequency chemical rhizotomy/chordotomy; intracarotid injection; peripheral nerve surgery; intra-extracranial anastomosis; carotid endarterectomy; myelomeningocele repair; neurostimulation and recording; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

**Fawad A. Shaheen, MD, Active Staff**  
**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.

**Marissa L. Simard, MD, Active Staff**  
**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Adult Moderate Sedation-- Inside and outside CSC

**Ryan J. Spencer, MD, Active Staff**  
**Department of Obstetrics and Gynecology/Fellow**

- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult,

and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.

- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.

### **Jason R. Stangl, MD, Courtesy Staff**

#### **Department of Medicine/Gastroenterology & Hepatology**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Gastroenterology and Hepatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the alimentary tract and associated organs. These privileges include, but are not limited to, diagnostic upper gastrointestinal endoscopy; therapeutic upper gastrointestinal endoscopy (treatment of bleeding lesions, sclerotherapy or banding of esophageal or proximal gastric varices, removal of foreign bodies, removal of polypoid lesions, dilation of stenotic lesions with transendoscopic balloon dilators or dilating systems with guidewires, palliative treatment of stenosing neoplasms); colonoscopy with polypectomy; liver biopsy; and supervision of residents, fellows, and others in training.
- Endoscopic Retrograde Cholangiopancreatography (ERCP): Endoscopic sphincterotomy of the Sphincter of Oddi, or placement of stents in biliary or pancreatic ducts
- Upper Gastrointestinal and Enteric: Endoscopic injection of botulism toxin for achalasia
- Upper Gastrointestinal and Enteric: Percutaneous endoscopic gastrostomy (PEG) or jejunostomy (JEG) placement
- Upper Gastrointestinal and Enteric: Pneumatic dilation for achalasia
- Upper Gastrointestinal and Enteric: Esophageal or enteric stent placement
- Adult Moderate Sedation-- Inside and outside CSC

### **Natalie C. Stork, MD, Active Staff**

#### **Department of Orthopedics and Rehabilitation/Fellow (Pediatric Orthopedics)**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

### **Azlan Tariq, DO, Active Staff**

#### **Department of Orthopedics and Rehabilitation/Rehab Medicine**

- Rehabilitation Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with acute or chronic neuromuscular disease or disabilities. These privileges include, but are not limited to, anesthetic nerve block; arthrocentesis, electrodiagnosis, injection of neuromuscular block; neurolytic nerve block; soft tissue injection; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Epidural steroid injections
- Facet joint injections/median branch blocks
- Sympathetic ganglion blocks

**James S. Van Gemert, DDS, Active Staff**

**Department of Surgery/Plastic**

- Dental Privileges: operative restorations
- Dental Privileges: prosthetic replacement of teeth
- Dental Privileges: minor pre-prosthetic surgery
- Dental Privileges: treatment of minor infections
- Dental Privileges: removal of minor benign lesions
- Dental Privileges: biopsy
- Dental Privileges: uncomplicated extractions
- Dental Privileges: extraction of simple tissue impacted teeth
- Dental Privileges: conventional endodontics
- Dental Privileges: treatment of traumatic dental injuries
- Dental Privileges: treatment of minor intraoral wounds
- Dental Privileges: dental prophylaxis and root planing
- Dental Privileges: extraction of complex impacted teeth
- Dental Privileges: surgical endodontics on anterior teeth
- Dental Privileges: surgical endodontics on posterior teeth
- Dental Privileges: gingivectomy/gingivoplasty
- Dental Privileges: implants

**Additional Privileges**

**Gregory D. Kennedy, MD, Active Staff**

**Department of Surgery/General Surgery**

- Robotic Surgery

**Amol D. Kulkarni, MD, Active Staff**

**Department of Ophthalmology/Fellow**

- Special Competence Medical Retina

**Nalini Sehgal, MD, Active Staff**

**Department of Orthopedics and Rehabilitation/Rehab Medicine**

- Supervision of physician assistant with prescriptive authority (Shawna Wheeler, PA)

**Focused Professional Practice Evaluation Review**

The following focused review medical staff applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

- Johannsen, Eric C., MD, Medicine/Infectious Disease, Active Staff
- Mason, Peter J., MD, Medicine/Cardiovascular Medicine, Active Staff
- Rose, Nick, MD, Pathology, Active Staff
- Staskal, Rene E., PhD, Psychiatry/General, Clinical Psychology

- Wilson, Siobhan D., MD, Medicine/General Internal Medicine, Active Staff

#### **Status Changes**

- Robert J. Kriz, MD, Change to Affiliate Staff, Medicine/Allergy, Pulm & Crit Care
- Thomas C. Puchner, MD, Change to Affiliate Staff Medicine/Allergy, Pulm & Crit Care

#### **Professional Privileges**

##### **New applicant**

**Megan Fitzgerald, NP**

**Department of Obstetrics and Gynecology**

- Prescriptive authority

**Stephanie Lovell, NP**

**Department of Bleeding Disorders**

- Prescriptive authority
- Blood product ordering

**Sarah Wilczewski, CRNA**

**Department of Anesthesiology**

- Without prescriptive authority

##### **Additional privilege**

**Shawna Wheeler, PA**

**Department of Orthopedics and Rehabilitation**

- Addition of Dr. Nalini Sehgal as a supervising physician

#### **Focused Professional Practice Evaluation Review**

The following focused review applications have been endorsed by the UWHC Credentials Committee after review by their applicable sub-committees and are recommended to the Medical Board for approval/action:

- Kelli Hagan, NP (General Surgery)
- Steven Heuer, PA (General Surgery)
- Lindsay Morris, PA (Transplant Surgery)
- Sarah Smith, NP (General Surgery)
- Matthew Terasa, PA (Cardiothoracic Surgery)

#### **Reappointments**

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments (time period of 7/1/2012-6/30/2014) unless otherwise noted and are recommended to the Medical Board for approval/action:

Dermatology

- Gail Jahnke, NP
- Julie Lederman, NP
- Lori Oettinger, NP
- Linda Pfister, NP

GCRC

- Kathryn Cacic, NP

Medicine

- Kjersten Busse, CNS – Cardiovascular Medicine
- Nancy Brandt, NP - Hem/Onc
- Theresa Dachel, NP – General Internal Medicine
- Amanda Deniger, NP – Geriatric: requesting 6 month reappointment with FPPE
- Leann DeRungs, NP – Geriatrics
- Ruth Diaz de Leon, NP - Endocrinology
- Linda Eckstein, NP – Hem/Onc
- Lauren Gilberterson, NP – General Internal Medicine
- Maureen Gordon (Wild), NP - Endocrinology
- Bruce Grau, NP - Geriatrics
- Joan Hermsen, NP – Cardiovascular Medicine
- Sue Hilgemann, NP – General Internal Medicine
- Rhonda Hoyer, NP - General Internal Medicine
- Ellen Langrehr, NP – Cardiovascular Medicine
- Janis Lindsey-Osio, NP - Geriatrics
- Mary Love-Patton, NP – Pulmonary & Critical Care
- Susan Marten, NP – General Internal Medicine
- Amanda Moe, NP – General Internal Medicine
- Tara Morgan, NP – Pulmonary & Critical Care
- Rosemary Neider, NP – Medical Oncology
- Amy Proebstle, NP – Hospital Medicine
- Rebecca Rakocy, NP – Cardiovascular Medicine
- Maureen Wakeen, NP - Nephrology
- Heidi Walaski, NP – Geriatrics
- Bethany Westerfeldt, NP – Cardiovascular Medicine
- Beth Whitten, NP – Cardiovascular Medicine
- Melanie Witte, NP - Endocrinology
- Susan Wroblewski, NP - Hospital Medicine

Neurology

- Nancy Ninman, NP

Neurological Surgery

- Denise Brost, NP
- Randi Davis, NP
- Letitia Geanon, NP
- Susan Hubankš, NP
- Emily Meyer, NP
- Andrea Strayer, NP
- Jennifer Winchell, NP

Ophthalmology

- Jane Seliger, NP

Ortho/Rehab

- Valerie Boll, NP – Orthopedic Surgery
- Rochelle Carlson, NP – Rehab Medicine
- Amy Hof, NP – Orthopedic Surgery
- Janet Kunz, NP – Rehab Medicine
- Shea Lues, NP – Orthopedic Surgery
- Kyle McLean, NP – Rehab Medicine

OB/GYN

- Kristine Bohrmueller, NP

Pediatrics

- Devon Christenson, NP – Critical Care
- Joni Dean, NP – Rheumatology
- Ann Dodge, NP – Cardiology
- Jayme Frank, NP - Cardiology
- Susan Heighway, NP - Genetics
- Katherine Hirsch, NP - Neonatology
- Lisa Keller, NP – Hem/Onc
- Jill Markus, NP – General Peds
- Erin Marriott, NP – Cardiology
- Lynne Sears, NP – Critical Care: requesting pediatric moderate sedation
- Wendy Sievert, NP - Neonatology
- Tricia Smith, NP – Critical Care
- Kim Squires, NP – Nephrology
- Kathryn Swenson, NP – Pulmonary
- Kimberly Tritz, NP - Neonatology
- Beth Van Den Langenberg, NP – Endocrinology
- Marcy Weidkamp, NP - Gastroenterology

Surgery

- Nicole Amass, NP – Peripheral-Vascular
- Kate Amond, NP – Cardiothoracic Surgery
- John Blabaum, NP – Cardiothoracic Surgery
- Lauren Dallman, NP – Peripheral-Vascular
- Erika Fehrenbach-Prell, NP – Cardiothoracic Surgery
- Mary Beth Henry, NP – General Surgery
- Kelly Laishes, NP – General Surgery
- Lindsay Morris, NP – Cardiothoracic Surgery
- Kari Nelson, NP – Cardiothoracic Surgery: requesting chest tube removal
