

**University of Wisconsin Hospitals and Clinics Board of Directors**  
**Review of Medical Staff –June 5, 2013**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: April 12, 2013

Medical Board: May 9, 2013

\_\_\_\_\_  
Lee Faucher, M.D., Chair of Medical Board & Vice  
President of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

**New Applications**

**Justin C. Bohrer, MD, Active Staff**

**Department of Obstetrics and Gynecology/Fellow**

- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrinedysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others intraining.
- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

**Jyoti E. Brar, MBBS, Active Staff**

**Department of Surgery/Fellow**

- Transplant Medicine Fellowship - all duties are part of a fellowship. No independent privileges are granted for this provider.

**Eric P. Brinton, MD, Active Staff**

**Department of Ophthalmology/Fellow**

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways\*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. (\* This does not include the procedures requiring fellowship training listed under special competence areas.)
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including removal of radioactive plaque, corneal micropuncture and abridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training.)
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation

**Ashley R. Brown, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Deep Sedation--Adults (14 years and older)
- Point of Care Emergency Ultrasound
- Adult Moderate Sedation-- Inside and outside CSC
- Pediatric Moderate Sedation

**Joseph R. DeMartini, MD, Active Staff**

**Department of Radiology/Musculoskeletal Imaging**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms.
- Imaged guided needle, biopsy, ablation, drainage or aspiration
- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality.
- Adult Moderate Sedation-- Within CSC only

**Cristy N. Gustas, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration

**Adrienne R. Hampton, MD, Active Staff**

**Department of Family Medicine**

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance

of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and other persons in training.

- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

**Leslie A. Hartman, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.

**Lauren M. Ladd, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration

**Andrew W. Lee, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Deep Sedation--Adults
- Point of Care Emergency Ultrasound
- Adult Moderate Sedation-- Inside and outside CSC
- Pediatric Moderate Sedation

**Scott B. Loomis, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided catheter placement.
- Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms.
- Imaged guided needle, biopsy, ablation, drainage or aspiration

- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation.
- Adult Moderate Sedation-- Inside and outside CSC

**Jane H. Maksimovic, DO, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Adult Moderate Sedation-- Inside and outside CSC

**Saima Muzahir, MD, Active Staff**

**Department of Radiology/Fellow**

- Nuclear Medicine Core Privileges: Consultation, performance, and interpretation of all routine and non-routine nuclear medicine (CPT series 78000) procedures to make diagnostic evaluations, by both in vivo and in vitro techniques, of the anatomic and/or physiologic conditions of the body. These privileges include supervision of residents, fellows and others in training.
- Consultation and provision of therapy with unsealed radioactive sources or radiopharmaceuticals

**Sara R. Nace, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration
- Adult Moderate Sedation-- Inside and outside CSC

**William M. Peterson, II, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration

**A. K. Rastogi, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration

**Travis C. Rumery, DO, Active Staff**

**Department of Ophthalmology/Fellow**

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its

related structures and visual pathways\*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including removal of radioactive plaque, corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training
- Use of surgical laser - Argon for glaucoma
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation

**Rhys P. Strasia, DDS, Active Staff**

**Department of Surgery/Plastic**

- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: dentoalveolar and pre-prosthetic surgery
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: treatment of maxillofacial lesions, cysts and benign tumors
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: treatment of maxillofacial infections
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: maxillofacial wounds and lacerations
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: emergency tracheostomy
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: secondary palatal cleft repair
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: surgery of salivary glands and ducts (except parotid)
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: facial fractures
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: orthognathic surgery
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: implants
- ORAL & MAXILLOFACIAL SURGERY CORE PRIVILEGES: history and physical privileges on ASA Class I and II adults

**Additional Privileges**

**Ahmed N. Al-Niimi, MD, Active Staff**

**Department of Obstetrics and Gynecology/Gynecological Oncology**

- Special Competence--Gynecological Oncology Core

**Bjoern Buehring, MD, Active Staff**

**Department of Medicine/Geriatrics**

- Rheumatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with rheumatologic disorders. These privileges include, but are not limited to, diagnostic or therapeutic aspiration or injection of joints, bursae, and tenosynovial structures; percutaneous needle biopsy of the synovium, muscle, and adipose tissue; and supervision of residents, fellows, and others in training.

**Prasad S. Dalvie, MD, Active Staff**

**Department of Radiology/Interventional Radiology**

- Supervision of Katie Dudley, PA with prescriptive practice

**Sara C. Damewood, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Point of Care Emergency Ultrasound

**James A. Eadie, MD, Active Staff**

**Department of Ophthalmology/Fellow (effective 7/1/2013)**

- Special Competence Medical Retina: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients of all ages, presenting with complicated illnesses, injuries, and disorders of the retina. These privileges include, but are not limited to management of macular disease; written interpretation of ICG angiography, OCT, ERG, ultrasound of the globe.

**John M. Fallucca, MD, Active Staff**

**Department of Radiology/Interventional Radiology**

- Supervision of Katie Dudley, PA with prescriptive practice

**Azita Hamedani, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Supervision of Kevin Wyne, PA with prescriptive authority

**Trina J. Hollatz, MD, Active Staff**

**Department of Medicine/Allergy, Pulmonary & Critical Care**

- Supervision of Tiffany Mack, PA with prescriptive authority

**Michael T. Lohmeier, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Point of Care Emergency Ultrasound

**John C. McDermott, MD, Active Staff**

**Department of Radiology/Interventional Radiology**

- Supervision of Katie Dudley, PA with prescriptive practice

**Orhan S. Ozkan, MD, Active Staff**

**Department of Radiology/Interventional Radiology**

- Supervision of Katie Dudley, PA with prescriptive practice

**Jason W. Pinchot, MD, Active Staff**

**Department of Radiology/Interventional Radiology**

- Supervision of Katie Dudley, PA with prescriptive practice

**Conrad D. Pun, MD, Active Staff**

**Department of Radiology/Interventional Radiology**

- Supervision of Katie Dudley, PA with prescriptive practice

**Brian R. Sharp, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Point of Care Emergency Ultrasound

**Janis P. Tupesis, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Point of Care Emergency Ultrasound

**Mary Westergaard, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Point of Care Emergency Ultrasound

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

- Collins, Michael M., MD, Anesthesiology, Active
- Deluhery, Matthew R., MD, Medicine/Emergency Medicine, Active
- Hollatz, Trina J., MD, Medicine/Allergy, Pulmonary & Critical Care, Active
- Jacobson, Kurt M., MD, Medicine/Cardiovascular Medicine, Active
- Kiefer, David S., MD, Family Medicine, Active
- Kolehmainen, Christine J., MD, Medicine/Hospitalist, Active
- Matkowskyj, Kristina A., MD, Pathology and Lab. Medicine, Active
- Mons, Bradley R., DO, Surgery/Fellow, Active
- Shapiro, Lauren Q., MD, Human Oncology, Active
- Thomas, Alex, MD, Pediatrics/Allergy/Immunology, Active

### **Professional Privileges-- New Applications**

#### **Katie E. Dudley, PA-C, UW Physician Assistant Department of Radiology/Interventional Radiology**

- Interventional Radiology PA Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. These privileges also include ordering respiratory therapy.
- Prescriptive Authority

### **Professional Privileges—Additional Privileges**

#### **Matthew J. Terasa, PA-C, UW Physician Assistant Department of Surgery/Cardiothoracic**

- Insert chest tubes including pleurodesis; Insert arterial catheters; Insert central venous catheters; Thoracentesis; and Harvest (endoscopic and open) arterial and/or venous conduit for bypass grafting

### **Reappointments & Prescriptive Practice Review**

*The following PA reappointment application and prescriptive practice review was reviewed and recommended for approval for another 2-year term, expiring June 30, 2015.*

- Nicole Fletchall – Orthopedics & Rehabilitation/Orthopedic Surgery
