

**University of Wisconsin Hospitals and Clinics Board of Directors**  
**Review of Medical Staff –June 3, 2015**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: May 4, 2015

Medical Board: May 14, 2015

\_\_\_\_\_  
Lee Faucher, M.D., Chair of Medical Board & President  
of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

**Edward Barton, MD, Active Staff**

**Department of Neurology/General**

- Neurology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and provide medical treatment to patients presenting with illnesses or injuries of the neurological system. These privileges include, but are not limited to, lumbar puncture; EEG interpretation and operative monitoring; EMG and nerve conduction studies; muscle and nerve biopsy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. Privileges done via telemedicine including EEG interpretation & intraoperative monitoring

**Mariah H. Bashir, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including radiographs, ultrasound, CT, MRI, diagnostic (non-therapeutic) nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, Doppler vascular imaging, transcranial Doppler, arthrograms and joint aspirations, venography of major vessels, lumbar puncture, mammography and supervision of residents, fellows and other trainees.

**Emily G. Beres, MD, Active Staff**

**Department of Obstetrics and Gynecology/General**

- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound,

evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

- **Surgical Gynecology Core Privileges:** Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.
- **Obstetrics Core Privileges:** Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- **Emergency Obstetrics Core Privileges:** Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.
- Use of surgical robot for procedures otherwise privileged to perform

**Angela L. Gibson, MD, Active Staff**

**Department of Surgery/General Surgery**

- **General Surgery Core Privileges:** Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- **Critical Care Core Privileges:** Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patients in need of critical care within an ICU type setting. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.
- **Adult Moderate Sedation--** Within CSC only

**Irina Kogan, MD, Active Staff**

**Department of Neurology/General**

- Neurology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and provide medical treatment to patients presenting with illnesses or injuries of the neurological system. These privileges include, but are not limited to, lumbar puncture; EEG interpretation and operative monitoring; EMG and nerve conduction studies; muscle and nerve biopsy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. Privileges performed via telemedicine.

**Pierre D. Kory, MD, Active Staff**

**Department of Medicine/Allergy, Pulmonary & Critical Care**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Critical Care Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patients in need of critical care. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.
- Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and supervision of residents, fellows, and others in training. Central venous catheter insertion for access
- Fiberoptic bronchoscopy
- Direct laryngoscopy
- Percutaneous needle biopsy of the pleural
- Biopsy of thoracic wall & lung
- Lymph node aspirations
- Percutaneous Tracheostomy
- Pericardiocentesis
- TEE
- Ultrasound (Point of Care) of: lung, pleural, cardiac, and venous
- Adult Moderate Sedation-- Within CSC only

**Paul F. Laeseke, MD, Active Staff**

**Department of Radiology/Interventional Radiology**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including radiographs, ultrasound, CT, MRI, diagnostic (non-therapeutic) nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, Doppler vascular imaging, transcranial Doppler, arthrograms and joint aspirations, venography of major vessels, lumbar puncture, mammography and supervision of residents, fellows and other trainees.
- Abdominal Imaging: Including but not limited to Image guided analysis for surgery, biopsy or treatment planning using any imaging modality; Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation; guided needle, biopsy, ablation, drainage or aspiration; Image guided catheter placement; Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms.
- Vascular-Interventional: Including but not limited to Imaged guided catheter placement, TIPs procedure, Transjugular liver biopsy, Image guided caval filter, Therapeutic percutaneous peripheral arterial or venous angioplasty or stenting, Tunneled catheter and port placement, Image guided percutaneous biliary dilatation, drainage, ballooning, stenting or biopsy, Image guided urological dilatation, drainage, ballooning, stenting or biopsy, Image guided embolotherapy, Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms, Imaged guided needle, biopsy, ablation, drainage or aspiration, Image guided analysis for surgery, biopsy or treatment planning using any imaging modality.
- Adult Moderate Sedation-- Inside and outside CSC

**Amy N. Malik, MD, Active Staff**

**Department of Medicine/Allergy, Pulmonary & Critical Care**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Critical Care Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patients in need of critical care. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.
- Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and

supervision of residents, fellows, and others in training.

- Central venous catheter insertion for access
- Fiberoptic bronchoscopy
- Direct laryngoscopy
- Percutaneous needle biopsy of the pleural
- Adult Moderate Sedation-- Within CSC only

**Christopher R. Nicholas, PhD, Clinical Psychology**

**Department of Medicine/Geriatrics**

- Psychological testing: adults
- Individual psychotherapy: adult

**Murtuza M. Rampurwala, MD, Active Staff**

**Department of Medicine/Hematology/Oncology**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Hematology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the blood and blood-forming tissues. These privileges include, but are not limited to, bone marrow aspiration and biopsy; administration of chemotherapy; the management and care of indwelling venous access catheters; plasmapheresis; therapeutic phlebotomy; lymph node aspiration; bone marrow harvest; and supervision of residents, fellows, and others in training. Medical Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with malignancies. These privileges include, but are not limited to, administration of chemotherapeutic agents and biological response modifiers through all therapeutic routes; management and maintenance of indwelling venous access catheters; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Within CSC only

**Salahuddin, MD, Active Staff**

**Department of Medicine/Nephrology**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision

of residents, fellows, and others in training. \*\*Dr. deleted from core: placement of (temp & perm) catheter for peritoneal dialysis

- Nephrology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with illnesses, injuries, and disorders of the kidneys. These privileges include, but are not limited to, placement of temporary vascular access for hemodialysis; management of acute and chronic hemodialysis; placement of (temporary and permanent) catheter for peritoneal dialysis; management of peritoneal dialysis; continuous renal replacement therapy; initiation and supervision of continuous ultrafiltration/dialysis; and supervision of residents, fellows, and others in training.

---

**William B. Seiden, MD, Active Staff**

**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.

**Manish N. Shah, MD, Active Staff**

**Department of Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; intubation and emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Deep Sedation--Adults (14 years and older)
- Point of Care Emergency Ultrasound
- Adult Moderate Sedation-- Inside and outside CSC

**Tripti Singh, MD, Active Staff**

**Department of Medicine/Nephrology**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not

limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.

- Nephrology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with illnesses, injuries, and disorders of the kidneys. These privileges include, but are not limited to, placement of temporary vascular access for hemodialysis; management of acute and chronic hemodialysis; placement of (temporary and permanent) catheter for peritoneal dialysis; management of peritoneal dialysis; continuous renal replacement therapy; initiation and supervision of continuous ultrafiltration/dialysis; and supervision of residents, fellows, and others in training.
- Percutaneous needle biopsy of the kidney

**Lon R. Steinberg, MD, Active Staff**

**Department of Neurology/General**

- Neurology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and provide medical treatment to patients presenting with illnesses or injuries of the neurological system. These privileges include, but are not limited to, lumbar puncture; EEG interpretation and operative monitoring; EMG and nerve conduction studies; muscle and nerve biopsy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. Privileges done via telemedicine including EEG interpretation & intraoperative monitoring

**Mark L. Stram, MD, Active Staff**

**Department of Anesthesiology**

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. Supervision of Anesthesiologist Assistants is included in these privileges. These privileges include supervision of residents, fellows, and other persons in training.

**Rao F. Watson, MD, Active Staff**

**Department of Pathology and Lab. Medicine**

- Clinical Pathology Core Privileges: Privileges in clinical pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of clinical laboratory tests on body fluids and secretions. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.
- Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include care of patients via telemedicine.

These privileges include supervision of residents, fellows and others in training.

- Fine needle aspiration

**Alicia C. Weeks, MD, Active Staff**

**Department of Medicine/Endocrinology**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Endocrinology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the endocrine system or metabolic disorders. These privileges include, but are not limited to, fine needle aspiration of the thyroid; percutaneous needle biopsy of the thyroid; bone densitometry; and supervision of residents, fellows, and others in training.

**Grace Y. Wenham, DMD, Active Staff**

**Department of Surgery/Plastic**

- GENERAL DENTAL PRIVILEGES: operative restorations
- GENERAL DENTAL PRIVILEGES: prosthetic replacement of teeth
- GENERAL DENTAL PRIVILEGES: minor pre-prosthetic surgery
- GENERAL DENTAL PRIVILEGES: treatment of minor infections
- GENERAL DENTAL PRIVILEGES: removal of minor benign lesions
- GENERAL DENTAL PRIVILEGES: biopsy
- GENERAL DENTAL PRIVILEGES: uncomplicated extractions
- GENERAL DENTAL PRIVILEGES: extraction of simple tissue impacted teeth
- GENERAL DENTAL PRIVILEGES: conventional endodontics
- GENERAL DENTAL PRIVILEGES: treatment of traumatic dental injuries
- GENERAL DENTAL PRIVILEGES: treatment of minor intraoral wounds
- GENERAL DENTAL PRIVILEGES: dental prophylaxis and root planing
- PEDIATRIC DENTISTRY CORE PRIVILEGES: general dental core privileges
- PEDIATRIC DENTISTRY CORE PRIVILEGES: interceptive orthodontics
- PEDIATRIC DENTISTRY CORE PRIVILEGES: behavioral, physical and pharmacologic (non-parenteral) management for patients unable to cooperate

**Jason T. Wiseman, MD, Active Staff**

**Department of Surgery/Peripheral-Vascular**

- Wound dressing changes

**Steven M. Zak, MD, Active Staff**

**Department of Neurology/General**

- Neurology Core Privileges: Privileges to admit, evaluate including performance of H&P,

diagnose, consult, and provide medical treatment to patients presenting with illnesses or injuries of the neurological system. These privileges include, but are not limited to, lumbar puncture; EEG interpretation and operative monitoring; EMG and nerve conduction studies; muscle and nerve biopsy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training. Privileges done via telemedicine including EEG interpretation & intraoperative monitoring

### **Additional Privileges**

---

**Ciara J. Barclay-Buchanan, MD, Active Staff**

**Department of Emergency Medicine**

- Supervision of Kevin Wyne, PA with prescriptive authority

**Andrea R. Carberry, MD, Active Staff**

**Department of Pediatrics/General**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

**Ravi Dhingra, MD, Active Staff**

**Department of Medicine/Cardiovascular Medicine**

- Supervision of Michele Gruenfelder, PA with prescriptive authority

**Luke M. Funk, MD, Active Staff**

**Department of Surgery/General Surgery**

- Supervision of Steven Heuer, PA with prescriptive authority
- POEM (Peroral Endoscopic Myotomy)

**Jacob A. Greenberg, MD, Active Staff**

**Department of Surgery/General Surgery**

- POEM (Peroral Endoscopic Myotomy)

**Cynthia M. Griffin, DO, Active Staff**

**Department of Emergency Medicine**

- Supervision of Kevin Wyne, PA with prescriptive authority

**Maryl R. Johnson, MD, Active Staff**

**Department of Medicine/Cardiovascular Medicine**

- Supervision of Michele Gruenfelder, PA with prescriptive authority

**Walter G. Kao, MD, Active Staff**

**Department of Medicine/Cardiovascular Medicine**

- Supervision of Michele Gruenenfelder, PA with prescriptive authority

**David R. Murray, MD, Active Staff**

**Department of Medicine/Cardiovascular Medicine**

- Supervision of Michele Gruenenfelder, PA with prescriptive authority

**Peter S. Rahko, MD, Active Staff**

**Department of Medicine/Cardiovascular Medicine**

- Supervision of Michele Gruenenfelder, PA with prescriptive authority

**Patrick P. Sassani, MD, Active Staff**

**Department of Ophthalmology/Fellow**

- Special Competence Surgical Retina: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients of all ages, presenting with complicated illnesses, injuries, and disorders of the retina, vitreous and horoids. These privileges include, but are not limited to, posterior vitrectomy; intraocular foreign body removal; scleral buckling; placement of radioactive plaques for tumors, vitreous implants and injections.

**Christopher H. Stahmer, MD, Active Staff**

**Department of Emergency Medicine**

- Supervision of Kevin Wyne, PA with prescriptive authority

**Focused Professional Practice Evaluation Review**

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Name	Department /Section	Staff Status
Andresen, Dustin P., MD	Medicine/Hospitalist	Active Staff
Balasubramaniam, Vivek, MD	Pediatrics/Pulmonary	Active Staff
Bazalakova, Mihaela H., MD	Neurology/General	Active Staff
Bora, Suhani S., MD	Family Medicine/General	Active Staff
Bowen, Katherine S., PhD	Neurology/General	Clinical Psychology
Conniff, James F., MD	Family Medicine/General	Active Staff
Conwell, Nicholas R., MD	Emergency Medicine	Active Staff

Young, Terri L., MD	Ophthalmology/General	Active Staff

**Leave of Absence**

**Don Singer, MD**, Active, Pathology—returning 5/18/2015

**Professional Privileges-- New Applications**

**Renee M. Bobb, NP, UW Advance Practice Nurse  
Department of Medicine/Cardiovascular Medicine**

- Cardiovascular Medicine NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with cardiovascular disease in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering blood products, cardioversion and invasive cardiac test including but not limited to cardiac catheterization, pericardiocentesis, and respiratory therapy.
- Prescriptive authority

**Angela L. Fischer, PA-C, UW Physician Assistant  
Department of Surgery/Transplant**

- Transplant Surgery PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to approach to a patient of any age in any setting: to obtain a thorough medical history, perform an

appropriate physical examination; obtain treatment consent, and record and present pertinent data; pre-operative history and physical; counsel and instruct patients, families, and caregivers as appropriate; direct care as specified by medical staff approved protocols; implement therapeutic intervention for specific conditions when appropriate; initiate appropriate referrals; make rounds on hospitalized patients; make preoperative and postoperative teaching visits with patients; order and initial interpretation of diagnostic testing and therapeutic modalities, such as routine laboratory tests; medications; hemodynamic monitoring; IV fluids and electrolytes; electrocardiogram; and radiologic examinations, including x-rays, angiogram, ultrasound, CT, MRI/A, nuclear medicine studies, and bone scan studies, etc. Dictate and sign required notes on evaluations and procedures performed. Discuss proposed procedures with risks and potential complications to enable proper patient informed consent. Administer local anesthetic solutions; apply, remove, and change dressings and bandages, debridement, suture, incision and drainage, and general care for superficial wounds and minor superficial surgical procedures. Assist the physicians as directed in the training of health personnel in certain diagnostic, therapeutic and clinical techniques. Assist in surgery to include, but not limited to, first assist on major or minor surgeries. These privileges also include ordering respiratory therapy.

- Prescriptive Authority

**Michele M. Gruenfelder, PA, UW Physician Assistant**  
**Department of Medicine/Cardiovascular Medicine**

- Cardiovascular Medicine PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: approach a patient of any age in any setting to obtain a thorough medical history, perform an appropriate physical examination, obtain treatment consent, and record and present pertinent data; counsel and instruct patients, families, and caregivers as appropriate; direct care as specified by medical staff approved protocols; implement therapeutic interventions for specific conditions when appropriate; initiate appropriate referrals; make rounds on hospitalized patients; order and initial interpretation of diagnostic testing and therapeutic modalities, such as routine laboratory tests; medications; respiratory therapy; hemodynamic monitoring; IV fluids and electrolytes; electrocardiogram; and radiologic examinations, including x-rays, angiogram, ultrasound, CT, MRI/A, and bone scan studies, etc. Dictate and sign required notes on evaluations and procedures performed. Discuss proposed procedures with risks and potential complications to enable proper patient informed consent. Assist the physicians as directed in the training of health personnel in certain diagnostic, therapeutic and clinical techniques. Promote health, prevent disease, diagnose, consult and manage adolescent and adult patients with cardiovascular disease in both inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy.
- Prescriptive Authority

**Barbara J. Koschak, NP, UW Advance Practice Nurse**  
**Department of Orthopedics and Rehabilitation/Rehab Medicine**

- Ortho/Rehab-Rehabilitation (Adult) NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with rehabilitation needs and diagnoses in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority

**Cynthia M. Manzke, NP, UW Advance Practice Nurse**

**Department of Pediatrics/General**

- Pediatrics/Allergy & Immunology NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage pediatric patients with allergic diseases (allergies-food and environmental), asthma and atopic dermatitis. This care is provided in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
  - Prescriptive authority
