

**University of Wisconsin Hospitals and Clinics Board of Directors**  
**Review of Medical Staff – May 2, 2012**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: April 3, 2012  
Medical Board: April 12, 2012

Nathan J. Rudin, M.D., Chair of Medical Board & Interim  
President of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

**New Applications**

**Dmitriy G. Akselrod, MD, Active Staff**  
**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.

**Matthew W. Backer, MD, Active Staff**  
**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Adult Moderate Sedation-- Inside and outside

**Christina E. Broadwell, MD, Active Staff**

**Department of Obstetrics and Gynecology/Reproductive Endocrinology**

- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease; screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures,

repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.

- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.
- Special Competence - Assisted Reproduction: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide surgical or therapeutic interventions for women with infertility. These privileges include micro-reanastomosis of the fallopian tubes; GIFT (Gamete intrafallopian tube transfer); invitro fertilization and embryo transfer, revision of complex congenital anomalies; ultrasound evaluation of developing follicles.

**Jessica W. Cook, PhD, Clinical Psychology**

**Department of Medicine/General Internal Medicine**

- Psychological testing: adults
- Behavior modification
- Group therapy

**Sara C. Damewood, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Inside and outside

**James A. Hanson, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.

**Jason M. Huston, DO, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Adult Moderate Sedation-- Inside and outside

**Marilyn C. Kay, MD, Active Staff**

**Department of Ophthalmology**

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways\*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training.

**Douglas R. Kitchin, MD, Active Staff**  
**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration
- Adult Moderate Sedation-- Within CSC only

**Jeffrey A. Klein, MD, Active Staff**  
**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.

**Christine L. Larsen, MD, Active Staff**  
**Department of Ophthalmology/Fellow**

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways\*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training. (\* This does not include the procedures requiring fellowship training listed under special competence areas.
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training
- Use of surgical laser - Argon for glaucoma
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation.

**Russell L. Lemmon, DO, Active Staff**  
**Department of Family Medicine**

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Arthrocentesis

**Kasi R. McCune, MD, Active Staff**  
**Department of Surgery/Fellow**

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy
- Organ Procurement

**Sean M. O'Neill, MD, Active Staff**

**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

**Sarah C. Oltmann, MD, Active Staff**

**Department of Surgery/Fellow**

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Adult Moderate Sedation-- Inside and outside
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy
- Stereotactic breast biopsy

**Carla M. Pugh, MD, Active Staff**

**Department of Surgery/General Surgery**

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy

**Naila Qazi, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities,

gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.

- Adult Moderate Sedation-- Inside and outside
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Sedation (Non Anesthesiologist)

**Brian R. Sharp, MD, Active Staff**

**Department of Medicine/Emergency Medicine**

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Inside and outside
- Deep Sedation--Adults
- Pediatric Moderate Sedation

**Sriharan Sivalingam, MD, Active Staff**

**Department of Urology/Fellow**

NOTE: Reintroduction plan in place

- Urology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses or injuries of the genitourinary system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Use of surgical laser
- Laparoscopic urologic procedures

**Michael N. Skaredoff, MD, Active Staff**

**Department of Anesthesiology**

- Pain Management (Anesthesiology) Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with acute or chronic pain. These privileges include, but are not limited to, anesthetic nerve block; arthrocentesis; injection of neuromuscular block; neurolytic nerve block; soft tissue injection; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal pH by paper methods; and supervision of residents, fellows and others in training.

**Joseph Y. Tang, MD, Active Staff**

**Department of Radiology/Fellow**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.

**Additional Privileges**

**Micah R. Chan, MD, Active Staff**

**Department of Medicine/Nephrology**

- Supervision of physician assistant with prescriptive authority (Kathryn McComb, PA)

**Jonathan B. Jaffery, MD, Active Staff**

**Department of Medicine/Nephrology**

- Supervision of physician assistant with prescriptive authority (Kathryn McComb, PA)

**Maria A. Jaume, MD, Active Staff**

## Department of Medicine/Nephrology

- Supervision of physician assistant with prescriptive authority (Kathryn McComb,PA)

Roy A. Jhagroo, MD, Active Staff

## Department of Medicine/Nephrology

- Supervision of physician assistant with prescriptive authority (Kathryn McComb,PA)

Paul S. Kellerman, MD, Active Staff

## Department of Medicine/Nephrology

- Supervision of physician assistant with prescriptive authority (KathrynMcComb,PA)

Laura J. Maursetter, DO, Active Staff

## Department of Medicine/Nephrology

- Supervision of physician assistant with prescriptive authority (Kathryn McComb,PA)

Sanjeev R. Shah, MD, Active Staff

## Department of Medicine/Nephrology

- Supervision of physician assistant with prescriptive authority (Kathryn McComb, PA)

John E. Temprano, MD, Active Staff

## Department of Ophthalmology

- Adult Moderate Sedation--Within CSC

Hemender S. Vats, MD, Active Staff

## Department of Medicine/Nephrology

- Supervision of physician assistant with prescriptive authority (Kathryn McComb, PA)

Alexander S. Yevzlin, MD, Active Staff

## Department of Medicine/Nephrology

- Supervision of physician assistant with prescriptive authority (Kathryn McComb, PA)

**Focused Professional Practice Evaluation Review**

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Last Name	First Name	MI	Title	Dept	Staff status
Ahrens	Sarah	E	MD	Medicine	Active
Bradley	Sarah	L	MD	Obstetrics and Gynecology	Active
Brincat	Cynthia	A	MD	Obstetrics and Gynecology	Active
Collins	Megan	E	MD	Ophthalmology	Active
Hamrick	Irene	M	MD	Family Medicine	Active

Zuegge	Karin	L	MD	Anesthesiology	Active

**Status Changes**

- Lucille Marchand, MD, Family Medicine, Courtesy to Active

**Professional Privileges**

**New applicant**

Julie Cavey, NP

Department of Radiology

- without prescriptive authority

Kathryn McComb, PA

Department of Medicine/Nephrology

- Nephrology PA Core Professional Privileges
- Prescriptive Authority

Karie Schmidt, NP

Department of Radiology

- with prescriptive authority

Jenna Wilke, NP

Department of Radiology

- with prescriptive authority

**Reinstatement**

Casey Ray, NP

Department of Medicine/Hospitalist

- with prescriptive authority

**Additional privilege**

Kristine Bohrmeuler, NP

Department of OB/GYN

- endometrial biopsy

Annette Glasser, NP

Department of Medicine/Gastroenterology

- rectal biopsy

Amy Stacey, NP

Department of Surgery/General

- gastric stimulator interrogation/programming

**Reappointments**

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments (time period of 7/1/2012-6/30/2014) unless otherwise noted and are recommended to the Medical Board for approval/action: \*\* indicates members abstaining from voting on their own reappointment application.

Dermatology

- Gail Jahnke, NP
- Julie Lederman, NP
- Lori Oettinger, NP
- Linda Pfister, NP

GCRC

- Kathryn Cacic, NP

Medicine

- Kjersten Busse, CNS – Cardiovascular Medicine
- \*\*Nancy Brandt, NP\*\* - Hem/Onc
- Theresa Dachel, NP – General Internal Medicine
- Amanda Deniger, NP – Geriatric: req 6 month reappointment w FPPE.
