

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff –May 6, 2015

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: March 2, 2015

Medical Board: March 12, 2015

Lee Faucher, M.D., Chair of Medical Board & President
of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

New Applications

Kenneth R. Casey, MD, Active Staff

Department of Medicine/Allergy, Pulmonary & Critical Care (Sleep Medicine)

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and supervision of residents, fellows, and others in training.
- Fiberoptic bronchoscopy
- Direct laryngoscopy

Ruth M. O'Regan, MD, Active Staff

Department of Medicine/Hematology/Oncology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Hematology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the blood and blood-forming tissues. These privileges

include, but are not limited to, bone marrow aspiration and biopsy; administration of chemotherapy; the management and care of indwelling venous access catheters; plasmapheresis; therapeutic phlebotomy; lymph node aspiration; bone marrow harvest; and supervision of residents, fellows, and others in training.

- Medical Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with malignancies. These privileges include, but are not limited to, administration of chemotherapeutic agents and biological response modifiers through all therapeutic routes; management and maintenance of indwelling venous access catheters; and supervision of residents, fellows, and others in training.
- Bone marrow harvest
- Hematopoietic progenitor cell component infusion

Michael K. Safa, MD, Active Staff

Department of Emergency Medicine

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Adult Deep Sedation
- Point of Care Emergency Ultrasound
- Adult Moderate Sedation-- Within CSC only

Makeba Williams, MD, Active Staff

Department of Obstetrics and Gynecology/General

**Reintroduction plan in place

- Use of surgical robot for procedures otherwise privileged to perform
- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.
- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.

Reinstatement

John O. Fleming, MD, Active Staff

Department of Neurology

- Neurology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and provide medical treatment to patients presenting with illnesses or injuries of the neurological system in the outpatient setting. These privileges include, but are not limited to, lumbar puncture; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

Additional Privileges

Daniel R. Gralnek, MD, Active Staff

Department of Urology

- Supervision of Susette Thompson, PA with prescriptive authority

Didier A. Mandelbrot, MD, Active Staff

Department of Medicine/Nephrology

- Supervision of Karen Birling, PA; Paula Cynkar, PA; and Lindsay Morris, PA with prescriptive authority

Sandesh Parajuli, MBBS, Active Staff

Department of Medicine/Nephrology

- Supervision of Karen Birling, PA; Paula Cynkar, PA; and Lindsay Morris, PA with prescriptive authority

Robert R. Redfield, III, MD, Active Staff

Department of Surgery/Fellow

- Supervision of Karen Birling, PA; Paula Cynkar, PA; and Lindsay Morris, PA with prescriptive authority

Kyle A. Richards, MD, Active Staff

Department of Urology

- Supervision of Susette Thompson, PA with prescriptive authority

Jennifer G. Steiman, MD, Active Staff

Department of Surgery/General Surgery

- Supervision of Lori Seaborne, PA with prescriptive authority

Michael A. Woods, MD, Active Staff

Department of Radiology/Interventional Radiology

- Supervision of Katie Dudley, PA with prescriptive authority

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Name	Department /Section	Staff Status
Alimi, Adebisi O., MD	Medicine/Hospitalist	Active Staff
Nolan, Eric J., MD	Medicine/Hospitalist	Active Staff
Tattersall, Matthew C., DO	Medicine/Cardiovascular	Active Staff
Thompson, Ryan J., MD	Emergency Medicine	Active Staff
Walker, Andrew J., MD	Medicine/GI	Active Staff
Wilson, Thomas A., MD	Pediatrics/Neonatology	Active Staff

Reappointments

The following reappointment application has been endorsed by the UWHC Credentials Committee for reappointment until December 31, 2016 and is recommended to the Medical Board for approval/action:

Audrey Jantzen, MD, Neurology

Professional Privileges-- New Applications

Amber K. Humphries, NNP, UW Advance Practice Nurse

Department of Pediatrics/Neonatology

- Pediatrics/Neonatology NP Core Privileges: Under the direction of and in collaboration with a physician, the NP is granted privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage premature & critically ill neonatal patients and ill newborns through 6 months of life. These privileges include but are not limited to the following core procedures: arterial lines insertion; umbilical catheter insertion (arterial or venous catheter); endotracheal tube placement/intubation; PICC insertion; thoracentesis, suturing, and wound debridement. These privileges include ordering respiratory therapy and blood products. This care is provided in inpatient settings and requires a designated collaborating physician with clinical privileges at this hospital in the same area of specialty practice and is in accordance with a written agreement, policies, and protocols developed and approved by the relevant clinical department. Professional privileges are an agreement between the NP and collaborating physician.
- Prescriptive authority

Betsy I. Lark, PA, UW Physician Assistant

Department of Emergency Medicine

- General PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: attending initially to a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Ordering or performing (or assist in performing) routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in by making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals and consultations. These privileges also include ordering respiratory therapy.
- Emergency Medicine PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to, history and physical; diagnose and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. Treatment of these patients includes the following, but not limited to, Cardiac Monitoring; Cardiopulmonary Resuscitation; Cardioversion/Defibrillation; EKG Interpretation (emergency); Endotracheal Intubation (oral; nasal); Epistaxis Control; External Pacing of Heart; Foley Catheter Insertion; Local & Regional Nerve Blocks; Pelvic Examination; Pneumothorax Management; Restraint Use; Anoscopy; Skeletal Immobilization; Suture of Lacerations; Therapy of Acute Trauma, Cardiac Failure/Cardiac Arrest, Diabetic Coma (emergency), Hypertensive Emergencies (emergency), Renal Failure (emergency), and Shock (emergency); Transfusion; Ventilator Management (emergency); X-Ray (including CT scan Interpretation (emergency); Joint Reduction; Splint application; Incision and Drainage of Cutaneous Abscesses; and Repair of soft tissue injuries.
- Prescriptive Authority

Elaine M. Makarowski, NP, UW Advance Practice Nurse

Department of Family Medicine/General

- Family Medicine NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adult patients with acute and chronic medical diseases and disorders in the inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority

Jennifer L. Salyer, NNP, UW Advance Practice Nurse

Department of Pediatrics/Neonatology

- Pediatrics/Neonatology NP Core Privileges: Under the direction of and in collaboration with a physician, the NP is granted privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage premature & critically ill neonatal patients and ill newborns through 6 months of life. These privileges include but are not limited to the following core procedures: arterial lines insertion; umbilical catheter insertion (arterial or venous catheter); endotracheal tube placement/intubation; PICC insertion; thoracentesis, suturing, and wound debridement. These privileges include ordering respiratory therapy and blood products. This care is provided in inpatient settings and requires a designated collaborating physician with clinical privileges at this hospital in the same area of specialty practice and is in accordance with a written agreement, policies, and protocols developed and approved by the relevant clinical department. Professional privileges are an agreement between the NP and collaborating physician.
- Prescriptive authority

Professional Privileges—Additional Privileges

Karen Birling, PA, UW Physician Assistant

Department of Surgery/Transplant

- Add Drs. Didier Mandelbrot, Sandesh Parajuli, and Robert Redfield, III as supervising physicians

Lisa C. Bratzke, NP, UW Advance Practice Nurse

Department of Medicine/Geriatrics

- CRU NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients enlisted by principal investigators to serve as subjects for designated studies in the Clinical and Translational Research Core and areas where IRB approved studies are being conducted. This care is provided in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- CRU-Alzheimer's Research (Geriatric) NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adult patients with mild cognitive impairments, patients with Alzheimer's Disease, and healthy adults for research purposes enlisted by principal investigators to serve as subjects for designated studies in the Clinical and Translational Research Core, GRECC research space and the Wisconsin Comprehensive Memory Program's research space in UWHC. This care is provided in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.

Paula R. Cynkar, PA, UW Physician Assistant

Department of Surgery/Transplant

- Add Drs. Didier Mandelbrot, Sandesh Parajuli, and Robert Redfield, III as supervising physicians

Katie E. Dudley, PA-C, UW Physician Assistant

Department of Radiology/Interventional Radiology

- Add Dr. Michael Wood as a supervising physician

Jennifer K. DuRocher, NP, UW Advance Practice Nurse

Department of Dermatology

- Intralesional injection

- Shave biopsy

Christopher B. Goodavish, PA-C, UW Physician Assistant
Department of Surgery/Cardiothoracic

- Add Dr. Satoru Osaki as a supervising physician

Kathryn D. McComb, PA, UW Physician Assistant
Department of Medicine/Nephrology

- Emergency Medicine PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to, history and physical; diagnose and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. Treatment of these patients includes the following, but not limited to, Cardiac Monitoring; Cardiopulmonary Resuscitation; Cardioversion/Defibrillation; EKG Interpretation (emergency); Endotracheal Intubation (oral; nasal); Epistaxis Control; External Pacing of Heart; Foley Catheter Insertion; Local & Regional Nerve Blocks; Pelvic Examination; Pneumothorax Management; Restraint Use; Anoscopy; Skeletal Immobilization; Suture of Lacerations; Therapy of Acute Trauma, Cardiac Failure/Cardiac Arrest, Diabetic Coma (emergency), Hypertensive Emergencies (emergency), Renal Failure (emergency), and Shock (emergency); Transfusion; Ventilator Management (emergency); X-Ray (including CT scan Interpretation (emergency)); Joint Reduction; Splint application; Incision and Drainage of Cutaneous Abscesses; and Repair of soft tissue injuries.

Lindsay M. Morris, PA, UW Physician Assistant
Department of Surgery/Transplant

- Add Drs. Didier Mandelbrot, Sandesh Parajuli, and Robert Redfield, III as supervising physicians

Sarah M. Nelson, NP, UW Advance Practice Nurse
Department of Surgery/General Surgery

- Skin punch biopsy
- Suturing

Sarah C. Schaefer, NP, UW Advance Practice Nurse
Department of Surgery/General Surgery

- RN First Assist

Karie P. Schmidt, NP, UW Advance Practice Nurse
Department of Radiology/Interventional Radiology

- Tunneled catheter removal

Lori A. Seaborne, PA, UW Physician Assistant
Department of Surgery/General Surgery

- Add Dr. Jennifer Steiman as a supervising physician

Amy M. Stacey, NP, UW Advance Practice Nurse
Department of Surgery/General Surgery

- Tracheostomy change, first post-op

Susette C. Thompson, PA, UW Physician Assistant
Department of Urology

- Add Drs. Daniel Gralnek, Kyle Richards, and Daniel Williams as supervising physicians

Mark L. Warren, PA-C, UW Physician Assistant

Department of Surgery/Otolaryngology

- Add Dr. Seth Dailey as a supervising physician

Reappointments

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments and are recommended to the Medical Board for approval/action:

- Sarah Affeldt, Medicine/Infectious Disease
- Shandra Bauer, Medicine/General Internal Medicine
- Karen Birling, Surgery/Transplant
- Jenna Brink, Urology
- Brian Bruno, Orthopedics and Rehabilitation/Orthopedic Surgery
- Kimberly Buchta, Orthopedics and Rehabilitation/Orthopedic Surgery
- Paula Cynkar, Surgery/Transplant
- Jennifer Drake, Orthopedics and Rehabilitation/Orthopedic Surgery
- Katie Dudley, Radiology/Interventional Radiology
- Elizabeth Froelich, Surgery/Cardiothoracic
- Christopher Goodavish, Surgery/Cardiothoracic
- Leslie Goodavish, Orthopedics and Rehabilitation/Orthopedic Surgery
- Marylou Hagen, Surgery/Plastic
- Michelle Hauser, Surgery/General Surgery
- Robin Hoenisch, Orthopedics and Rehabilitation/Orthopedic Surgery
- Eugene Kenny, Surgery/Cardiothoracic
- Liubou Korzun, Surgery/Cardiothoracic
- Mahgen Kruse, Surgery/General Surgery
- Heather Leiber, Surgery/Peripheral-Vascular
- Tiffany Mack, Medicine-Allergy, Pulmonary & Critical Care
- Stanley Maier, Surgery/Peripheral-Vascular
- Kathryn McComb, Medicine/Nephrology
- Eric McCue, Surgery/Cardiothoracic
- Angela Morgan, Surgery/Cardiothoracic
- Lindsay Morris, Surgery/Transplant
- Kelin O'Donnell, Obstetrics and Gynecology/Gynecological Oncology
- Amanda Palm, Pediatrics/Bioethics and Child Abuse
- Stephanie Pano, Surgery/Cardiothoracic
- Melissa Pechan, Neurological Surgery
- Joanne Rash, Obstetrics and Gynecology/Gynecological Oncology
- Janet Robillard, Obstetrics and Gynecology/Gynecological Oncology
- Lori Seaborne, Surgery/General Surgery
- LuAnn Shay, Surgery/Plastic
- Susette Thompson, Urology
- Anne Walsh, Urology
- Carey Walters, Orthopedics and Rehabilitation/Orthopedic Surgery
- Mark Warren, Surgery/Otolaryngology
- Kathleen Wilkinson, Surgery/Otolaryngology
