

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff –May 6, 2015

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: April 6, 2015

Medical Board: April 9, 2015

Lee Faucher, M.D., Chair of Medical Board & President
of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

Nevein Ibrahim, MD, Active Staff

Department of Radiology/Fellow

- Nuclear Medicine Core Privileges: Consultation, performance, and interpretation of all routine and non-routine nuclear medicine procedures to make diagnostic evaluations, by both in vivo and in vitro techniques, of the anatomic and/or physiologic conditions of the body. These privileges include supervision of residents, fellows and others in training.
- Consultation and provision of therapy with unsealed radioactive sources or radiopharmaceuticals
- PET/CT/Molecular imaging as part of fellowship--not independent

Anthony D. Kuner, MD, Active Staff

Department of Radiology/Community Radiology

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including radiographs, ultrasound, CT, MRI, diagnostic (non-therapeutic) nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, Doppler vascular imaging, transcranial Doppler, arthrograms and joint aspirations, venography of major vessels, lumbar puncture, mammography and supervision of residents, fellows and other trainees.
- Neuroradiology (Diagnostic): Including but not limited to Myelography and diagnostic fluoroscopy-guided spinal puncture; percutaneous diagnostic angiography (without intervention) of the extracranial carotid arteries.
- Adult Moderate Sedation--Inside and outside CSC

Chowdhury F. Miah, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including radiographs, ultrasound, CT, MRI, diagnostic (non-therapeutic) nuclear

medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, Doppler vascular imaging, transcranial Doppler, arthrograms and joint aspirations, venography of major vessels, lumbar puncture, mammography and supervision of residents, fellows and other trainees.

- Adult Moderate Sedation-- Within CSC only

Robert W. Newell, MD, Active Staff

Department of Pediatrics/Neonatology

- Neonatology-Perinatology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants who have severe or life-threatening medical conditions requiring specialized knowledge or skills. These privileges include, but are not limited to, counseling, including antenatal maternal consults. Prescribe medication, including narcotics and vasoactive drugs. Request and perform diagnostic tests. Transport supervision and management. Umbilical artery and vein catheterization, peripheral and cut-down arterial and venous line placement, central arterial and venous line placement, arterial and venous phlebotomy, bone marrow aspiration, exchange and partial exchange transfusion, intraosseous line placement, chest tube placement, abdominal paracentesis, thoracentesis, suprapubic bladder aspiration, , circumcision, oral or nasogastric tube placement, endotracheal intubation, laryngeal mask airway placement, pericardiocentesis, lumbar puncture, skin punch and muscle biopsy, cardioversion/defibrillation, I & D of abscess. Emergency cricothyrotomy. Wound and burn care including sutures, closed-fracture management. Management of modalities that provide PEEP (CPAP, high flow nasal cannula), non-invasive ventilation, mechanical ventilation, high frequency ventilation, T-piece. Inhaled medications (including surfactant administration, HeliOx and Nitric Oxide). Neonatal resuscitation. Hypothermia (including head and/or total body cooling), ECMO. Performance and interpretation of electrocardiogram (ECG), amplitude integrated electroencephalogram (aEEG), functional echocardiography, non-diagnostic bedside ultrasonography, and polysomnography utilizing 8 or less channels (including home monitor downloads); and supervision of NNPs, NICU and Newborn Hospitalists, residents, fellows, and others in training.

Jessica N. Schmidt, MD, Active Staff

Department of Emergency Medicine

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Deep Sedation--Adults
- Point of Care Emergency Ultrasound
- Adult Moderate Sedation-- Within CSC only

Anuja Sharma, MD, Active Staff

Department of Medicine/Allergy, Pulmonary & Critical Care

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not

limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.

- **Critical Care Medicine Core Privileges:** Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patients in need of critical care. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training
- **Pulmonary Medicine Core Privileges:** Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and supervision of residents, fellows, and others in training.
- **Adult Moderate Sedation--**Inside and outside CSC

Michael T. Steuerwald, MD, Active Staff

Department of Emergency Medicine

- **Emergency Medicine Core Privileges:** Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- **Deep Sedation--**Adults
- **Point of Care Emergency Ultrasound**
- **Adult Moderate Sedation--** Within CSC only

Additional Privileges

Edward Luke Bradbury, MD, Active Staff

Department of Neurology/Stroke

Supervision of Megan Feil, PA with prescriptive authority

Maxfield P. Flynn, MD, Active Staff

Department of Medicine/Endocrinology

Supervision of Megan Barry-Luglio, PA; Kimberly Erickson, PA; Julia Fixel, PA; and Anna Heimbecher, PA with prescriptive authority

Ronald P. Guiao, MD, Active Staff

Department of Orthopedics and Rehabilitation/Orthopedic Surgery

Supervision of Jill Guenther, PA with prescriptive authority

Ryan T. Kipp, MD, Active Staff

Department of Medicine/Cardiovascular Medicine

Supervision of Natalia Young, PA and Anne Barnett, PA with prescriptive authority

Sarah E. Panzer, MD, Active Staff

Department of Medicine/Nephrology

Supervision of Valerie Carroll, PA with prescriptive authority

Jagan Ramamoorthy, MD, Active Staff

Department of Anesthesiology/General

Transesophageal Echocardiography & Percutaneous Tracheostomy

Kurt M. Rongstad, MD, Active Staff

Department of Orthopedics and Rehabilitation/Orthopedic Surgery

Supervision of Jill Guenther, PA with prescriptive authority

Amanda M. Valliant, MD, Active Staff

Department of Medicine/Nephrology

Tunneled hemodialysis

Sana Waheed, MD, Active Staff

Department of Medicine/Nephrology

Supervision of Valerie Carroll, PA with prescriptive authority

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Professional Privileges-- New Applications

Tiffany A. Bisenius, CRNA, UW Advance Practice Nurse

Department of Anesthesiology

- Certified Registered Nurse Anesthetist Core Privileges: preanesthesia evaluation and preparation, administration of general and regional anesthesia and all levels of sedation techniques, and postanesthesia care for children, adolescent, and adult patients under the direct supervision of physician members of the medical staff. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. May also order respiratory therapy.

Valerie A. Carroll, PA, UW Physician Assistant

Department of Medicine/Nephrology

- Nephrology PA Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by

reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. These privileges also include ordering renal replacement therapy and respiratory therapy.

- Prescriptive Authority

Jenna R. Gullickson, NP, UW Advance Practice Nurse

Department of Medicine/Human Resources - Employee Health

- Employee Health NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage hospital employee applicants, hospital employees and select non-employed paid employees in the outpatient settings in collaboration with physician members of the medical staff.
- Prescriptive authority

Jennifer L. Larson, NP, UW Advance Practice Nurse

Department of Medicine/Nephrology

- Nephrology NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with acute and chronic kidney diseases in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include blood product ordering as well as ordering renal replacement therapy and respiratory therapy.
- Nephrology-Transplant NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with chronic kidney disease, organ transplant candidates undergoing desensitization in preparation for transplantation, adult kidney transplant recipients which includes adult kidney transplant recipients with acute and/or chronic allograft dysfunction, other solid organ transplant recipients with acute kidney injury and/or chronic kidney disease, and sensitized kidney transplant recipients who are being treated for their sensitized state. This care is provided in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include blood product ordering as well as ordering renal replacement therapy and respiratory therapy.
- Prescriptive authority

Sarah M. Nelson, NP, UW Advance Practice Nurse

Department of Surgery/Transplant

- Transplant (Solid Organ) NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with solid organ transplants (liver, kidney, pancreas), including pre- and postoperative care, in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority

Ashley D. Orme-Rogers, NP, UW Advance Practice Nurse

Department of Surgery/Transplant

- Transplant (Solid Organ) NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with solid organ transplants (liver, kidney, pancreas), including pre- and postoperative care, in inpatient and outpatient settings in collaboration with physician members

of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.

- Prescriptive authority

Leah M. Roscoe, NP, UW Advance Practice Nurse

Department of Medicine/Endocrinology

- Endocrinology NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with endocrine or metabolic disorders in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority

Caitlin B. Weitzel, NP, UW Advance Practice Nurse

Department of Medicine/Hospitalist

- General Internal Medicine (Inpatient) NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with acute and chronic medical diseases and disorders in the inpatient settings in collaboration with physician members of the medical staff. This includes patients admitted to the Hospitalist service and for whom a Hospitalist consultation as been requested. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority

Erin J. Werner, PA, UW Physician Assistant

Department of Emergency Medicine

- General PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: attending initially to a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Ordering or performing (or assist in performing) routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in by making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals and consultations. These privileges also include ordering respiratory therapy.
- Emergency Medicine PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to, history and physical; diagnose and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. Treatment of these patients includes the following, but not limited to, Cardiac Monitoring; Cardiopulmonary Resuscitation; Cardioversion/Defibrillation; EKG Interpretation (emergency); Endotracheal Intubation (oral; nasal); Epistaxis Control; External Pacing of Heart; Foley Catheter Insertion; Local & Regional Nerve Blocks; Pelvic Examination; Pneumothorax Management; Restraint Use; Anoscopy;

Skeletal Immobilization; Suture of Lacerations; Therapy of Acute Trauma, Cardiac Failure/Cardiac Arrest, Diabetic Coma (emergency), Hypertensive Emergencies (emergency), Renal Failure (emergency), and Shock (emergency); Transfusion; Ventilator Management (emergency); X-Ray (including CT scan Interpretation (emergency)); Joint Reduction; Splint application; Incision and Drainage of Cutaneous Abscesses; and Repair of soft tissue injuries.

- Prescriptive Authority

Professional Privileges—Additional Privileges

**Anne Barnett, PA, UW Physician Assistant
Department of Medicine/Cardiovascular Medicine**

- Dr. Ryan Kipp as a supervising physician
- Insertion of central venous lines and electrophysiology catheters

**Megan Barry-Luglio, PA, UW Physician Assistant
Department of Medicine/Endocrinology**

- Drs. Vincent Cryns and Maxfield Flynn as supervising physicians

**Sarah Bodden, PA, UW Physician Assistant
Department of Orthopedics & Rehabilitation/ Orthopedic Surgery**

- perform diagnostic and therapeutic procedures, such as, but not limited to: aspirations and injections of the joints, bursars, and cysts; closed reductions of fractures and dislocations; injections of tendons; trigger point; bone graft harvesting
- perform minor outpatient procedures, such as, but not limited to: tendo repair, incision and drainage of superficial abscesses, wound closure and management; wound closure and management; needle biopsy; k-wire removal; and hardware removal

**Kimberly Erickson, PA, UW Physician Assistant
Department of Medicine/Endocrinology**

- Drs. Dawn Davis, Diane Elson, Maxfield Flynn, Elaine Pelley, Jennifer Poehls, Vanessa Rein, Don Schalch, and Yoram Shenker as a supervising physicians

**Megan Feil, PA, UW Physician Assistant
Department of Neurology**

- Dr. Edward Luke Bradbury as a supervising physician

**Julia Fixel, PA, UW Physician Assistant
Department of Medicine/Endocrinology**

- Drs. Vincent Cryns and Maxfield Flynn as supervising physicians

**Jill Guenther, PA, UW Physician Assistant
Department of Orthopedics & Rehabilitation/ Orthopedic Surgery**

- Drs. Ronald Guiao, Kurt Rongstad and Stefan Zachary as supervising physicians

**Anna Heimbecher, PA, UW Physician Assistant
Department of Medicine/Endocrinology**

- Dr. Maxfield Flynn as a supervising physician

**Theresa Hollnagel, PA, UW Physician Assistant
Department of Urology**

- Drs. Daniel Gralnek and Kyle Richards as supervising physicians

**Jerrilyn Johnson, PA, UW Physician Assistant
Department of Dermatology**

- Dr. Lisa Muchard as a supervising physician

**Kristina Krueger, NP, UW Advance Practice Nurse
Department of Obstetrics and Gynecology/Gynecology**

- IUD Insertion and IUD removal

**Mahgen Kruse, PA, UW Physician Assistant
Department of Surgery/General Surgery**

- Burn debridement

**Kelly MacVittie, PA, UW Physician Assistant
Department of Surgery/General Surgery**

- Dr. Carla Pugh as a supervising physician

**Jane Nixon, PA, UW Physician Assistant
Department of Medicine/Endocrinology**

- Dr. Maxfield Flynn as a supervising physician

**Debra Schrader, PA, UW Physician Assistant
Department of Surgery/Transplant**

- Drs. Didier Mandelbrot, Sandesh Parajuli, and Robert Redfield, II as supervising physicians

**Margaret Straub, PA, UW Physician Assistant
Department of Human Oncology**

- Drs. Ahmed Al-Niimi and Lisa Barroilhet as supervising physicians

**Sarah Williamson, PA, UW Physician Assistant
Department of Medicine/Cardiovascular Medicine**

- Dr. Ryan Kipp as a supervising physician

**Natalia Young, PA, UW Physician Assistant
Department of Medicine/Cardiovascular Medicine**

- Dr. Ryan Kipp as a supervising physician

Reappointments

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments and are recommended to the Medical Board for approval/action:

APN

- Mary Jo Baumann, Obstetrics and Gynecology/Women's Health
- Lisa Bennett, Pediatrics/Endocrinology

- Sarah Cencius, Pediatrics/Critical Care
- Lisa Dailey, Pediatrics/Neonatology
- Kimberly Gudex, Surgery/Peripheral-Vascular
- Marianne Hines, Medicine/Clinical Research Unit
- Kristina Krueger, Obstetrics and Gynecology/Gynecology
- Laura Kwitek, Obstetrics and Gynecology/Women's Health
- Teresa Lincicum, Medicine/Cardiovascular Medicine
- Patricia Lohr, Family Medicine/General
- Theresa Michel, NP Obstetrics and Gynecology/Women's Health
- R. Christian Rhoads, Pediatrics/Neonatology
- Tara Schultz, Neurology
- Rachel Wantz, Orthopedics and Rehabilitation/Orthopedic Surgery
- Sarah Williamson, Medicine/Cardiovascular Medicine
- Natalia Young, Medicine/Cardiovascular Medicine

PA

- Anne Barnett, Medicine/Cardiovascular Medicine
- Megan Barry-Luglio, Medicine/Endocrinology
- Sarah Bodden, Orthopedics and Rehabilitation/Orthopedic Surgery
- Lisa Cervantes, Medicine/Gastroenterology & Hepatology
- Amanda DeVoss, Medicine/Gastroenterology & Hepatology
- Kimberly Erickson, Medicine/Endocrinology
- Virginia Evans, Medicine/Gastroenterology & Hepatology
- Megan Feil, Neurology/Stroke
- Julia Fixel, Medicine/Endocrinology
- Nicole Fletchall, Orthopedics and Rehabilitation/Orthopedic Surgery
- Jill Guenther, Orthopedics and Rehabilitation/Orthopedic Surgery
- Rebecca Hartwell, Orthopedics and Rehabilitation/Orthopedic Surgery
- Anna Heimbecher, Medicine/Endocrinology
- Theresa Hollnagel, Urology
- Jerrilyn Johnson, Dermatology
- Kelly MacVittie, Surgery/General Surgery
- Aimee Mastrangelo, Surgery/Plastic
- Rebecca Nelson, Orthopedics and Rehabilitation/Orthopedic Surgery
- Alicia Purdin, Orthopedics and Rehabilitation/Orthopedic Surgery
- Hannah Rottinghaus, Surgery/Otolaryngology
- Debra Schrader, Surgery/Transplant
- Mark Shepherd, Orthopedics and Rehabilitation/Orthopedic Surgery
- Margaret Straub, Human Oncology
- Shawna Wheeler, Neurology
