

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff – September 7, 2011

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: June 30, 2011

Medical Board: July 14, 2011

Christopher G. Green, M.D., Chair of Medical Board &
President of Medical Staff

New Applications

Sarah E. Ahrens, MD, Active Staff

Department of Medicine/Hospitalist

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

Gregory D. Avey, MD, Active Staff

Department of Radiology/General

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Adult Moderate Sedation-- Inside and outside CSC

Daniel D. Bennett, MD, Active Staff

Department of Dermatology/General

- Dermatology Core Privileges: Privileges to admit, evaluate, diagnose, consult, and treat patients presenting with illnesses and or injuries of the integumentary system. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, excision or other means of removal (including by liposuction) of benign and malignant lesions; curettage; electrosurgery; liquid nitrogen cryosurgery of the skin and other appropriate lesions; nail surgery; actinotherapy treatments (phototherapy - e.g. PUVA); collagen implantation; injectable fillers; Botox injections; dermabrasion; chemical peels; laser treatments; sclerotherapy; dermatopathology; flaps and grafts; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and others in training.

Siobhan M. Byrne, MD, Courtesy Staff

Department of Medicine/Gastroenterology & Hepatology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Gastroenterology and Hepatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the alimentary tract and associated organs. These privileges include, but are not limited to, diagnostic upper gastrointestinal endoscopy; therapeutic upper gastrointestinal endoscopy (treatment of bleeding lesions, sclerotherapy or banding of esophageal or proximal gastric varices, removal of foreign bodies, removal of polypoid lesions, dilation of stenotic lesions with transendoscopic balloon dilators or dilating systems with guidewires, palliative treatment of stenosing neoplasms); colonoscopy with polypectomy; liver biopsy; and supervision of residents, fellows, and others in training.
- Upper Gastrointestinal and Enteric: Percutaneous endoscopic gastrostomy (PEG) or jejunostomy (JEG) placement
- Upper Gastrointestinal and Enteric: Pneumatic dilation for achalasia
- Upper Gastrointestinal and Enteric: Esophageal or enteric stent placement
- Adult Moderate Sedation-- Inside and outside CSC

Daniel J. Cabrera, MD, Active Staff

Department of Medicine/Hospitalist

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Adult Moderate Sedation-- Inside and outside CSC

Freddy Caldera, Jr., DO, Active Staff

Department of Medicine/Gastroenterology & Hepatology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Gastroenterology and Hepatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the alimentary tract and associated organs. These privileges include, but are not limited to, diagnostic upper gastrointestinal endoscopy; therapeutic upper gastrointestinal endoscopy (treatment of bleeding lesions, sclerotherapy or banding of esophageal or proximal gastric varices, removal of foreign bodies, removal of polypoid lesions, dilation of stenotic lesions with transendoscopic balloon dilators or dilating systems with guidewires, palliative treatment of stenosing neoplasms); colonoscopy with polypectomy; liver biopsy; and supervision of residents, fellows, and others in training.
- Upper Gastrointestinal and Enteric: Endoscopic injection of botulism toxin for achalasia
- Upper Gastrointestinal and Enteric: Percutaneous endoscopic gastrostomy (PEG) or jejunostomy (JEG) placement

- Adult Moderate Sedation-- Inside and outside CSC

Meaghan A. Combs, MD, MPH, Active Staff

Department of Family Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Circumcision

Jessica W. Dalby, MD, Active Staff

Department of Family Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- D&C for incomplete AB
- Circumcision

Mary L. Ehlenbach, MD, Active Staff

Department of Pediatrics/Hospitalist

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Lilia V. Hardin, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation.

Ronni L. Hayon, MD, Active Staff

Department of Family Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Circumcision

Alisa K. Johnson, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Adult Moderate Sedation-- Inside and outside CSC

James J. Kinsella, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.

Miguel A. Leal, MD, Active Staff

Department of Medicine/Cardiovascular Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial

line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

- Cardiovascular Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the heart and blood vessels. These privileges include, but are not limited to, cardioversion; insertion and management of central venous and pulmonary artery catheters; use of thrombolytic agents; pericardiocentesis; Holter scan interpretation; treadmill testing; temporary transvenous pacemaker placement; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Cardiac Imaging: Transthoracic echocardiography
- Cardiac Imaging: Transesophageal echocardiography
- Cardiac Imaging: Stress echocardiography
- Cardiac Imaging: Nuclear Cardiology
- Electrophysiology Procedures: Electrophysiology studies
- Electrophysiology Procedures: Permanent pacemaker selection and implementation

Megan E. Lederer, MD, Active Staff

Department of Pediatrics/General

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Sabina B. Modelska, DO, Active Staff

Department of Medicine/Emergency Medicine

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.

Jeffrey S. Nackos, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration

Mario Otto, MD, PhD, Active Staff

Department of Pediatrics/Hematology/Oncology

- Pediatric Hematology/Oncology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children and adolescents with documented or possible hematologic/oncologic disease. These privileges include, but are not limited to, bone marrow aspiration and bone marrow biopsy; lumbar puncture and administration of intrathecal chemotherapy; interpretation and reading of blood smears and bone marrow aspirates;

ordering and interpreting diagnostic tests and procedures required for the care of the above patient population; administration of intravenous and oral chemotherapy/immunotherapy/other agents required for the care of this patient population; management of patients receiving complex care for hematologic and/or oncologic issues including autologous and allogeneic stem cell transplant in multiagent chemotherapy; processing of peripheral blood stem cell harvest for transplant purposes, planning & regimen protocol writing/selection for patients receiving unrelated or mismatched hematopoietic stem cell transplants; percutaneous needle insertion into V-P shunts or similar intracerebral access devices for patients with CNS malignancies; provision of immediate and longitudinal care for adults previously treated for pediatric hematologic or oncologic disease; and supervision of residents, fellows and others in training..

Jill M. Patzner, MD, Active Staff

Department of Anesthesiology

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.

Sarah A. Rastogi, MD, Active Staff

Department of Pediatrics/General

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Jacqueline S. Redmer, MD, MPH, Active Staff

Department of Family Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Circumcision

Nathan K. Sandbo, MD, Active Staff

Department of Medicine/Allergy, Pulmonary & Critical Care

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via

telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

- Critical Care Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients in need of critical care. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.
- Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Fiberoptic bronchoscopy
- Direct laryngoscopy

Nagaraju Sarabu, MD, MPH, Active Staff
Department of Surgery/Fellow

- No independent privileges. All activities are part of a fellowship in Transplant Medicine.

Keval G. Shah, MD, Active Staff
Department of Medicine/Hospitalist

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

Miriam A. Shelef, MD, PhD, Active Staff
Department of Medicine/Rheumatology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Rheumatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with rheumatologic disorders. These privileges include, but are not limited to, diagnostic or therapeutic aspiration or injection of joints, bursae, and tenosynovial structures; percutaneous needle biopsy of the synovium, muscle, and adipose tissue; and supervision of residents, fellows, and others in training.

Shitanshu Uppal, MBBS, Active Staff
Department of Obstetrics and Gynecology/Fellow

- **Medical Gynecology Core Privileges:** Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- **Surgical Gynecology Core Privileges:** Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.

Shane A. Wells, MD, Active Staff
Department of Radiology/Fellow

- **Radiology Core Privileges:** Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality.

Additional Privileges

Satoru Osaki, MD, Active Staff
Department of Surgery/Cardiothoracic

- **Cardiothoracic Surgery Core Privileges:** Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the chest and abdomen, including the support structures and vascular supply to the extremities and brain. These privileges include transplantation of the heart and/or lung; ventricular assist devices; pediatric cases within scope of training; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and others in training.

Mary C. Westergaard, MD, Active Staff
Department of Medicine/Emergency Medicine

- Pediatric Moderate Sedation

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Jane E. Anderson, MD
William G. Clancy, Jr, MD
Jennifer E. Lochner, MD

Status Changes

Steven Cattapan, MD, Active to Affiliate, Medicine/Allergy, Pulmonary & Critical Care
Jospeh Holt, III, MD, Courtesy to Active, Medicine/GIM
John G. McCartney, MD, Active to Affiliate, Medicine/Allergy, Pulmonary & Critical Care
