

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff – September 7, 2011

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: August 1, 2011

Medical Board: August 11, 2011

Nathan J. Rudin, M.D., Chair of Medical Board & Vice-
President of Medical Staff

New Applications

Petros V. Anagnostopoulos, MD, Active Staff

Department of Surgery/Cardiothoracic

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Cardiothoracic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the chest and abdomen, including the support structures and vascular supply to the extremities and brain. These privileges include transplantation of the heart and/or lung; ventricular assist devices; pediatric cases within scope of training; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and others in training.

Amy C. Buencamino, MD, Courtesy Staff

Department of Pediatrics/General

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Bo H. Chao, MD, Active Staff

Department of Medicine/Hematology/Oncology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include

care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

- Hematology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the blood and blood-forming tissues. These privileges include, but are not limited to, bone marrow aspiration and biopsy; administration of chemotherapy; the management and care of indwelling venous access catheters; plasmapheresis; therapeutic phlebotomy; lymph node aspiration; bone marrow harvest; and supervision of residents, fellows, and others in training.
- Medical Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with malignancies. These privileges include, but are not limited to, administration of chemotherapeutic agents and biological response modifiers through all therapeutic routes; management and maintenance of indwelling venous access catheters; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Bone marrow harvest
- Hematopoietic progenitor cell component infusion
- Adult Moderate Sedation-- Inside and outside CSC

Rebekah E. Dass, MD, Active Staff

Department of Medicine/General Internal Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

William J. Ehlenbach, MD, Active Staff

Department of Medicine/Allergy, Pulmonary & Critical Care

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Critical Care Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients in need of critical care. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.

- Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Fiberoptic bronchoscopy
- Direct laryngoscopy
- Adult Moderate Sedation-- Inside and outside CSC

David J. Gazeley, MD, Active Staff

Department of Medicine/Rheumatology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Rheumatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with rheumatologic disorders. These privileges include, but are not limited to, diagnostic or therapeutic aspiration or injection of joints, bursae, and tenosynovial structures; percutaneous needle biopsy of the synovium, muscle, and adipose tissue; and supervision of residents, fellows, and others in training.

Jacqueline L. Gerhart, MD, Courtesy Staff

Department of Family Medicine

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Vasectomy
- Circumcision

Jacob A. Greenberg, MD, Active Staff

Department of Surgery/General Surgery

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy
- Stereotatic breast biopsy
- Bariatric & other weight loss surgery
- Surgery/General
- Adult Moderate Sedation-- Within CSC only

David Y. Greenblatt, MD, Active Staff

Department of Surgery/General Surgery

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy
- Stereotatic breast biopsy
- Adult Moderate Sedation-- Inside and outside CSC

Katherine A. Kasper, MD, Active Staff

Department of Pathology and Lab. Medicine

- Anatomic Pathology Core Privileges: Privileges in anatomic pathology include provision of consultation to physicians for diagnosis exclusion, and monitoring of disease utilizing information gathered from examination of tissue specimens, cells and body fluids and performance of autopsies. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

Kirsten M. Kloepfer, MD, Active Staff

Department of Medicine/Allergy, Pulmonary & Critical Care

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not

requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

- Allergy & Immunology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders affecting the immune system. These privileges include, but are not limited to, allergy skin testing and interpretation, allergic desensitization, and supervision of residents, fellows, and others in training.

Meredith A. Lease, MD, Active Staff

Department of Pediatrics/Hospitalist

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Vivian Lee, MD, Active Staff

Department of Ophthalmology/Fellow

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation.

Jamie J. Limjoco, MD, Active Staff

Department of Pediatrics/Neonatology

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Michael T. Lohmeier, MD, Active Staff

Department of Medicine/Emergency Medicine

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of

soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.

- Adult Moderate Sedation-- Inside and outside CSC

Karen K. Milner, MD, Active Staff

Department of Psychiatry/Child

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.
- Child Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat children and adolescents who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

Uchenna O. Njiaju, MD, Active Staff

Department of Medicine/Hematology/Oncology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Hematology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the blood and blood-forming tissues. These privileges include, but are not limited to, bone marrow aspiration and biopsy; administration of chemotherapy; the management and care of indwelling venous access catheters; plasmapheresis; therapeutic phlebotomy; lymph node aspiration; bone marrow harvest; and supervision of residents, fellows, and others in training.
- Medical Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with malignancies. These privileges include, but are not limited to, administration of chemotherapeutic agents and biological response modifiers through all therapeutic routes; management and maintenance of indwelling venous access catheters; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Percutaneous infusion catheter (PICC Line) placement
- Exercise stress testing (for non-cardiologists)
- Flexible fiberoptic proctosigmoidoscopy (for non-gastroenterologists)
- Bone marrow harvest
- Hematopoietic progenitor cell component infusion

Sushant Srinivasan, MD, Active Staff

Department of Pediatrics/Critical Care

- Pediatric Critical Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat infants, children and adolescents in need of critical care. These privileges include, but are not limited to, endotracheal tube intubation; moderate (conscious) sedation; central venous line placement; peripherally inserted central catheter placement (PICC); arterial (peripheral/central) line placement; pleurocentesis; pericardiocentesis; chest tube placement; cardioversion; ventilator management; high frequency/oscillatory ventilation; pulmonary artery catheter

placement and management; extracorporeal membrane oxygenation; and supervision of residents, fellows, and others in training.

David C. Upton, MD, Active Staff

Department of Surgery/Otolaryngology

- Otolaryngology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the head and neck affecting the ears, facial skeleton, and respiratory and upper alimentary system. These privileges include, but are not limited to, surgical procedures involving the temporal bone, nasal and paranasal sinuses, the skull-base, the thyroid, parathyroid, salivary glands, and lymphatic tissue of the head and neck, maxillofacial plastic and reconstructive procedures; sinus endoscopy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Use of surgical laser

Poonam Velagapudi, MBBS, Active Staff

Department of Medicine/Hospitalist

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

Additional Privileges

Janet M. Bellingham, MD, Active Staff

Department of Surgery/Transplant

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Anthony M. D'Alessandro, MD, Active Staff

Department of Surgery/Transplant

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Luis A. Fernandez, MD, Active Staff

Department of Surgery/Transplant

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Eugene F. Foley, MD, Active Staff

Department of Surgery/General Surgery

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

R. Michael Hofmann, MD, Active Staff

Department of Medicine/Nephrology

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Dixon B. Kaufman, MD, PhD, Active Staff

Department of Surgery/Transplant

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Michael R. Lucey, MD, Active Staff

Department of Medicine/Gastroenterology & Hepatology

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Joshua D. Mezrich, MD, Active Staff

Department of Surgery/Transplant

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Maha A. Mohamed, MD, Active Staff

Department of Medicine/Nephrology

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Alexandru I. Musat, MD, Active Staff

Department of Medicine/Gastroenterology & Hepatology

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Jon S. Odorico, MD, Active Staff

Department of Surgery/Transplant

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

John D. Pirsch, MD, Active Staff

Department of Medicine/Nephrology

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Adnan Said, MD, Active Staff

Department of Medicine/Gastroenterology & Hepatology

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Hans W. Sollinger, MD, Active Staff

Department of Surgery/Transplant

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Vijay Vidyasagar, MD, Active Staff

Department of Medicine/Nephrology

- Supervision of Physician Assistant with prescriptive authority (Lindsay Morris, PA)

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Name	Department /Section	Staff Status
Henderson, Sheryl L., MD, PhD	Pediatrics/Infectious Diseases	Active Staff
Speer, Tod W., MD	Human Oncology	Active Staff
Stec, Deborah A., PhD	Psychiatry	Clinical Psychology
