

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff – December 7, 2011

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: November 7, 2011

Medical Board: November 10, 2011

Lee Faucher, M.D., Chair of Medical Board & Secretary
Treasurer of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

New Applications

Apple A. Bodemer, MD, Active Staff

Department of Dermatology

- Dermatology Core Privileges: Privileges to admit, evaluate, diagnose, consult, and treat patients presenting with illnesses and or injuries of the integumentary system. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, excision or other means of removal (including by liposuction) of benign and malignant lesions; curettage; electrosurgery; liquid nitrogen cryosurgery of the skin and other appropriate lesions; nail surgery; actinotherapy treatments (phototherapy- e.g. PUVA); collagen implantation; injectable fillers; Botox injections; dermabrasion; chemical peels; laser treatments; sclerotherapy; dermatopathology; flaps and grafts; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and others in training.

Kristi L. Boelke, MD, Active Staff

Department of Pediatrics/General

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Margaret A. Boyden, MD, Active Staff

Department of Pediatrics/Urgent Care

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Christian M. Capitini, MD, Active Staff

Department of Pediatrics/Hematology/Oncology

- Pediatric Hematology/Oncology Core Privileges: Privileges to admit, evaluate including performance of H&P,

diagnose, consult and treat Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children and adolescents with documented or possible hematologic/oncologic disease. These privileges include, but are not limited to, bone marrow aspiration and bone marrow biopsy; lumbar puncture and administration of intrathecal chemotherapy; interpretation and reading of blood smears and bone marrow aspirates; ordering and interpreting diagnostic tests and procedures required for the care of the above patient population; administration of intravenous and oral chemotherapy/immunotherapy/other agents required for the care of this patient population; management of patients receiving complex care for hematologic and/or oncologic issues including autologous and allogeneic stem cell transplant in multiagent chemotherapy; processing of peripheral blood stem cell harvest for transplant purposes, planning & regimen protocol writing/selection for patients receiving unrelated or mismatched hematopoietic stem cell transplants; percutaneous needle insertion into V-P shunts or similar intracerebral access devices for patients with CNS malignancies; provision of immediate and longitudinal care for adults previously treated for pediatric hematologic or oncologic disease; and supervision of residents, fellows and others in training.

Eric C. Johannsen, MD, Active Staff

Department of Medicine/Infectious Disease

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Infectious Diseases Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with infectious or immunologic diseases. These privileges include supervision of residents, fellows, and other persons in training.

Peter J. Mason, MD, Active Staff

Department of Medicine/Cardiovascular Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Cardiovascular Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the heart and blood vessels. These privileges include, but are not limited to, cardioversion; insertion and management of central venous and pulmonary artery catheters; use of thrombolytic agents; pericardiocentesis; Holter scan interpretation; treadmill testing; temporary transvenous pacemaker placement; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Percutaneous infusion catheter (PICC Line) placement
- Cardiac Imaging: Transthoracic echocardiography
- Cardiac Imaging: Stress echocardiography
- Cardiac Imaging: Nuclear Cardiology
- Peripheral Vascular Interventions: Diagnostic percutaneous peripheral vascular interventions including renal, femoral and brachiocephalic.
- Peripheral Vascular Interventions: Therapeutic percutaneous peripheral vascular interventions including renal, femoral and brachiocephalic.
- Peripheral Vascular Interventions: Diagnostic percutaneous peripheral vascular interventions of the extracranial carotid
- Peripheral Vascular Interventions: Therapeutic percutaneous peripheral vascular interventions of the extracranial carotid
- Percutaneous interventions (primary operator): atherectomy, angioplasty and stent placement

- Percutaneous interventions: Intra-aortic balloon pump placement
- Diagnostic Cardiac Catheterization: Coronary Angiography
- Diagnostic Cardiac Catheterization: Endomyocardial biopsy

Rene E. Staskal, PhD, Clinical Psychology

Department of Psychiatry/General

- Psychological testing: children (under 12)
- Psychological testing: adolescents
- Individual psychotherapy: children (play)
- Individual psychotherapy: adolescents
- Behavior modification
- Family therapy
- Group therapy
- Psychoeducational testing
- Psychological consultation

Adam D. Wolfe, MD, Active Staff

Department of Pediatrics/Urgent Care

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Additional Privileges

Edwin J. Abel, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Richard N. Barney, MD, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

Rudolph D. Bescherer, Jr., DO, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

Sara L. Best, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Wade A. Bushman, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Tracy M. Downs, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Andrew K. Graf, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Sean P. Hedican, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

David F. Jarrard, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Granville L. Lloyd, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Michael T. Lohmeier, MD, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

Sarah E. McAchran, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Sabina B. Modelska, DO, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

Timothy D. Moon, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Stephen Y. Nakada, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Todd A. Nelson, MD, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

David R. Paolone, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Brian T. Parquette, MD, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

Paul H. Rehnstrom, DO, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

Scott T. Schlais, MD, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

Louis Scrattish, MD, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

Sushant Srinivasan, MD, Active Staff

Department of Pediatrics/Critical Care

- Pediatric Deep Sedation

James E. Svenson, MD, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

John D. Wegenke, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Daniel H. Williams, IV, MD, Active Staff

Department of Urology

- Supervision of Physician Assistant with prescriptive authority (Jenna Brink, PA)

Wade W. Woelfle, MD, Active Staff

Department of Medicine/Emergency Medicine

- Adult Deep Sedation

Reappointments

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments and are recommended to the Medical Board for approval/action:
