

**University of Wisconsin Hospitals and Clinics Board of Directors**  
**Review of Medical Staff –November 7, 2012**

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: October 1, 2012,  
Medical Board: October 11, 2012

  
Nathan Rudin, M.D., Chair of Medical Board & President  
of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

**New Applications**

**Trina J. Hollatz, MD, Active Staff**

**Department of Medicine/Allergy, Pulmonary & Critical Care**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Critical Care Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients in need of critical care. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.
- Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Fiberoptic bronchoscopy
- Direct laryngoscopy
- Percutaneous needle biopsy of the pleural
- Adult Moderate Sedation-- Inside and outside CSC

**David S. Kiefer, MD, Active Staff**

**Department of Family Medicine**

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there

is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and other persons in training.

- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

**Christine J. Kolehmainen, MD, Active Staff**  
**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

**Kirstin A. Nackers, MD, Active Staff**  
**Department of Pediatrics/General**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

**Robert D. Woodson, MD, Courtesy Staff**  
**Department of Medicine/General Internal Medicine**

NOTE: Privileges are for TEACHING purposes only--NO independent practice

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in

training. These privileges also include care of patients via telemedicine.

### Additional Privileges

Suresh K. Agarwal, MD, Active Staff

Department of Surgery/General Surgery

- Supervision of physician assistant with prescriptive authority (Jennifer Wilson, PA)

Kim C. Mackey, MD, Active Staff

Department of Obstetrics and Gynecology

- Robotic Surgery

Carla M. Pugh, MD, Active Staff

Department of Surgery/General Surgery

- Supervision of physician assistant with prescriptive authority (Jennifer Wilson, PA)

### Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Chen, Judy, MD	Ophthalmology	Active Staff
Cook, Jessica W., PhD	Medicine/General Internal Medicine	Clinical Psychology
Damewood, Sara C., MD	Medicine/Emergency Medicine	Active Staff
Hinshaw, Molly A., MD	Dermatology	Active Staff
Kelly, John T., MD	Medicine/Allergy, Pulmonary & Critical Care	Active Staff
Lemmon, Russell L., DO	Family Medicine	Active Staff
Neary, Paul J., MD	Pediatrics/General	Active Staff
Pugh, Carla M., MD	Surgery/General Surgery	Active Staff
Voss, Jaime M., PsyD	Psychiatry/General	Clinical Psychology
Williamson, Shawn S., MD	Medicine/Emergency Medicine	Active Staff

### Reappointments

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments and are recommended to the Medical Board for approval/action:

NOTE: Committee members abstained from voting on their own applications

Name	Department /Section	Staff Status
Adams, Alexandra K., MD	Family Medicine	Active Staff
Agarwal, Parul D., MD	Medicine/Gastroenterology & Hepatology	Active Staff

### Professional Privileges

#### Amanda M. Adams, NP, UW Advance Practice Nurse

##### Department of Medicine/Cardiovascular Medicine

- Cardiovascular Medicine NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with cardiovascular disease in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering cardioversion and invasive cardiac test including but not limited to cardiac catheterization, pericardiocentesis and respiratory therapy.

#### Joy L. Amundson, NP, UW Advance Practice Nurse

##### Department of Medicine/Cardiovascular Medicine

Cardiovascular Medicine NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with cardiovascular disease in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering cardioversion and invasive cardiac test including but not limited to cardiac catheterization, pericardiocentesis and respiratory therapy.

#### Michelle Masson, NP, UW Advance Practice Nurse

##### Department of Ophthalmology

- Ophthalmology (Adult) NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, consult and manage adolescent and adult patients undergoing ophthalmologic surgery. This care will be delivered in the context of pre-operative history and physical assessment of this patient population in the outpatient settings in collaboration with physician members of the medical staff. These privileges also ordering respiratory therapy.
- Ophthalmology (Pediatric) NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, consult and manage pediatric patients undergoing ophthalmologic surgery. This care will be delivered in the context of pre-operative history and physical assessment of this patient population in the outpatient settings in collaboration with physician members of the medical staff. These privileges also ordering respiratory therapy.
- Prescriptive authority

**Tara G. Morgan, NP, UW Advance Practice Nurse**  
**Department of Medicine/Allergy, Pulmonary & Critical Care**

- Allergy, Pulmonary & Critical Care/Pulmonology NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with pulmonary disease in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy.
- Prescriptive authority
- Blood product ordering

**Gabriel A. Morrison, CRNA, UW Advance Practice Nurse**  
**Department of Anesthesiology**

- Certified Registered Nurse Anesthetist Core Privileges: preanesthesia evaluation and preparation, administration of general and regional anesthesia and all levels of sedation techniques, and postanesthesia care for children, adolescent, and adult patients under the direct supervision of physician members of the medical staff. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. May also order respiratory therapy.

**Jennifer B. Wilson, PA, UW Physician Assistant**  
**Department of Surgery/General Surgery**

- General Surgery PA Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Use of silver nitrate for chemical cautery; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. These privileges also include ordering respiratory therapy.
- Prescriptive Authority
- Assist in surgery to include, but not limited to, first assist on major or minor surgeries

**Additional Privileges**

**Erin E. Billmeyer, NP, UW Advance Practice Nurse**  
**Department of Medicine/Allergy, Pulmonary & Critical Care**

- Prescriptive authority

**Daniella Gery, NP, UW Advance Practice Nurse**  
**Department of Urology**

- Verapamil penile injection

**Heidi P. Walaski, NP, UW Advance Practice Nurse**  
**Department of Medicine/Geriatrics**

MIDUS study Institute on Aging

- CRU NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients enlisted by principal investigators to serve as subjects for designated studies in the Clinical and Translational Research Core and areas where IRB approved studies are being

conducted. This care is provided in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy.

- CRU-Alzheimer's Research (Geriatric) NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adult patients with mild cognitive impairments, patients with Alzheimer's Disease, and healthy adults for research purposes enlisted by principal investigators to serve as subjects for designated studies in the Clinical and Translational Research Core, GRECC research space and the Wisconsin Comprehensive Memory Program's research space in UWHC. This care is provided in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy.
- Prescriptive authority

**Jessica L. Wirkus, NP, UW Advance Practice Nurse**  
**Department of Obstetrics and Gynecology/Gynecological Oncology**

- Endometrial biopsy
- Vulvar biopsy
- Wound debridement

**Focused Professional Practice Evaluation Review**

The following focused review applications have been endorsed by the UWHC Credentials Committee after review by their applicable sub-committees and are recommended to the Medical Board for approval/action:

Kathryn McComb, PA, Medicine: Nephrology

Molly Szotkowski, NP, Surgery: Peripheral Vascular

Jenna Wilke, NP, Radiology
