

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff –September 2, 2014

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: June 27, 2014

Medical Board: July 10, 2014

Nathan Rudin, M.D., Chair of Medical Board & President
of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

New Applications

Adebisi O. Alimi, MD, Active Staff

Department of Medicine/Hospitalist

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.

Hiba Bashir, MD, Active Staff

Department of Pediatrics/Allergy/Immunology

- Pediatric Allergy/Immunology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children and adolescents with documented or possible allergic or immunologic diseases. These privileges include, but are not limited to, allergy and immunotherapy; bronchoprovocation testing; skin testing; provision of immediate and longitudinal care for adults previously treated for pediatric allergy or immunologic diseases; and supervision of residents, fellows and others in training.

Jagroop S. Basraon, DO, Active Staff

Department of Medicine/Cardiovascular Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Cardiovascular Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the heart and blood vessels. These privileges include, but are not limited to, cardioversion; insertion and management of central venous and pulmonary artery catheters; use of

thrombolytic agents; pericardiocentesis; Holter scan interpretation; treadmill testing; temporary transvenous pacemaker placement; and supervision of residents, fellows, and others in training.

- Central venous catheter insertion for access
- Electrophysiology Procedures: Electrophysiology studies
- Electrophysiology Procedures: Permanent pacemaker selection and implementation

Mark J. Biagtan, MD, Active Staff

Department of Pediatrics/Allergy/Immunology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Allergy & Immunology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders affecting the immune system. These privileges include, but are not limited to, allergy skin testing and interpretation, allergic desensitization, and supervision of residents, fellows, and others in training.

Justin L. Brucker, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation.
- Adult Moderate Sedation-- Within CSC only

Melissa N. Dattalo, MD, Active Staff

Department of Medicine/General Internal Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training
- Geriatric Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat patients presenting with diseases and disorders of the elderly. These privileges include supervision of residents, fellows, and others in training.

Michael A. Esquivel, MD, Active Staff

Department of Anesthesiology/General

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. Supervision of Anesthesiologist Assistants is included in these privileges. These privileges include supervision of residents, fellows, and other persons in training.

Kara N. Goss, MD, Active Staff

Department of Medicine/Allergy, Pulmonary & Critical Care

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Fiberoptic bronchoscopy
- Direct laryngoscopy
- Adult Moderate Sedation—Inside and outside CSC

Alexandra Ilkevitch, MD, Active Staff

Department of Orthopedics and Rehabilitation/Rehab Medicine

- Rehabilitation Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with acute or chronic neuromuscular disease or disabilities. These privileges include, but are not limited to, anesthetic nerve block; arthrocentesis, electrodiagnosis, injection of neuromuscular block; neurolytic nerve block; soft tissue injection; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

Thomas J. Knudtson, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.

Taryn A. Lawler, DO, Active Staff

Department of Family Medicine/General

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; arthrocentesis; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and other persons in training
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

Ramyar Mahdavi, MD, Active Staff

Department of Medicine/Allergy, Pulmonary & Critical Care

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Critical Care Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patients in need of critical care. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.
- Pulmonary Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the organs of the thorax or chest. These privileges include, but are not limited to, management of mechanical ventilation; management of noninvasive ventilation; pulmonary function testing (including methacholine challenges) and interpretation; sleep study testing and interpretation; endotracheal intubation; chest tube placement; pulmonary treadmill exercise testing; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Fiberoptic bronchoscopy
- Direct laryngoscopy
- Percutaneous needle biopsy of the pleural
- Adult Moderate Sedation—Inside and outside CSC

Eric J. Nolan, MD, Active Staff

Department of Medicine/Hospitalist

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

Jagan Ramamoorthy, MD, Active Staff

Department of Anesthesiology/General

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods. Supervision of Anesthesiologist Assistants is included in these privileges. These privileges include supervision of residents, fellows, and other persons in training.
- Critical Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patients in need of critical care. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.

Erica L. Riedesel, MD, Active Staff

Department of Radiology/Pediatric Imaging

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Image guided percutaneous biliary dilatation, drainage, ballooning, stenting or biopsy
- Image guided urological dilatation, drainage, ballooning, stenting or biopsy
- Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms
- Image guided needle, biopsy, ablation, drainage or aspiration
- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality
- Adult Moderate Sedation-- Within CSC only

Masoud M. Taslimi, MD, Active Staff

Department of Obstetrics and Gynecology/Maternal Fetal Medicine

- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.

Ryan J. Thompson, MD, Active Staff

Department of Emergency Medicine

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; and supervision of residents, fellows, and others in training.
- Point of Care Emergency Ultrasound

Andrew J. Walker, MD, Active Staff

Department of Medicine/Gastroenterology & Hepatology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Gastroenterology and Hepatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the alimentary tract and associated organs. These privileges include, but are not limited to, diagnostic upper gastrointestinal endoscopy; therapeutic upper gastrointestinal endoscopy (treatment of bleeding lesions, sclerotherapy or banding of esophageal or proximal gastric varices, removal of foreign bodies, removal of polypoid lesions, dilation of stenotic lesions with transendoscopic balloon dilators or dilating systems with guidewires, palliative treatment of stenosing neoplasms); colonoscopy with polypectomy; liver biopsy; and supervision of residents, fellows, and others in training.
- Endoscopic Retrograde Cholangiopancreatography (ERCP): Endoscopic sphincterotomy of the Sphincter of Oddi, or placement of stents in biliary or pancreatic ducts

- Upper Gastrointestinal and Enteric: Endoscopic injection of botulism toxin for achalasia
- Upper Gastrointestinal and Enteric: Percutaneous endoscopic gastrostomy (PEG) or jejunostomy (JEG) placement
- Upper Gastrointestinal and Enteric: Pneumatic dilation for achalasia
- Upper Gastrointestinal and Enteric: Esophageal or enteric stent placement
- Sonography: Endoscopic sonography without fine needle aspiration
- Sonography: Endoscopic sonography with fine needle aspiration
- Manometry: Esophageal motility testing
- Manometry: Anorectal manometry
- Tumor ablation
- Adult Moderate Sedation—Inside and outside CSC

Shane A. Wells, MD, Active Staff

Department of Radiology/Abdominal Imaging

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees
- Imaged guided catheter placement
- Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms
- Imaged guided needle, biopsy, ablation, drainage or aspiration
- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality
- Adult Moderate Sedation—Inside and outside CSC

Chad W. Whited, MD, Active Staff

Department of Surgery/Fellow

- Otolaryngology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the head and neck affecting the ears, facial skeleton, and respiratory and upper alimentary system. These privileges include, but are not limited to, surgical procedures involving the temporal bone, nasal and paranasal sinuses, the skull-base, the thyroid, parathyroid, salivary glands, and lymphatic tissue of the head and neck, maxillofacial plastic and reconstructive procedures; sinus endoscopy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Use of surgical laser

Ryan W. Woods, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Adult Moderate Sedation-- Within CSC only

Additional Privileges

Barbara L. Knox, MD, Active Staff

Department of Pediatrics/Bioethics and Child Abuse

- Supervision of Amanda Palm, PA with prescriptive authority

Professional Privileges-- New Applications

Mary Jo Baumann, NP, UW Advance Practice Nurse

Department of Obstetrics and Gynecology/Women's Health

- OB/GYN NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult women and those with acute and chronic gynecologic issues in the outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority
- Endometrial biopsy
- Implanon/Nexplanon insertion and removal
- IUD insertion
- IUD removal
- Skin tag or wart removal
- Vulvar biopsy

Krystal J. Boardman, NP, UW Advance Practice Nurse

Department of Obstetrics and Gynecology/Women's Health

- OB/GYN NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult women and those with acute and chronic gynecologic issues in the outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority
- Endometrial biopsy
- Implanon/Nexplanon insertion and removal
- IUD insertion
- IUD removal
- Skin tag or wart removal
- Vulvar biopsy

Lisa A. Dailey, NP, UW Advance Practice Nurse

Department of Pediatrics/Neonatology

- Pediatrics/Neonatology NP Core Privileges: Under the direction of and in collaboration with a physician, the NP is granted privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage premature & critically ill neonatal patients and ill newborns through 6 months of life. These privileges include but are not limited to the following core procedures: arterial lines insertion; umbilical catheter insertion (arterial or venous catheter); endotracheal tube placement/intubation; PICC insertion; thoracentesis, suturing, and wound debridement. These privileges include ordering respiratory therapy and blood products. This care is provided in inpatient settings and requires a designated collaborating physician with clinical privileges at this hospital in the same area of specialty practice and is in accordance with a written agreement, policies, and protocols developed and approved by the relevant clinical department. Professional privileges are an agreement between the NP and collaborating physician.
- Prescriptive authority

Amanda L. Palm, PA, UW Physician Assistant

Department of Pediatrics/Bioethics and Child Abuse

- Pediatric Bioethics and Child Abuse PA Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, colposcopic genital examination, forensic evidence collection, forensic interview and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures, including, but not limited to, injections, immunizations, and the suturing and care of wounds; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. These privileges also include ordering respiratory therapy.

Professional Privileges—Additional Privileges

Katie E. Dudley, PA-C, UW Physician Assistant
Department of Radiology/Interventional Radiology

- Tunneled line removal

Rebecca J. Hartwell, PA, UW Physician Assistant
Department of Orthopedics and Rehabilitation/Orthopedic Surgery

- Additional supervising physicians--Drs. Paul Anderson, Clifford Tribus, Seth Williams, and Thomas Zdeblick

Teresa L. Lincicum, NP, UW Advance Practice Nurse
Department of Surgery/General Surgery

- Chest tube removal

Karie P. Schmidt, NP, UW Advance Practice Nurse
Department of Radiology/Interventional Radiology

- Chest tube removal

Respectfully submitted,

Michele D. Klaus, CPMSM
