

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff –September 9, 2015

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff and other providers requesting professional privileges for practice at UWHC. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: July 29, 2015

Medical Board: July 9, 2015

Lee Faucher, M.D., Chair of Medical Board & President
of Medical Staff

The following actions were endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action.

New Applications

Sarah L. Averill, MD, Active Staff

Department of Radiology/Fellow

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including radiographs, ultrasound, CT, MRI, diagnostic (non-therapeutic) nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, Doppler vascular imaging, transcranial Doppler, arthrograms and joint aspirations, venography of major vessels, lumbar puncture, mammography and supervision of residents, fellows and other trainees.
- Adult Moderate Sedation-- Inside and outside CSC

Andleeb S. Bangash, MD, Active Staff

Department of Medicine/Fellow

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Cardiovascular Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the heart and blood vessels. These privileges include, but are not limited to, cardioversion; insertion and management of central venous and pulmonary artery catheters; use of thrombolytic agents; pericardiocentesis; Holter scan interpretation; treadmill testing; temporary transvenous pacemaker placement; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Inside and outside CSC

Erik A. Bowman, MD, Active Staff

Department of Medicine/Gastroenterology & Hepatology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Gastroenterology and Hepatology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the alimentary tract and associated organs. These privileges include, but are not limited to, diagnostic upper gastrointestinal endoscopy; therapeutic upper gastrointestinal endoscopy (treatment of bleeding lesions, sclerotherapy or banding of esophageal or proximal gastric varices, removal of foreign bodies, removal of polypoid lesions, dilation of stenotic lesions with transendoscopic balloon dilators or dilating systems with guidewires, palliative treatment of stenosing neoplasms); colonoscopy with polypectomy; liver biopsy; and supervision of residents, fellows, and others in training.
- Upper Gastrointestinal and Enteric: Endoscopic injection of botulism toxin for achalasia
- Upper Gastrointestinal and Enteric: Percutaneous endoscopic gastrostomy (PEG) or jejunostomy (JEG) placement
- Adult Moderate Sedation-- Inside and outside CSC

Anna B. Corey, MD, Active Staff

Department of Medicine/Infectious Disease

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Infectious Diseases Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with infectious or immunologic diseases. These privileges include supervision of residents, fellows, and other persons in training.

Elizabeth A. Felton, MD, Active Staff

Department of Neurology

- Neurology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and provide medical treatment to patients presenting with illnesses or injuries of the neurological system. These privileges include, but are not limited to, lumbar puncture; EEG interpretation and operative monitoring; EMG and nerve conduction studies; muscle and nerve biopsy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Neurocritical Care Core Privileges: Privileges to admit, evaluate (including H&P), diagnose, consult and provide medical treatment to patients with critical illnesses or injuries of the brain, spinal cord, nerves, vessels, and their supporting structures with associated medical problems complicating their care.

Angela M. Ingraham, MD, Active Staff

Department of Surgery/General Surgery

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and

complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

- Critical Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat, as an attending physician, adult patients in need of critical care within an ICU type setting. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.

Stuart W. Jones, MD, Active Staff
Department of Psychiatry

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

Matthew W. Louie, MD, Active Staff
Department of Medicine/Hematology/Oncology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.

Jessica P. McGee, MD, Active Staff
Department of Pediatrics/General

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.

Jordan P. Mills, DO, Active Staff
Department of Family Medicine/Fellow

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; arthrocentesis; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture;

preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows, and other persons in training.

- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

Brendon M. Nacewicz, MD, Active Staff

Department of Psychiatry

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

Cheryl C. Nocon, MD, Active Staff

Department of Surgery/Otolaryngology

- Otolaryngology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the head and neck affecting the ears, facial skeleton, and respiratory and upper alimentary system. These privileges include, but are not limited to, surgical procedures involving the temporal bone, nasal and paranasal sinuses, the skull-base, the thyroid, parathyroid, salivary glands, and lymphatic tissue of the head and neck, maxillofacial plastic and reconstructive procedures; sinus endoscopy; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Use of surgical laser

Jazmin D. Parcon, MD, Active Staff

Department of Obstetrics and Gynecology/Gynecology

- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.
- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.

- Note--No Pregnancy Termination per physician

Megan E. Peters, MD, Active Staff

Department of Pediatrics/Critical Care

- Pediatric Critical Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat infants, children and adolescents in need of critical care. These privileges include, but are not limited to, endotracheal tube intubation; moderate (conscious) sedation; central venous line placement; peripherally inserted central catheter placement (PICC); arterial (peripheral/central) line placement; pleurocentesis; pericardiocentesis; chest tube placement; cardioversion; ventilator management; high frequency/oscillatory ventilation; pulmonary artery catheter placement and management; extracorporeal membrane oxygenation; and supervision of residents, fellows, and others in training.
- Pediatric Moderate Sedation-- All UWHC facilities

Saurabh A. Rajguru, MD, Active Staff

Department of Medicine/Hematology/Oncology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Hematology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the blood and blood-forming tissues. These privileges include, but are not limited to, bone marrow aspiration and biopsy; administration of chemotherapy; the management and care of indwelling venous access catheters; plasmapheresis; therapeutic phlebotomy; lymph node aspiration; bone marrow harvest; and supervision of residents, fellows, and others in training.
- Medical Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with malignancies. These privileges include, but are not limited to, administration of chemotherapeutic agents and biological response modifiers through all therapeutic routes; management and maintenance of indwelling venous access catheters; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Inside and outside CSC

John E. Scarborough, MD, Active Staff

Department of Surgery/General Surgery

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, laparoscopic surgery, upper gastrointestinal endoscopy, colonoscopy, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Critical Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat as an attending physician adult patients in need of critical care within an ICU type setting. These privileges include, but are not limited to, Swan Ganz catheter insertion and management; endotracheal intubation; management of mechanical ventilation; management of noninvasive ventilation; fiberoptic bronchoscopy; direct laryngoscopy; chest tube placement; and supervision of residents, fellows, and others in training.
- Adult Moderate Sedation-- Inside and outside CSC

Kyle I. Swanson, MD, Active Staff

Department of Neurological Surgery/Fellow

- Neurological Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the neurological system, including the supporting structures and vascular supply. These privileges include, but are not limited to, craniotomy and craniectomy; reconstructive cranioplasty; laminectomy; spinal fusion; chemonucleolysis; percutaneous discectomy; transsphenoidal hypophysectomy; CSF shunting procedures; radiofrequency chemical rhizotomy/chordotomy; intracarotid injection; peripheral nerve surgery; intra-extracranial anastomosis; carotid endarterectomy; myelomeningocele repair; neurostimulation and recording; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and pH by paper methods; and supervision of residents, fellows and others in training.
- Neurocritical Care Core Privileges: Privileges to admit, evaluate (including H&P), diagnose, consult and provide medical treatment to patients with critical illnesses or injuries of the brain, spinal cord, nerves, vessels, and their supporting structures with associated medical problems complicating their care.
- Adult Moderate Sedation-- Inside and outside CSC

Thomas C. Teelin, MD, Active Staff

Department of Medicine/Cardiovascular Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and pH by paper methods and supervision of residents, fellows, and others in training.
- Cardiovascular Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the heart and blood vessels. These privileges include, but are not limited to, cardioversion; insertion and management of central venous and pulmonary artery catheters; use of thrombolytic agents; pericardiocentesis; Holter scan interpretation; treadmill testing; temporary transvenous pacemaker placement; and supervision of residents, fellows, and others in training.
- Cardiac Imaging: Transthoracic echocardiography
- Cardiac Imaging: Transesophageal echocardiography
- Cardiac Imaging: Stress echocardiography
- Electrophysiology Procedures: Electrophysiology studies
- Electrophysiology Procedures: Permanent pacemaker selection and implementation
- Adult Moderate Sedation-- Inside and outside CSC

Haleh Van Vliet, MD, Active Staff

Department of Emergency Medicine

- Emergency Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, and treat patients presenting with any illness, injury, condition or symptom to the Emergency Department. These privileges include, but are not limited to, lumbar puncture; thoracentesis; paracentesis; central line placement; intubation and emergency airway management; emergency cardioversion; repair of soft tissue injuries; management of closed fractures; supervision of physician assistants with prescriptive authority; and supervision of residents, fellows, and others in training.
- Deep Sedation--Adults (14 years and older)
- Point of Care Emergency Ultrasound
- Adult Moderate Sedation-- Inside and outside CSC
- Pediatric Moderate Sedation-- All UWHC facilities

Additional Privileges

Wendy B. DeMartini, MD, Active Staff

Department of Radiology/Breast Imaging

- Adult Moderate Sedation-- Within CSC and/or UW Health at the American Center only

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Arpali	Emre		MD	Surgery	Fellow
Bartkus	Ryan	P	MD	Medicine	General Internal Medicine
Czyzewski	E. Ann		MD	Human Oncology	
Griffith	Brian	D	MD	Medicine	Allergy, Pulm & Crit Care
Hogendorn	Courtney	T	MD	Ortho/Rehab	Rehab Medicine
Roets	Cheryl	J	PhD	Psychiatry	General
Saeed	Anwaar	M	MD	Medicine	Hematology/Oncology

Status Changes

Jason Stangl, MD, Medicine, Courtesy to Active

Professional Privileges-- New Applications

Kelly L. Burley, AA-C, UW Anesthesiologist Assistant

Department of Anesthesiology

- Anesthesiologist Assistant - Certified Professional Privileges: Under the direction and supervision of the responsible and credentialed Anesthesiologist(s) who possesses UWHC privileges, an Anesthesiologist Assistant may perform the following: preanesthesia evaluation and preparation; administration of general and regional anesthesia and all levels of sedation techniques; postanesthesia care for children, adolescent, and adult patients; and assess, stabilize, and determine disposition of patients with emergent conditions consistent with policy regarding emergency and consultative call services. These privileges also include ordering respiratory therapy.

Jessica R. Callisto, PA, UW Physician Assistant

Department of Emergency Medicine

- General PA Core Professional Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of any patient regardless of age and in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, incision and drainage of abscess, injections, suturing, wound care, and ordering respiratory therapy and blood products.
- Prescriptive Authority

Karoline L. Canada, NP, UW Advance Practice Nurse

Department of Pediatrics/Cardiology

- Pediatrics/Cardiology NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage pediatric patients with documented or possible cardiac disease and adult patients with congenital heart disease. This care is provided in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority

William A. Filbey, II, AA-C, UW Anesthesiologist Assistant

Department of Anesthesiology

- Anesthesiologist Assistant - Certified Professional Privileges: Under the direction and supervision of the responsible and credentialed Anesthesiologist(s) who possesses UWHC privileges, an Anesthesiologist Assistant may perform the following: preanesthesia evaluation and preparation; administration of general and regional anesthesia and all levels of sedation techniques; postanesthesia care for children, adolescent, and adult patients; and assess, stabilize, and determine disposition of patients with emergent conditions consistent with policy regarding emergency and consultative call services. These privileges also include ordering respiratory therapy.

Emily S. Herzog, NP, UW Advance Practice Nurse

Department of Emergency Medicine

- Adult NP Core Professional Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of adolescent and adult patients in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, injections, and ordering respiratory therapy and blood products.
- Pediatric NP Core Professional Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of pediatric patients in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, injections, and ordering respiratory therapy and blood products.
- Prescriptive Authority

Jacqueline A. Holquist, CRNA, UW Advance Practice Nurse

Department of Anesthesiology

- Certified Registered Nurse Anesthetist Core Privileges: preanesthesia evaluation and preparation, administration of general and regional anesthesia and all levels of sedation techniques, and postanesthesia care for children, adolescent, and adult patients under the direct supervision of physician members of the medical staff. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. May also order respiratory therapy.

Peta Gaye Johnson, CRNA, UW Advance Practice Nurse

Department of Anesthesiology

- Certified Registered Nurse Anesthetist Core Privileges: preanesthesia evaluation and preparation, administration of general and regional anesthesia and all levels of sedation techniques, and postanesthesia care for children, adolescent, and adult patients under the direct supervision of physician members of the medical staff. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. May also order respiratory therapy.

Gabrielle M. Nunnari, AA-C, UW Anesthesiologist Assistant

Department of Anesthesiology

- Anesthesiologist Assistant - Certified Professional Privileges: Under the direction and supervision of the responsible and credentialed Anesthesiologist(s) who possesses UWHC privileges, an Anesthesiologist Assistant may perform the following: preanesthesia evaluation and preparation; administration of general and regional anesthesia and all levels of sedation techniques; postanesthesia care for children, adolescent, and adult patients; and assess, stabilize, and determine disposition of patients with emergent conditions consistent with policy regarding emergency and consultative call services. These privileges also include ordering respiratory therapy.

Jeffrey J. Oryall, PA-C, UW Physician Assistant

Department of Orthopedics and Rehabilitation/Orthopedic Surgery

- General PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to: Attending initially a patient of any age in any setting to obtain a medical history, perform a physical examination, and record and present pertinent data concerning the patient in a manner meaningful to the supervising physician; Performing, or assisting in performing, routine diagnostic studies as appropriate for a specific practice setting; Performing routine therapeutic procedures,

including, but not limited to, injections, immunizations, and the suturing and care of wounds; Instructing and counseling a patient on physical and mental health; including diet, disease, treatment and normal growth and development; Assisting the supervising physician in a hospital or facility by assisting in surgery, making patient rounds, recording patient progress notes, compiling and recording detailed narrative case summaries and accurately writing or executing orders under physician supervision; Assisting in the delivery of medical care by reviewing and monitoring treatment and therapy plans; Facilitating referrals to other appropriate community healthcare facilities, agencies and resources. These privileges also include ordering respiratory therapy.

- Orthopedic Surgery and Rehabilitation Medicine PA Core Professional Privileges: Under the direction and supervision of the responsible physician(s), the PA may perform the following, including but not limited to, history and physical; administer digital block, regional anesthesia, isolated peripheral nerve anesthesia, field infiltrations of anesthetic solutions; apply, remove, and change dressings and bandages; counsel and instruct patients, families, and caregivers as appropriate; debridement, suture, and general care for superficial wounds and minor superficial surgical procedures; direct care as specified by medical staff approved protocols; implement therapeutic intervention for specific conditions when appropriate; initiate appropriate referrals; make daily rounds on hospitalized patients; make preoperative and postoperative teaching visits with patients; order and initial interpretation of diagnostic testing and therapeutic modalities, such as routine laboratory tests; medications; hemodynamic monitoring; treatments; IV fluids and electrolytes; EMG; electrocardiogram; and radiologic examinations, including arthrogram, ultrasound, CT, MRI, and bone scan studies, etc.; order, prescribe, dispense, and administer orthosis, orthotics, braces, and other orthopedic devices as may be allowed by state legislation; perform compartment pressure measurements; perform venous punctures for blood sampling, cultures, and IV catheterization; record progress notes; dictate discharge summaries; and apply braces, casts, splints, and other orthopedic appliances. Assist in surgery to include, but not limited to, first assist, deep and simplified tissue closures, application of appliances, and any other action delegated by the orthopedic surgeon.
- Prescriptive Authority

Kathleen Patterson, NP, UW Advance Practice Nurse

Department of Emergency Medicine

****Reintroduction Plan in Place****

- Adult NP Core Professional Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of adolescent and adult patients in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, injections, and ordering respiratory therapy and blood products.
- Pediatric NP Core Professional Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of pediatric patients in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, injections, and ordering respiratory therapy and blood products.
- Prescriptive Authority

Lynn P. Posick, NP, UW Advance Practice Nurse

Department of Orthopedics and Rehabilitation/Orthopedic Surgery

- Ortho/Rehab-Orthopedics (Adult)NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with orthopedic injuries or disorders, including pre- and postoperative care, in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Ortho/Rehab-Rehabilitation (Adult) NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with rehabilitation needs and diagnoses in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority
- RN First Assist
- Intraarticular or intrabursal injections
- Suturing

Athanasia B. Schreiner, NP, UW Advance Practice Nurse

Department of Medicine/Cardiovascular Medicine

- Cardiovascular Medicine NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage adolescent and adult patients with cardiovascular disease in inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering blood products, cardioversion and invasive cardiac test including but not limited to cardiac catheterization, pericardiocentesis, and respiratory therapy.
- Prescriptive authority

Krista K. Skjervem, PA-C, UW Physician Assistant

Department of Medicine/Hospital Medicine

- General PA Core Professional Privileges: Privileges to assess/evaluate, perform history and physical, diagnose, consult, manage, prevent disease and promote the health of any patient regardless of age and in any setting. Treatment of these patients includes the following, but not limited to, ordering and performing diagnostic studies, performing routine therapeutic procedures, incision and drainage of abscess, injections, suturing, wound care, and ordering respiratory therapy and blood products.
- Prescriptive Authority

Angela M. Solomon, AA-C, UW Anesthesiologist Assistant

Department of Anesthesiology

- Anesthesiologist Assistant - Certified Professional Privileges: Under the direction and supervision of the responsible and credentialed Anesthesiologist(s) who possesses UWHC privileges, an Anesthesiologist Assistant may perform the following: preanesthesia evaluation and preparation; administration of general and regional anesthesia and all levels of sedation techniques; postanesthesia care for children, adolescent, and adult patients; and assess, stabilize, and determine disposition of patients with emergent conditions consistent with policy regarding emergency and consultative call services. These privileges also include ordering respiratory therapy.

Krista M. Vandenberg, NP, UW Advance Practice Nurse

Department of Medicine/Geriatrics

- Geriatrics NP Core Privileges: Privileges to promote health, prevent disease, assess/evaluate including performance of H & P, diagnose, consult and manage diseases and disorders of older adults and those generally associated with aging. This care is provided in the inpatient and outpatient settings in collaboration with physician members of the medical staff. These privileges also include ordering respiratory therapy and blood product ordering.
- Prescriptive authority
