

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff – November 3, 2010

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: August 30, 2010
Medical Board: September 9, 2010

Christopher G. Green, M.D., Chair of Medical Board &
President of Medical Staff

New Applications

Edwin J. Abel, MD, Active Staff
Department of Urology

- Urology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses or injuries of the genitourinary system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Use of surgical laser
- Laparoscopic urologic procedures
- Adult Moderate Sedation-- Within CSC only

Fotios Asimakopoulos, MD, PHD, Active Staff
Department of Medicine/Hematology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Hematology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases and disorders of the blood and blood-forming tissues. These privileges include, but are not limited to, bone marrow aspiration and biopsy; administration of chemotherapy; the management and care of indwelling venous access catheters; plasmapheresis; therapeutic phlebotomy; lymph node aspiration; bone marrow harvest; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

Christopher E. Kurtz, MD, Active Staff
Department of Medicine/Cardiovascular Medicine

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood,

- urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Cardiovascular Medicine Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with diseases of the heart and blood vessels. These privileges include, but are not limited to, cardioversion; insertion and management of central venous and pulmonary artery catheters; use of thrombolytic agents; pericardiocentesis; Holter scan interpretation; treadmill testing; temporary transvenous pacemaker placement; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Cardiac Imaging: Transthoracic echocardiography
- Cardiac Imaging: Transesophageal echocardiography
- Cardiac Imaging: Stress echocardiography
- Diagnostic Cardiac Catheterization: Coronary Angiography
- Adult Moderate Sedation-- Inside and outside CSC

Alexander J. Lepak, MD, Active Staff
Department of Medicine/Infectious Disease

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Infectious Diseases Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with infectious or immunologic diseases. These privileges include supervision of residents, fellows, and other persons in training.

Maha A. Mohamed, MD, Active Staff
Department of Medicine/Nephrology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Nephrology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with illnesses, injuries, and disorders of the kidneys. These privileges include, but are not limited to, placement of temporary vascular access for hemodialysis; management of acute and chronic hemodialysis; placement of temporary catheter for peritoneal dialysis; management of peritoneal dialysis; continuous renal replacement therapy; initiation and supervision of continuous ultrafiltration/dialysis; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Percutaneous needle biopsy of the kidney

Ann P. O'Rourke, MD, MPH, Active Staff
Department of Surgery/General Surgery

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal

occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy

Cameron F. Parsa, MD, Active Staff
Department of Ophthalmology/General

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training. (* This does not include the procedures requiring fellowship training listed under special competence areas.)
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training.)
- Special Competence Pediatric Ophthalmology and Strabismus: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat pediatric patients presenting with complicated illnesses, injuries, and disorders of the eye, including its related structures and visual pathways; and patients of all ages presenting with strabismus disorders. These privileges include, but are not limited to, cyclovertical muscle surgery on any age; cataract surgery, trabeculectomy, goniotomy, specialized nasolacrimal procedures on patients 12 years old or less, surgery for congenital ptosis and ptosis reoperations.
- Special Competence Oculofacial: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients of all ages, presenting with complicated illnesses, injuries, and disorders related to the orbit, adnexa, and related facial structures. These privileges include, but are not limited to, excision of complicated eyelid lesions; eyelid reconstruction other than primary closure; endoscopic forehead lifting and midfacial lifting; secondary eyelid surgery; surgery for congenital ptosis and ptosis reoperations; secondary and endonasal DCR and CDCR; orbital surgery (tumors, decompression, fractures, exenteration); optic nerve decompression; CO2 laser resurfacing.
- Use of surgical laser - Argon for glaucoma.
- Use of surgical laser - Argon and Diode for panretinal laser.
- Use of surgical laser - Diode for glaucoma.
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation.

MaryClare S. Sarff, MD, Active Staff
Department of Surgery/General Surgery

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy
- Stereotatic breast biopsy
- Adult Moderate Sedation-- Within CSC only

Tamara A. Scerpella, MD, Active Staff

Department of Orthopedics and Rehabilitation/Orthopedic Surgery

- Orthopedic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose consult, and treat patients presenting with illnesses, injuries and disorders of the musculoskeletal system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Complex hand surgery
- Supervision of Physician Assistant (With Prescriptive Authority) Brian Bruno, Jennifer Drake, Leslie Goodavish, Rebecca Nelson

Sanjeev R. Shah, MD, Active Staff

Department of Medicine/Nephrology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Nephrology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with illnesses, injuries, and disorders of the kidneys. These privileges include, but are not limited to, placement of temporary vascular access for hemodialysis; management of acute and chronic hemodialysis; placement of temporary catheter for peritoneal dialysis; management of peritoneal dialysis; continuous renal replacement therapy; initiation and supervision of continuous ultrafiltration/dialysis; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Percutaneous needle biopsy of the kidney
- Excluded from core(s): endometrial biopsy, endocervical polyp removal/biopsy, IUD insertion, punch biopsy of the skin, percutaneous needle biopsy (skin), soft tissue injection, liq. nitro cryosurg of the skin, place of temp cath- peritoneal dialy

Roberta M. Strigel, MD, Active Staff

Department of Radiology/General

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided needle, biopsy, ablation, drainage or aspiration.
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality.

Benjamin J. Walker, MD, Active Staff

Department of Anesthesiology

- Anesthesiology Core Privileges: Privileges to evaluate including performance of H&P, consult and administer anesthesia to patients for relief and prevention of pain during and following surgical, therapeutic and diagnostic procedures, including the monitoring and maintenance of normal physiology during the perioperative period and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods. These privileges include supervision of residents, fellows, and other persons in training.

Lee G. Wilke, MD, Active Staff

Department of Surgery/General Surgery

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Tommy C. Yu, MD, Active Staff

Department of Orthopedics and Rehabilitation/Rehab Medicine

- Rehabilitation Medicine Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with acute or chronic neuromuscular disease or disabilities. These privileges include, but are not limited to, anesthetic nerve block; arthrocentesis, electrodiagnosis, injection of neuromuscular block; neurolytic nerve block; soft tissue injection; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Additional Privileges

Nathaniel P. Brooks, MD, Active Staff

Department of Neurological Surgery

- Adult Moderate Sedation inside and outside the CSC.

Nilto C. DeOliveira, MD, Active Staff

Department of Surgery/Cardiothoracic

- Supervision on Physician Assistant with prescriptive authority (Dean Demarais, PA)

Niloo M. Edwards, MD, Active Staff

Department of Surgery/Cardiothoracic

- Supervision on Physician Assistant with prescriptive authority (Dean Demarais, PA)

Tabassum A. Kennedy, MD, Active Staff

Department of Radiology/General

- Adult Moderate Sedation inside and outside the CSC.

Jim Kim, MD, Active Staff

Department of Surgery/Fellow

- Organ Procurement

Takushi Kohmoto, MD, Active Staff

Department of Surgery/Cardiothoracic

- Supervision on Physician Assistant with prescriptive authority (Dean Demarais, PA)

Lucian Lozonschi, MD, Active Staff

Department of Surgery/Cardiothoracic

- Supervision on Physician Assistant with prescriptive authority (Dean Demarais, PA)

James D. Maloney, MD, Active Staff

Department of Surgery/Cardiothoracic

- Supervision on Physician Assistant with prescriptive authority (Dean Demarais, PA)

Philip Y. Wai, MD, Active Staff
Department of Surgery/Fellow

- Organ Procurement

Dai Yamanouchi, MD, Active Staff
Department of Surgery/General Surgery

- Adult Moderate Sedation--Inside and Outside CSC
- Therapeutic percutaneous peripheral vascular interventions including renal, femoral and brachiocephalic.
- Endovascular repair of arterial aneurysms (excluding coronary and intracranial aneurysms).

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Jon A Arnason, MD, Active, Medicine
Steven Attia, DO, Active, Medicine
Alanna M Kessler, PsyD, Clinical Psychology, Neurology
William J. Kinsey, MD, Active, Family Medicine
Ricardo V. Lloyd, MD, Active, Pathology and Lab. Medicine
Brian K Markhardt, MD, Active, Radiology
Cristopher A Meyer, MD, Active, Radiology
John D. Penner, MD, Active, Anesthesiology

Reappointments

The following reappointment applications have been endorsed by the UWHC Credentials Committee for two-year reappointments and are recommended to the Medical Board for approval/action:

Albertini, Mark R., MD	Medicine/Medical Oncology	Active
