

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff – September 8, 2010

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: June 25, 2010 and June 30, 2010
Medical Board: July 8, 2010

Michael Bentz, M.D., Chair of Medical Board &
President of Medical Staff

New Applications

Muhammad I. Atiq, MD, Active Staff
Department of Medicine/Hospitalist

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.

Eliza A. Bennett, MD, Active Staff
Department of Obstetrics and Gynecology/General

- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and supervision of residents, fellows, and other persons in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.
- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence, and supervision of residents, fellows, and others in training.

Michael T. Breen, MD, Active Staff
Department of Obstetrics and Gynecology/General

- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and supervision of residents, fellows, and other persons in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These

Review of Medical Staff

privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for postpartum hemorrhage and supervision of residents, fellows and others in training.

- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence, and supervision of residents, fellows, and others in training.
- Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.

Jennifer Y. Edgoose, MD, MPH, Active Staff**Department of Family Medicine/General**

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.
- Circumcision

Scott A. Ensminger, DO, Active Staff**Department of Medicine/Hospitalist**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Exercise stress testing (for non-cardiologists)
- Adult Moderate Sedation-- Inside and outside CSC

Scott A. Hagen, MD, Active Staff**Department of Pediatrics/Critical Care**

- Pediatric Critical Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat infants, children and adolescents in need of critical care. These privileges include, but are not limited to, endotracheal tube intubation; moderate (conscious) sedation; central venous line placement; peripherally

Review of Medical Staff

- inserted central catheter placement (PICC); arterial (peripheral/central) line placement; pleurocentesis; pericardiocentesis; chest tube placement; cardioversion; ventilator management; high frequency/oscillatory ventilation; pulmonary artery catheter placement and management; extracorporeal membrane oxygenation; and supervision of residents, fellows, and others in training.
- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.
- Pediatric Moderate Sedation
- Pediatric Deep Sedation

Laura M. Houser, MD, Active Staff**Department of Pediatrics/General**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.

Jennifer L. Hsu, MD, Active Staff**Department of Medicine/Infectious Disease**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Infectious Diseases Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with infectious or immunologic diseases. These privileges include supervision of residents, fellows, and other persons in training.

Kurt M. Jacobson, MD, Active Staff**Department of Medicine/Fellow**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Internal Medicine/Intermediate Care Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adults patients with medical illnesses in the outpatient setting (General Internal Medicine clinic). Includes lumbar puncture, thoracentesis, paracentesis, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training. These privileges also include care of patients via telemedicine.
- Central venous catheter insertion for access
- Exercise stress testing (for non-cardiologists)
- Adult Moderate Sedation-- Inside and outside CSC

Review of Medical Staff**Roy A. Jhagroo, MD, Active Staff****Department of Medicine/Nephrology**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracocentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Nephrology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with illnesses, injuries, and disorders of the kidneys. These privileges include, but are not limited to, placement of temporary vascular access for hemodialysis; management of acute and chronic hemodialysis; placement of temporary catheter for peritoneal dialysis; management of peritoneal dialysis; continuous renal replacement therapy; initiation and supervision of continuous ultrafiltration/dialysis; and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Percutaneous needle biopsy of the kidney

David K. Lee, MD, Active Staff**Department of Ophthalmology/Fellow**

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*. These privileges include supervision of residents, fellows, and other persons in training
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training.
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation

Christopher M. Manakas, MD, Active Staff**Department of Urology**

- Urology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses or injuries of the genitourinary system. These privileges include supervision of residents, fellows, and others in training.
- Use of surgical laser
- Laparoscopic urologic procedures
- Robotic Urologic Procedures

Ryan C. McDonald, MD, Active Staff**Department of Obstetrics and Gynecology/General**

- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and supervision of residents, fellows, and other persons in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for post-partum hemorrhage and supervision of residents, fellows and others in training.
- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges

Review of Medical Staff

include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence, and supervision of residents, fellows, and others in training.

- Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.

Anthony M. Muchard, MD, Active Staff**Department of Medicine/Hospitalist**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

Jason W. Pinchot, MD, Active Staff**Department of Radiology**

- Radiology Core Privileges: Performance and interpretation of all radiologic tests and procedures including plain film, ultrasound, CT, MRI, nuclear medicine, fluoroscopy of the head and neck, chest, abdomen, pelvis, extremities, gastrointestinal tract, genitourinary, and musculoskeletal system in adults and children. These privileges include, but are not limited to, doppler vascular imaging, transcranial doppler, arthrograms and joint aspirations, venography of major vessels, mammography and supervision of residents, fellows and other trainees.
- Imaged guided catheter placement.
- TIPs procedure.
- Transjugular liver biopsy.
- Image guided caval filter.
- Therapeutic percutaneous peripheral vascular interventions including renal, femoral and brachiocephalic.
- Tunneled catheter and port placement.
- Image guided percutaneous biliary dilatation, drainage, ballooning, stenting or biopsy.
- Image guided urological dilatation, drainage, ballooning, stenting or biopsy.
- Image guided embolotherapy.
- Therapeutic embolotherapy.
- Diagnostic percutaneous peripheral vascular interventions of the extracranial carotid.
- Image guided ablation and/or operative imaging of thoracolumbar or pelvic neoplasms.
- Image guided needle, biopsy, ablation, drainage or aspiration.
- Image guided spinal and/or paraspinal injection, aspiration, biopsy, ablation.
- Image guided analysis for surgery, biopsy or treatment planning using any imaging modality.

Allison C. Redpath, MD, Active Staff**Department of Pediatrics/Nephrology**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.
- Pediatric Nephrology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose,

Review of Medical Staff

consult and treat infants, children, and adolescents with documented or possible nephrologic disease. These privileges include, but are not limited to, hemodialysis; peritoneal dialysis; hemofiltration; kidney biopsy; paracentesis; peritoneal dialysis catheter placement; hemodialysis catheter placement; provision of immediate and longitudinal care for adults previously treated for pediatric nephrology conditions; and supervision of residents, fellows and others in training.

Jesse L. Roach, MD, Active Staff**Department of Pediatrics/Nephrology**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.
- Pediatric Nephrology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children, and adolescents with documented or possible nephrologic disease. These privileges include, but are not limited to, hemodialysis; peritoneal dialysis; hemofiltration; kidney biopsy; paracentesis; peritoneal dialysis catheter placement; hemodialysis catheter placement; provision of immediate and longitudinal care for adults previously treated for pediatric nephrology conditions; and supervision of residents, fellows and others in training.

Jocelyn A. Rowe, MD, Active Staff**Department of Ophthalmology/Fellow**

- Ophthalmology Medical and Minor Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries, and disorders of the eye, including its related structures and visual pathways*. These privileges include supervision of residents, fellows, and other persons in training.
- Ophthalmology Surgical Core Privileges: Privileges to perform basic surgical procedures considered a result of a residency training program including corneal micropuncture and debridement, astigmatic keratotomy, cataract surgery with or without IOL placement, glaucoma filtration surgery with or without antimetabolite, combined cataract and filtering surgery, strabismus surgery on horizontal muscles, enucleation, cryotherapy, primary repair of entropion, ectropion, eyelid injury, tarsorrhaphy, blepharoplasty, lacrimal intubation and irrigation. These privileges include supervision of residents, fellows, and other persons in training.
- Use of surgical laser - Argon for glaucoma.
- Use of surgical laser - YAG capsulotomy, iridotomy, cyclophotocoagulation
- Use of surgical laser - Keratorefractive surgery

Chandrasekar Santhanakrishnan, MD, Active Staff**Department of Surgery/Fellow**

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy, paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and supervision of residents, fellows, and others in training.
- Laparoscopic surgery
- Stereotatic breast biopsy
- Organ Procurement

David V. Smith, MD, Active Staff**Department of Orthopedics and Rehabilitation/Rehab Medicine**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including

those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.

Angela F. Veesenmeyer, MD, Active Staff
Department of Pediatrics/Hospitalist

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.

Nicholas H. Von Bergen, MD, Active Staff
Department of Pediatrics/Cardiology

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.
- Pediatric Cardiology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and treat infants, children and adolescents with cardiac disease or possible cardiac disease. These privileges include, but are not limited to, electrocardiography performance and interpretation; echocardiography; exercise testing; cardioversion/defibrillation; central venous/pulmonary artery catheterization; temporary transvenous pacemaker placement; pacemaker interrogation and programming; balloon atrial septostomy; pericardiocentesis; provision of immediate and longitudinal care for adults with congenital heart disease; and supervision of residents, fellows and others in training.
- Radiofrequency arrhythmia ablation

Jeffrey P. Yaeger, MD, Active Staff
Department of Pediatrics/General

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and supervision of residents, fellows, and others in training.

Additional Privileges

Vijay Vidyasagar, MD, Active Staff
Department of Medicine/Nephrology

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and supervision of residents, fellows, and others in training.
- Nephrology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat adult patients presenting with illnesses, injuries, and disorders of the kidneys. These privileges include, but are not limited to, placement of temporary vascular access for hemodialysis; management of acute and chronic hemodialysis; placement of temporary catheter for peritoneal dialysis; management of peritoneal dialysis;

continuous renal replacement therapy; initiation and supervision of continuous ultrafiltration/dialysis; and supervision of residents, fellows, and others in training.

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Rahul Bhatia, MD, Active, Pediatrics
James T Eastman, MD, Active, Pathology and Lab. Medicine
Jennifer V Huang, DO, Active, Medicine
Jay C Lick, DO, Active, Obstetrics and Gynecology
Josh Medow, MD, Active, Neurosurgery
Heather B Neuman, MD, Active, Surgery
Megan E Piper, PhD, Clinical Psychology, Medicine
Chad E Schneider, MD, Active, Medicine
Jeremy P Smith, MD, Active, Medicine
