

University of Wisconsin Hospitals and Clinics Board of Directors
Review of Medical Staff – September 8, 2010

The Medical Board, upon the recommendation of the Credentials committee, recommends approval of the following new applications, additional privileges, biennial reappointments and status changes for the medical staff. All of the recommended actions have been reviewed in accordance with the Medical Staff Bylaws. The credentials of all new applicants have been verified. All persons listed below meet the standards of the medical staff for the membership and privileges recommended.

Credentials Committee: August 2, 2010
Medical Board: August 12, 2010

Michael Bentz, M.D., Chair of Medical Board &
President of Medical Staff

New Applications

Margaret T. Bartholomew, MD, Active Staff
Department of Pediatrics/Hospitalist

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Taryn M. Bragg, MD, Active Staff
Department of Neurological Surgery

- Neurological Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the neurobiological system, including the supporting structures and vascular supply. These privileges include, but are not limited to, craniotomy and craniectomy; reconstructive cranioplasty; laminectomy; spinal fusion; chemonucleolysis; percutaneous discectomy; transsphenoidal hypophysectomy; CSF shunting procedures; radiofrequency chemical rhizotomy/chordotomy; intracarotid injection; peripheral nerve surgery; intraextracranial anastomosis; carotid endarterectomy; myelomeningocele repair; neurostimulation and recording; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Adult Moderate Sedation-- Inside and outside CSC

Melissa A. Cercone, MD, Active Staff
Department of Pediatrics/Critical Care

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses, including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Pediatric Critical Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat infants, children and adolescents in need of critical care. These privileges include, but are not

Review of Medical Staff

limited to, endotracheal tube intubation; moderate (conscious) sedation; central venous line placement; peripherally inserted central catheter placement (PICC); arterial (peripheral/central) line placement; pleurocentesis; pericardiocentesis; chest tube placement; cardioversion; ventilator management; high frequency/oscillatory ventilation; pulmonary artery catheter placement and management; extracorporeal membrane oxygenation; and supervision of residents, fellows, and others in training.

- Pediatric Moderate Sedation
- Pediatric Deep Sedation

David C. Goodspeed, MD, Active Staff**Department of Orthopedics and Rehabilitation/Orthopedic Surgery**

- Orthopedic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the musculoskeletal system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Complex hand surgery

Joseph P. Holt, III, MD, Courtesy Staff**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

Jesus I. Iruretagoyena, MD, Active Staff**Department of Obstetrics and Gynecology/Fellow**

- Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat pregnant patients. These privileges include, but are not limited to, ultrasound; fetal monitoring; amniocentesis; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Emergency Obstetrics Core Privileges: Privileges to evaluate including performance of H&P, diagnose, manage, and surgically treat pregnant and post-partum patients admitted to UWHC. This does not permit admission for the primary purpose of obstetrical services, except when such admission is required by law in emergencies. These privileges include, but are not limited to, vaginal delivery; outlet forceps delivery; cesarean section; electronic fetal monitoring; D&C and/or uterine exploration and exploratory laparotomy for postpartum hemorrhage and supervision of residents, fellows and others in training.
- Medical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and medically treat patients presenting with disorders of the female urogenital tract. These privileges include, but are not limited to, evaluation for gynecologic disease, screening for gynecologic cancers (including breast cancer), family planning and contraception, evaluation and treatment of endocrine dysfunction and infertility, termination pregnancy, colposcopy and cervical biopsy, endometrial biopsy, gynecologic ultrasound, evaluation and treatment of incontinence; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Surgical Gynecology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with benign and pre-malignant disorders of the female urogenital tract. These privileges include, but are not limited to, pelvic endoscopic procedures; dilatation & curettage of the uterus; surgical termination pregnancy; surgical exploration of abdomen, major and minor abdominal and vaginal surgical procedures, repair of simple injuries to the bladder or bowel, appendectomy, evaluation and treatment of incontinence; and supervision of residents, fellows, and others in training.

Review of Medical Staff

Charlotte O. Ladd, MD, Active Staff**Department of Psychiatry**

- Adult Psychiatry Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult and treat patients, above the age of 15, who suffer from mental, behavioral, or emotional disorders. These privileges also include care of patients via telemedicine. These privileges include supervision of residents, fellows and others in training.

Kevin M. MacDonald, MD, Active Staff**Department of Orthopedics and Rehabilitation/Orthopedic Surgery**

- Orthopedic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with illnesses, injuries and disorders of the musculoskeletal system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Complex hand surgery

Matthew D. Maruna, MD, Active Staff**Department of Pediatrics/Neonatology**

- Pediatric Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide care for infants, children and adolescents with complex problems or severe illnesses including those that are potentially life-threatening. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture; peripheral arterial puncture; peripheral venous puncture; neonatal circumcision; intubation; suprapubic bladder tap in the care of newborn infants greater than 2000 grams; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Anna K. Olson, MD, Active Staff**Department of Human Oncology**

- Radiation Oncology Core Privileges: Privileges to evaluate including performance of H&P, diagnose, consult, and treat patients of all ages, with malignant and benign tumors, as well as other conditions where radiotherapy has a role. These privileges include, but are not limited to, administration of external beam radiation therapy, brachytherapy, naked or tagged radioisotopes (including intralesional, intracavitary, intracystic, intravenous, intra-arterial or other routes of administration), radiosensitizers, radioprotectors and other therapeutic drugs required in the routine management of these patients; management and maintenance of indwelling brachytherapy catheters and other devices for delivery of brachytherapy or other forms of radiation; performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.

Surya J. Pierce, MD, Active Staff**Department of Family Medicine**

- Family Medicine Adult Core Privileges: Physicians granted these privileges shall be able to care for patients with more complicated medical problems. If a diagnosis cannot be established after reasonable investigation, or if there is a serious threat to a patient's life, consultation shall be obtained. Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide treatment to adult patients with general medical problems. These privileges include, but are not limited to, suturing of uncomplicated lacerations; I&D of abscess; simple skin biopsy or excision; removal of nonpenetrating corneal foreign body; uncomplicated minor closed fractures (not involving traction or major manipulation); uncomplicated dislocations; lumbar punctures; diagnostic endometrial sampling; peripheral intravenous cannulation; peripheral arterial puncture; lumbar puncture; preoperative care of surgical patients; postoperative medical care of surgical patients; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and other persons in training.
- Family Medicine Pediatric Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult and provide non-surgical treatment to pediatric patients without major complications or serious life

Review of Medical Staff

threatening disease. These privileges include, but are not limited to, the care of normal newborn as well as the uncomplicated premature infant equal to or greater than 36 weeks gestation; and supervision of residents, fellows, and other persons in training.

- Breast biopsy

Thomas D. Shiffler, MD, Active Staff**Department of Medicine/General Internal Medicine**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access

Matthew C. Tattersall, DO, Active Staff**Department of Medicine/Fellow**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.

Michael V. Tirabassi, MD, Active Staff**Department of Surgery/General Surgery (Pediatric)**

- General Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with disorders, illnesses or injuries of the alimentary tract, the abdomen and its contents, breast, skin, soft tissue, head and neck, endocrine system and minor extremity surgery. These privileges include, but are not limited to, insertion and management of arterial catheter, insertion and management of chest tubes, insertion and management of central venous catheters, lumbar puncture, pericardiocentesis, tracheostomy; paracentesis, management of trauma, and complete care of critically ill patients with underlying surgical conditions; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.
- Laparoscopic surgery
- Upper gastrointestinal endoscopy
- Colonoscopy
- Cardiothoracic Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses, injuries, and disorders of the chest and abdomen, including the support structures and vascular supply to the extremities and brain. These privileges include transplantation of the heart and/or lung; ventricular assist devices; pediatric cases within scope of training; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows, and others in training. General Thoracic privileges for pediatric and trauma only
- Peripheral Vascular Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with diseases and disorders of the arterial venous and lymphatic circulatory systems, excluding those of the heart, thoracic aorta and intracranial vessels. These privileges include, but are not limited to, infrarenal abdominal aortic surgery (including ilacs); portosystemic shunts; visceral artery thrombectomy or embolectomy; aortorenal procedures; thoracoabdominal procedures; intrarenal procedures;

Review of Medical Staff

carotid surgery; upper extremity artery repair or bypass (including dialysis shunts); lower extremity artery repair or bypass; upper and lower extremity embolectomy; angiography, intraoperative angiography; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training. Pediatric and trauma patients only

- Urology Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and surgically treat patients presenting with illnesses or injuries of the genitourinary system; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training. Privileges are for pediatric patients only
- Laparoscopic urologic procedures

Adarsh K. Varma, MD, Active Staff**Department of Medicine/Hospitalist**

- Internal Medicine/Major Care Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat adult patients with medical illnesses. These privileges also include care of patients via telemedicine. These privileges include, but are not limited to, lumbar puncture, thoracentesis, paracentesis, arterial line insertion, diagnostic or therapeutic joint aspiration/injection, endometrial biopsy, endocervical polyp removal/biopsy, intrauterine device (IUD) insertion, punch biopsy of the skin, percutaneous needle biopsy of a breast mass or skin lesion, soft tissue injection, liquid nitrogen cryosurgery of the skin or other appropriate lesion, and perform waived laboratory testing not requiring an instrument; including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods and supervision of residents, fellows, and others in training.
- Central venous catheter insertion for access
- Adult Moderate Sedation-- Inside and outside CSC

Additional Privileges

Geoffrey Baer, MD, Active

Department of Orthopedics and Rehab: Orthopedic Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Rebecca Nelson, PA)

Mustafa Baskay, MD, Active

Department of Neurological Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Shelly Schmoller)

Kris Chan, MD, Active

Department of Neurological Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Shelly Schmoller)

Robert Dempsey, MD, Active

Department of Neurological Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Shelly Schmoller)

Praveen Deshmukh, MD, Active

Department of Neurological Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Shelly Schmoller)

Ben Graf, MD, Active

Department of Orthopedics and Rehab: Orthopedic Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Rebecca Nelson, PA)

Amgad Hanna, MD, Active

Department of Neurological Surgery

- Supervision of Physician Assistant with Prescriptive Authority (Shelly Schmoller)

James Keene, MD, Active

Dai Yamanouchi, MD, Active Staff

Department of Surgery/General Surgery

- Peripheral Vascular Surgery Core Privileges: Privileges to admit, evaluate including performance of H&P, diagnose, consult, and treat patients presenting with diseases and disorders of the arterial venous and lymphatic circulatory systems, excluding those of the heart, thoracic aorta and intracranial vessels. These privileges include, but are not limited to, infrarenal abdominal aortic surgery (including iliacs); portosystemic shunts; visceral artery thrombectomy or embolectomy; aortorenal procedures; thoracoabdominal procedures; intrarenal procedures; carotid surgery; upper extremity artery repair or bypass (including dialysis shunts); lower extremity artery repair or bypass; upper and lower extremity embolectomy; angiography, intraoperative angiography; and performing waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal PH by paper methods; and supervision of residents, fellows and others in training.

Focused Professional Practice Evaluation Review

The following focused review applications have been endorsed by the UWHC Credentials Committee and are recommended to the Medical Board for approval/action:

Ahmad Atassi, MD, Active, Radiology/Fellow
Kristina E. Catrine, MD, Active, Pediatrics/Hospitalist
Ann E. Curtis, MD, Active, Medicine/Hospitalist
Andrea Martonffy, MD, Active, Family Medicine
Tyler H. Steward, MD, Active, Medicine/Geriatrics
