Information and Application Materials
2017-2018
University of Wisconsin Hospitals and Clinics (UWHC)
PGY-2 Pharmacy Residency in Internal Medicine

UNIVERSITY OF WISCONSIN HOSPITALS AND CLINICS
600 Highland Avenue
F6/133 CSC; Mail Code 1530
Madison, Wisconsin 53792

ASHP Program Code: TBD
National Matching Service Code: TBD

Accreditation Status: Pre-candidate

Director of Pharmacy: Steve Rough, M.S., R.Ph.
(608) 263-1290
Fax: (608) 263-9424
E-mail: SRough@uwhealth.org

Program Director: Philip J. Trapskin, PharmD, BCPS
(608) 263-1328
Fax: (608) 263-9424
E-mail: PTrapskin@uwhealth.org

Residency Program:
Duration/Type: 12 months PGY-2 Pharmacy Residency in Internal Medicine
Number of Positions: 1
Application Deadline: January 2, 2017
Starting Date: July 10th, 2017
Estimated Stipend: $47,500
Interview Required: Yes

Special Features: This program provides residents with extensive experience in an advanced clinical practice setting along with opportunities to conceptualize, integrate, and transform accumulated experiences into skill and competence in providing patient care. Residents have the opportunity to receive training in areas including internal medicine, infectious diseases, cardiology, hematology, oncology, gastroenterology, nephrology, pulmonology, rheumatology, solid organ transplant, informatics, drug policy, clinical leadership, primary care, anticoagulation, emergency medicine, nutrition support, pharmaceutical research, medication safety, hospice, palliative care, home infusion, and specialty pharmacy.

Fringe Benefits: Health insurance (health/vision/dental), 14 vacation days/holidays, 5 days sick leave, funding for professional meetings, travel days to visit other health systems, access to the University of Wisconsin’s recreation, educational and cultural facilities.

Special Requirements for Acceptance: Completion of an ASHP-accredited PGY1 Pharmacy Residency, achievement of licensure in Wisconsin no later than September 1, 2017, and completion of all application materials by January 2nd and an onsite interview.
**Training Site:**

Type: Hospital/Health System  
Owner/Affiliate: Public Authority  
Model Type(s): Teaching, Tertiary  
Patient volume: 30,794 admissions; 55,660 emergency room visits; 1,843,835 outpatient visits  
Tax Status: Nonprofit  
Leadership FTE: 32  
Pharmacist FTE: 149  
Technician and Support FTE: 202  
Total Beds: 648  
Other statistics: 7 intensive care units with the following bed distributions (99 beds): 26 Medical/Surgical ICU, 21 Pediatric ICU, 14 Neonatal ICU, 7 Medical/Cardiac ICU, 8 Cardiothoracic Surgery ICU, 7 Burn ICU, 16 Neurology/Neurosurgery ICU; 18 bed Psychiatric Unit; 117 outpatient clinics; 617 house staff (physician residents/fellows); 1046 Med Flights

**Special Features:** Ranked as a top 5 hospital for quality among 333 ACOs. Named the top hospital in Wisconsin by U.S News & World Report magazine in 2012-2016. Ranked among the top 10 academic health centers nationwide in a University Health System Consortium benchmarking study of safety, mortality, clinical effectiveness and equity in delivery of care. Named among the “100 Best Companies” in the nation by Working Mother magazine for nine consecutive years. Recognized by Health Information Management Systems Society (HIMSS) as one of 38 hospitals in seven health systems nationwide to attain Stage 7 (of 0 - 7) for electronic health record implementation. Recognized as one of the nation’s Most Wired and Most Wireless hospitals by Hospitals and Health Network magazine. One of 19 BOLD organizations (Best Organizations for Leadership Development). One of the top 100 Great Hospitals in America (Becker’s Hospital Review).

The department’s drug distribution system is heavily supported using automation, innovative robotic and point-of-care technology, which is supported by a fully integrated information system and network. Pharmacist involvement at every step of the medication use process provides high levels of safety and quality in the provision of patient care. The department manages 14 retail pharmacies, a home care company, hospital and long-term care consulting services, Unity Health Insurance, a telepharmacy mail order service, and a hospice hospital.

**Major Programs**

**Critical Care**—Med Flight critical care air transport service, established April 1985; fully equipped emergency room; trauma center with Level One status for both adult and pediatric care; burn unit; pediatric intensive care unit; cardiac and medical intensive care units.

**UW Carbone Cancer Center**—One of 41 federally designated centers for cancer treatment and research. The UWCCC also has five affiliated regional cancer centers throughout Wisconsin and Illinois.

**American Family Children’s Hospital**—An 87-bed pediatric hospital adjacent to UW Hospital and Clinics, nationally known for treatment of children’s lung diseases, cardiac surgery and other pediatric specialties.

**Organ Transplant**—One of the nation’s largest programs, with patient outcomes consistently cited among the best in the nation. Recognized by US Department of Health and Human Services as an organ procurement best practice site.

**Heart and Vascular Care**—Offers a comprehensive program of prevention, expert diagnosis and treatment of full spectrum of heart-related diseases.
**Stroke Center**—Offers one of the most comprehensive sets of stroke studies in the nation, including testing of multiple surgical interventions, advanced diagnostic imaging and medications and therapeutic interventions for acute stroke and its after-effects. Certified as a Comprehensive Stroke Center by the Joint Commission and the American Heart Association/American Stroke Association.

**Program Statement of Purpose:**

The PGY2 Pharmacy Residency in Internal Medicine is designed to transition PGY1 Pharmacy resident graduates from a general to specialized practice focused on the care of adults with medical problems, primarily in the inpatient setting.

**Program Philosophy:**

Residents who successfully complete the Program will be able to provide integrated pharmaceutical care at a patient-specific level as well as a patient population level across continua of care. Furthermore, the program will provide residents with opportunities to conceptualize, integrate, and transform accumulated experiences and knowledge into skill, competence, and confidence in providing safe, efficient, and cost-effective patient care.

Residents will develop a philosophy of practice that includes:
- Pharmacists’ responsibility and accountability for pursuing optimal drug therapy outcomes and medication safety in the provision of patient care
- Education and training of other health professionals and students
- A program of self-learning and continuing professional development
- A commitment to the profession and their community
- An appreciation for scholarly activity

**Accreditation**

The University of Wisconsin Hospital and Clinics PGY-2 Pharmacy Residency Program in Internal Medicine has American Society of Health-System Pharmacists pre-candidate accreditation status.

**The Residency Year, Numbers, and “The Match”**

The residency is 12-months in duration starting on July 10th, 2017. A maximum of one resident is accepted into the program annually. The program participates in the ASHP Residency Matching Program and ASHP Pharmacy Online Residency Centralized Application Service (Phorcas).

**Program Director and Preceptors**

The residency program director is Philip J. Trapskin, Pharm.D., Pharmacy Manager, Patient Care Services and Drug Policy

Clinical pharmacists and pharmacy administrative staff serve as preceptors for individual rotations and as advisors for research and professional development. Members of the clinical faculty affiliated with the UW School of Pharmacy work with residents on research projects, presentation advising, clinic involvement, and precepting pharmacy students.
Application Deadline

All application materials for the PGY2 Pharmacy Residency in Internal Medicine at UWHC must be received by January 2, 2017.

Stipends & Benefits

Residents during 2017-2018 will receive a stipend of $47,500/year. Residents receive 5 paid vacation days, 9 legal holidays and 5 sick days per year and are not required to use vacation time to attend meetings. As employees of University of Wisconsin Hospital and Clinics, residents receive full health, vision and dental insurance benefits and full access to the University of Wisconsin’s recreational, educational, and cultural facilities. Further information on benefits can be obtained at www.uwhealth.org/careers.

The Residency Experience

Rotations: The resident will complete one 4-week training/onboarding period, eleven 4-week clinical rotations, and longitudinal experiences in ambulatory care clinics.

Activities while on rotation will include, but are not limited to:
- Collaboratively managing drug therapy with other members of the healthcare team
- Daily rounds with the healthcare team
- Admission histories (completed for all UWHC patients)
- Discharge teaching (completed for all UWHC patients)
- First-dose teaching
- Patient monitoring and documentation
- Pharmacokinetic calculations and dose adjustments
- Investigation of medication error reports and patient/medication safety follow-up
- Adverse drug event reporting
- Drug information; literature review; reading and contributing to team files
- Attending and participating in code situations
- Quality improvement activities
- Team-related research projects
- Communication and interaction with team preceptor and pharmacists
- Communication and interaction with physicians and nurses
- Working with students (1st, 2nd and 3rd year IPPE students, 4th year APPE students)
- Instructional and patient case presentations

**Clinical Staffing:** Pharmacy services are provided by teams of pharmacists within an integrated practice model. These teams of pharmacists are decentrally based and provide care as part of the interprofessional team through patient care rounds, clinical monitoring, medication order review, admission histories, first-dose teaching, discharge teaching and care coordination, code and stroke response teams, drug information provision, medication use stewardship. The table below depicts which medical services/units are covered by which pharmacist teams. Residents staff **in the same roles as their preceptors** on the medicine team which covers 5 hospitalist services, 3 internal medicine services, an advanced pulmonary service, a family medicine service, and a geriatric consult service (ACE). On average, the resident will staff 12 hours every week, including every other weekend.

**Projects:** Each pharmacy resident completes at least one major research project. Projects are presented at the Vizient University Health System Consortium Pharmacy Network resident poster session prior to the ASHP Midyear Clinical Meeting and Great Lakes Pharmacy Resident Conference. Residents are strongly encouraged to submit a manuscript for publication. Projects are selected off a vetted list provided by the resident advisory committee and usually 70 – 80 projects are available to select from. All projects include implementation of change that expands or enhances patient care or pharmacist roles at UW Health. Everything our department has accomplished is a result of resident projects.

**Presentation Opportunities:** Residents have ongoing opportunities to improve their speaking skills as they prepare for and participate in “Resident Report,” which is an opportunity for residents, preceptors and students to discuss patient cases and how to improve their clinical practice. In addition, residents provide educational presentations and in-services and can present at Pharmacy Grand Rounds or in University of Wisconsin School of Pharmacy courses. All residents will present their research, quality improvement and drug usage evaluation projects at local, regional and national meetings.

**Teaching Opportunities:** Residents receive clinical instructor status at the University of Wisconsin School of Pharmacy. They have the opportunity to take an active role in teaching second- and third-year students in pharmacotherapy lab and precepting fourth-year students on clinical rotation at the hospital. A teaching certificate program for residents at area hospitals is offered in conjunction with the University of Wisconsin School of Pharmacy. Additional elective rotations with School of Pharmacy faculty are available.
Other activities:
- Weekly resident seminar – local and national speakers discussing clinical and administrative topics
- Participation in clinically-focused committees
- Advanced Cardiac Life Support training
- Every resident is provided a mentor to meet with monthly for guidance and support
- Interprofessional mock codes in the state of the art simulation center
- Participation in resident group service projects/volunteering
- Interact with your co-residents (~26 residents / year currently – programs include critical care, infectious disease, oncology, transplant, administration, medication systems and operations, specialty pharmacy, ambulatory care, internal medicine, drug policy, pediatrics and informatics)

Travel: Residents receive travel support to attend the ASHP Midyear Clinical Meeting, the Great Lakes Pharmacy Residents Conference, and a spring visit to other health systems and residency programs in order to observe, learn, and share ideas.

Duty hours: The residency program follows duty hour definitions and recommendations from the Accreditation Council for Graduate Medical Education, [www.acgme.org](http://www.acgme.org). Duty hours are defined as all clinical and academic activities related to the program; i.e., patient care (both inpatient and outpatient), administrative duties relative to patient care, the provision for transfer of patient care, time spent in-house during call activities, and scheduled activities, such as conferences. Duty hours do not include reading and preparation time spent away from the duty site.
- Duty hours must be limited to 80 hours per week, averaged over a four-week period, inclusive of all in-house call activities.
- Residents must be provided with one day in seven free from all educational and clinical responsibilities, averaged over a four-week period.

Extended leaves of absence: All resident leaves of absence and sick leaves are governed by University of Wisconsin Hospital and Clinics Policies and Procedures. In situations of an extended leave of absence, the resident may petition the Resident Advisory Committee for an extension of their residency end date to complete required residency goals and objectives. All decisions related to extensions are made on a case-by-case basis. Please contact the program director if you have additional questions about our leave of absence or sick leave policies.
How Do I Apply?

Applications
Applicants should submit a standard application (personal statement / letter of intent, 3 references, and a CV) through the Pharmacy Online Residency Centralized Application Service (PhORCAS). Please encourage reference writers to add a brief program specific comment when able.

Application Deadline
The application deadline for all residency programs is January 2, 2017.

On-Site Interviews
Applicants selected for an on-site interview will be contacted by the current resident(s) to discuss available dates. Interviews are typically scheduled on Mondays and Fridays as full-day interviews. You may also contact the administrative assistant, Jenny Lendborg at jlendborg@uwhealth.org or (608) 263-1290, to direct you to the residency program director regarding any questions about the interview or the program.

The ASHP Matching Program results are announced in March 2017. If you match at UW Hospital and Clinics, you will receive a letter of acceptance from the program director and an official job offer from UW Hospital and Clinics Human Resources with salary/benefit information, including preliminary on-boarding information.

ASHP Midyear Clinical Meeting
Interested residents are encouraged to visit our residency showcase booth and/or contact the program director, Philip Trapskin ptrapskin@uwhealth.org to set-up a PPS interview, and/or attend the Wisconsin Reception to learn more about the program and meet current residents/preceptors.
