

Durable Medical Equipment (DME) Suppliers

Your physician has recommended that you use a CPAP or Bi-level PAP machine to treat your sleep disorder. You may select the Durable Medical Equipment (DME) provider you wish to use, based on your preferences and those of your health insurance plan.

For your convenience, we are happy to provide you with a list of area DME providers who deal with CPAP and Bi-level PAP machines and supplies. While most major health plans offer some DME coverage, we recommend that you contact your insurance carrier to determine their preferred DME vendor(s) and the level of your benefit coverage.
